Rev. Dr. A. S. Dixon, a prominent Brooklyn minister has been sued for \$5000 for libel by Col. Robt. G. Ingersoll. Dixon, in discussing Ingersoll, said the latter had promulgated and circulated obscene reading matter. Ingersoll asked him to retract. Dixon refused and reiterated the charge. The trial will come to issue within about a month. If these to issue within about a month. If these to issue within about a month. If these trades on the charge introduced a bill to punish two gifted gentlemen were to come to issue in a discussion of the two prominent issues they represent, it might enlighten the world of thought. But the issue of libel will only gratify the sensational influences of human nature, and be of no particular benefit to mankind.

The young Kaiser of Germany is the bravest public man of Europe and as a statesman breathes a deeper sympathy in the workingmen than any of the standard statement of his land, while on temperance and virtue he takes a deethrough with his stand. But attacks a destrough that the will of the emperor is law, etc. For these sentiments he is accused of losing his mind, taint in the family, etc. We don't see it that way. Aside from this the young Kaiser is brave man. When he went on the thron he went there to rule and the first thing he did was to dismiss Bismarck, which made timid people think Germany would go to the devil right away. During the mobfeeling the other day in Berlin, accompanied only by a weak-looking aid he rode through the streets at a critical time when most monarchs would have been hunting their boom proof cellars. Upon being consulted about bringing the soldiers from the garrison to protect his house he bravely replied that when the soldiers left the garrison he would lead them, which meant that his fate was their fate. Although we differ with the young Kaiser's ideas that a Deity has any more to do with conducting him went there to rule and the first thing he has any more to do with conducting around than He has the millions of ot around than He has the millions of others who failed to come into the world through "a royal family," we do admire his supurb nerve and consider him the best ruler in Europe.

Representative Loud declares that Geary's anti-Chinese bill will never do because of the section which admits Chinese visitors to the World's fair, or whose people are so sacriligeous and tainted with intidelity as to spurn the idea of the divinity of a monarch or a royal family. It is quite unbecoming to these two small minorities to call an emperor crazy for expressing his rights when the people, the schools, the government, the churches and everything else bind everything with an oath to this same order of affairs in such powerful Christian nations as Austria, England and its colonies, Italy, Spain, Russia and his own Faderland.

For which we shall endeavor to make Proper Amends.

Owing to incidental changes in the personnel of our establishment a new clerk temporarily in charge unfortunately entered on the charge book some items like the following:

"One can of Baker's Cocoa, to old lady with grey curls," "Two cans sweet corn, Yum Yum brand, to red-headed girl."

"One can Pioneer Baking Powder to man who was buying city scrip at par." (Couldn't be found.)

"Two pounds sulphate of copper, to man with sure antidote for fruit peststhe claimed recognition of Ashland Growers' Association." "One bottle celery salt and bottle Durand's olives to soup house."

"I can red pepper to lady from country whose dog was shot."

"One pound beans, to man selling stock of Electric Light company."

"One sack 15x flour to man opposed to wheat trust."

"Two pounds chicken mackerel to man opposed to meat monopoly." "One head of cabbage to man with a street grievance."

These excerpts are plainly cases of mistaken identity and have been obliterated from our blotter and we shall continue to sell the finest groceries on a basis of

NO MORE BACK ACHE

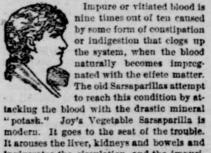

"Judge S— had been sick only about two weeks, and it was not until the last three or four days that the malady took a serious turn. At the beginning of his illness he suffered from diabetes and stomach disorder. Later the kidneys refused to perform their functions and he passed quietly away. Thus ended the life of one of the most prominent men in California." Like thousands of others his untimely death was the result of neglecting early symptoms of kidney disease.

- IF YOU are troubled with diabetes, gravel, or any de-rangement of the kidneys or urinary organs, don't delay proper treatment until you are forced to give up your daily duties; don't waste your money on worthless liniments and worse plasters, but strike at the seat of the disease at once by using the greatest of all known remedies, the celebrated Oregon Kid-ney Tea. It has saved the lives of thousands. Why should it not cure you? Try it. Purely vegetable and pleasant to take. \$1.00 a pack-age, 6 for \$5.00.

FOR SALE BY J. C. BARREIT & CO The directors of Eastman's company f London have issued a report for 1892. They estimate the falling off in sales of merican meat in England at £69,000, which they attribute to high prices of attle and excessive competition. Rioting was indulged in by the un-

imployed at Berlin. About 5,000 peoole gathered in front of the royal palace and demanded bread or work. A serious ontbreak was feared. The police dispersed the mob after a hard struggle. One hundred participants were arrested. It is now estimated that 400,000 miners n England will quit work within a fortright in their effort to prevent a reduction of wages. Should the present intention of the miners be carried out and a strike inaugurated, this branch of the ndustries will be seriously affected and it is estimated that 1,000,000 men will feel the effects of the struggle. The price of coal is rapidly rising in London. The increase will fall heavily on the ness, Robes, Whips, &c., &c., poorer classes.

Bad Blood.

tacking the blood with the drastic mineral "potash." Joy's Vegetable Sarsaparilla is modern. It goes to the seat of the trouble. It arouses the liver, kidneys and bowels and Invigorates the circulation, and the impurities are quickly carried off through the natural channels. Charles Lec, at Beamish's

Third and Market Sts., S. F., writes: "I took it for vitiated blood and while on the first bottle became convinced of its merits, for I could feel it was working a change. It cleansed, purified and braced thing is now working full and regular."
