The Republicans Organize.

Last week we gave the prohibition organization a column. We will try and be as liberal with our Republican friends, who had announced through some means that Judge J. C. Tolman, vice-president of the Republican state league of Oregon for Jackson county, would organize a Republican league for Ashland and vicinity at McCall's hall on Saturday at 2 o'clock, p. m.

At the appointed time a Record reporter had planked himself down and viewed operations. Eleven men and one woman were in the hall at the time, and before the meeting was over W. N. Luckey dropped in. The twelve apostles were: W. H. Atkinson, A. S. Hammond, C. E. La Valley, J. C. Tolman, W. P. Squire, Postmaster Hammond, P. Dunn, Geo. Crowson, Mr. Myers, J. M. Hicks, W. H. Lewis and Luckey. The silliness of the crowd needs an explanation. It is not, as some people seem to think, that the Republicans had a bad day and had to go to bed, who are too tough to die or too incorrigible to reform.

There are more Republicans in this town, or were last presidential election. However, since then our pious President Harrison has conceived a decidedly poor opinion of Ashland Republicans, or Ashland Republicans have very poor representatives as leaders. But we will take out to the fact that there are more Republicans than that in Ashland. Yet they weren't there. And several of them who are suspicious lest the party machinery should be made to load up with the additional names of the "ring" were kicking about it, charging that it was a concocted job calling the meeting for Saturday afternoon, the latest hour in the week when it was known the rank and file, the bone and sinew, of the party were toiling hard at McKinley's wages, and when only the few non-producers could get together and "fix" the machinery of the league. However, it is our opinion that the raking up of only the faithful apostles could have been avoided by our friends doing two things, viz., placing the meeting hour in the evening and putting their announcement in the Record. Every body reads the Record and pays attention to what it says, although it is a very vile paper and its editor has had his teeth but the "common herd" irrespective of all parties read this paper and call it a hell-of-a-paper. The aristocracy also, irrespective of Democrats, Republicans or Progressives, is a demoralizing paper; destroying the George Washington-like attitude of our most high and exalted citizens who are always critics and the "common herd" prints things they don't approve of, hence has no "influence," etc., etc. But they, too, read it carefully; they see, they say, of course. If the league wanted the "common herd" out with the non-producing aristocracy they would have had a crowd of house by advertising in the Record.

The apostles finally got themselves together and elected themselves to the following offices: President, W. H. Atkinson; 1st vice-president, A. S. Hammond; 2d vice-president, W. N. Luckey; secretary, W. P. Squire; treasurer, J. C. Tolman. There was an executive committee of five to be named and two to spare present, it was not deemed that they were quite "well-to-do" enough, some had had seeds in their hair so the apostles adjourned again as quietly as they pulled together. They will probably not be heard of again until the campaign of next June, unless "the ring" should attempt to bring them into service to make the Republicans haul "the ring" chestnuts out of the city election fire.

Deafness Can't be Cured by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by using Serravallo's Deafness Cure, caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this is the case, Serravallo's Deafness Cure is entirely correct. Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are cured by this cure, which is nothing but an inflamed condition of the mucous lining of the ear. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that we cannot cure by taking Serravallo's Deafness Cure. Send for circulars, free. J. J. SERRAVALLO & CO., Toledo, O. The north-bound freight was derailed Sunday morning about 5 o'clock a little north of Tunnel 9. The train cut in two at the summit leaving the caboose, a flat car containing lime from the Portland quarry and a box car at the last end of the train. The first section ran ahead of the second, but being down grade the last section soon caught up and ran into it with a terrific force. In the caboose were Conductor Will Jamieson and brakeman Doll Huff. Brakeman Doll Huff was at the rear end of the flat car of lime, and brakeman Jack Cochran was climbing up on the box car when the crash came. The caboose was cut in two and the middle and badly mangled up generally by the contents of the flat car of lime.
