I should have stated in my last that during the month of December the waters of Antelope, Dry creek and lower Little Butte were as high as they were at any time in '61 and '62. The water washed away a great amount of fencing for James Matney and Wm. Wiley, also washed away considerable soil for D. Kincade and Mrs. Cochran.

COUNTY POLITICAL GOSSIP.

The RECORD man took a spin about the The RECORD man took a spin about the county Friday and Saturday, and was surprised at the amount of political talk going on this early. The people in the Valley seem to have taken an exceedingly great interest in the late city election of Ashland, and everybody expressed themselves as well pleased in the victory of Mayor Grainger, and the people's party against the selfish bank gang. Among the tangible items picked up were:

Eagle Point has taken another boom. Some of the citizens took it into their wise heads to build a railroad depot and so Messrs. Robinet. Coy and Hubbard have been building a house for that purpose (or some other), about 20x40 feet and 8 feet high. The upper story is to be used as a city hall and one corner for a calaboose. They fully expect the R. R. extension from Medford to run right along by it; but in the meantime Messrs. Robinet and Hubbard expect to use it for a blacksmith and wagon shop.

I understand that the Eagle Point athletic and boxing club contemplate having arrother new dearsture. Some of them say mers to do a little thinking for them- he is one of the compositors of the

Some of them saw in the Examiner that a woman had knocked the wind out of McMahon in Indianapolis so they have decided to invite John L. Sullivan to meet a young woman of our town in the club room for a purse—the amount to be decided. They are confident that she can knock him out in less than five rounds. Verily this is a progressive age.

A short time ago one of our Butte creek gentlemen went to Medford to see his best girl, staying until about 9 p. m. when he started for his hotel but in the darkness he mistook the ditch full of water for the side walk, stepped off into the water and the result was that he had to sleep in his wet clothes, took a very severe cold, and now he says that he thinks that the city dads ought to light up the town on the west side as a friend of his living on Sticky, who went to see the same girl, met with the same mishap. Again Caught Misrepresenting Facts.

The Royal Baking Powder Company has resorted to so many tricks to force its way upon the public, that whenever any cry of fraud is raised the public instinctively turns to the Royal Baking Powder Company.

Is it any wonder?

The Royal has recently printed a statement purporting to be an interview with Dr. Benjamin F. Drew, state chemist and analyst to the Food and Dairy Commission of Minnesota, to the effect that the Royal Baking Powder is all which the company asserts it to be. The statement is made that Dr. Benjamin F. Drew, state chemist and analyst to the Food and Dairy Commission, made the representations referred to before the legislative committee at the last session, which examined various baking powders.

WHAT IS THE TRUTH?

1st. There is no such person as Dr. Benjamin F. Drew, state chemist and analyst to the Food and Dairy Commission

2d. There is a Dr. Charles W. Drew, who is state chemist and analyst to the said commission.

3d. He denies the statement in question of the Royal Baking Powder Company, generally, as follows: 1st. The statements in no sense represent his attitude

2d. There has never been, either in the published reports of the chemist of the commission, in his testimony before the legislative committee or elsewhere, any implied endorsement of the Royal Baking Powder as superior to

3d. At the session of the legislative committee before which Dr. Drew testified, an attempt was made by the attorney of the Royal Company to secure the statements which

the Royal Company has since printed, which attempt failed. 4th. On the contrary, Dr. Drew did say there were sufficient grounds for objection to the presence of ammonia in baking powders to justify the legislative committee in recommending that all such powders be required to announce upon their labels the fact that Ammonia was one of the constituents; and Dr. Drew further expressed to the committee the following emphatic opinion: "I would not recommend such powders to my patients, nor would I use them in my own family."

The Price Baking Powder Company makes a Pure Cream Tartar Baking Powder, free from ammonia, alum, lime or any taint of impurity, and feels it owes a duty to the public as well as to itself to lay bare such trickery as the Royal resorts to in trying to wheedle the consumer into using its Ammonia Powder.
