Evangelist Morgan Rotten-Egged.

The Sisson Mascott says Thomas Morgan, the end of the world on the 29th day of March evangelist, was treated to a few dozen of the vilest eggs that could be procured in the community, at one of his recent Sunday evening meetings. The Mascott says "the only deplorable feature of the egging is that a young lady was struck accidentally." The Mascott has great respect for religion and preachers, but it cannot help referring to this egging in a patronizing way. Although the RECORD regrets to see even a fool and insane man's personal rights to a free exposition of his ideas used in that way, the public (orthodox or infidel) mind will call it "reaping his own reward."

A Josephine County Bear Cave.

Grants Pass Observer.]

S. J. Bingaman, who resides at Williams, has discovered a cave near his place, at the foot of old Greyback mountain, which is apparently the rendezvous of bears. While out hunting recently he ran across a large bear, which Mr. B. and his son pursued. Bruin, finding himself in close quarters, turned on his pursuers and got close enough to sniff at Mr. B's toes, and then dropped back under a ledge of rock out of the range of their guns. The bear managed to avoid them until he had crawled through a hole into another compartment. The hunters followed him, and here bruin again showed fight, jumping at the elder Bingaham, who ordered his son to shoot; young Bingaman did so, and the shot took effect. The now maddened bear dropped into a convenient hole and disappeared, and not being familiar with the subterranean passages the hunters gave up the chase for the present.

As this cave has heretofore been unknown to any of the hunters in these parts, and appears to be inhabited by bears, it is thought that the cave is a very large one and has for a long time been a place of refuge for the bears in that vicinity. A party is now being organized to explore the cave, and some very interesting developments are sanguinely expected.

I used Ely's Cream Balm for dry catarrh. It proved a cure.—B. F. M. Weeks, Denver.

Ely's Cream Balm has cured many cases of catarrh. It is in constant demand.—Geo. W. Hoyt, Pharmacist, Cheyenne, Wy.

The Brakeman's Loss.

There is danger that the modern passenger brakeman will die of ennui. On the Fort Wayne road there is now in progress of testing a device which is to be operated by compressed air from the engineer's cab, and which is in effect a noiseless enunciator, quietly informing the passengers, through their eyes, not their ears of the name of the next stopping place. This, if generally adopted, will rob the brakeman of the dear joy of shouting in an unknown tongue. One by one this official's duties have passed away. A decade ago he twisted the handbrake as vigorously, and oftener than did his co-worker on the freight train. Air and the engineer now perform that arduous duty. Now comes the silent, air-operated station annunciator. There are a few privileges, however, left to the passenger brakeman, which the man in the engine cannot take away. There are pretty girls to help on and off, fat women, babies, old men and packages unnumbered, to look after. But the vocal training of the brakeman will be totally neglected, and he will at times sigh for the days when he could relieve his feelings by splitting some passenger's ear drum and emitting a language that Max Muller himself could not interpret.

for the care of the sick. How to cure diseases, its symptoms and causes, and other information of great value will be found in old Dr. Kaufmann's great book: 100 pages, fine colored plates. Send three 2-cent stamps to pay postage to A. P. Ordway & Co., Boston, Mass., and receive a copy free.

Bribing the People.

The people's party of Baker county are demanding of candidates for county offices that they enter into bonded contract to perform the work of recorder, clerk and sheriff for a stipulated sum of money on condition of being elected by the party's vote. The scheme will hardly work, says The Dalles Chronicle. It is very possible that the law would construe such a contract as a bribe and the candidates might be knocked out entirely by it even if they did receive a majority of the votes cast. Whatever temporary measure might be successful, nothing efficient and permanent can be done till the legislature deals with the matter and passes a law placing the offices named under fixed salaries or otherwise reduce the fees to a sensible and reasonable limit.

In the United States court at Boise City the Last Chance mining company has been maintained in its water rights. The Bunker Hill company located a water right on Milo creek and the Last Chance made a location farther down. The former make a location still farther down the stream and tried to divert the water around the Last Chance works. In his decision Judge Beatty says: "In the appropriatiation of water to be used at a specified place for the purpose of operating machinery and other work, and after using returning to its original channel, the persons so appropriating cannot change the place of use to the damage of a subsequent appropriation lower down the stream."

A newspaper complication exists in San Diego which has never, perhaps, had a parallel in this country. A few days ago the plant of The Sun company was attached by the receiver of the suspended California National bank for a debt of $8,000. A deputy United States marshal took possession of the property, whereupon the company assigned its good will, name, franchise, etc., to Warren Wilson to insure the publication of the paper and save its legal advertising and other valuable contracts. The marshal ordered W. G. Smith, as keeper of the attached material, to issue the paper as usual, but Mr. Wilson made arrangements to publish it at a job office temporarily and got the paper as usual although in a somewhat crippled condition. Keeper Smith, however, secured printers and proceed to get out the paper. An injunction was issued against his using the name of The Sun and the marshal technically evaded it by appointing J. R. Wade to issue it as keeper in Smith's place. As a result two newspapers are being published, both bearing the name of The Sun and claiming to be the official paper.

"I have just recovered from a second attack of the grip this year," says Mr. Jas. O. Jones, publisher of the Leader, Mexia, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days, against ten days for the first attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy, as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting down." 50 cent bottles for sale by J. C. BARRETT & Co.

Munden & Eaton, after diligent and untiring search, have at last found the extension of Lucky Bart's mine. They struck it just twelve feet from the west end of Bart's claim. The prospect is as good if not better than where Bart made his discovery. Messrs. Pierce and Anderson are prospecting a mine on the east side of the left hand fork of Sardine creek. Messrs. Carson and Briden, mining men from San Francisco, spent two days at Lucky Bart's. They made a very thorough and careful examination of the mine, and express themselves as being thoroughly delighted with the prospect. They intend to return and still further prospect it when more developments are made. A. J. Barlow has temporarily abandoned prospecting until he makes his garden, after which he will go gaily to the mountains and seek hidden treasure.—Medford Mail Correspondence.

That Josephine County Gun.

The Oregonian some time since published an account of the finding of a shotgun near Waldo in a cabin at one time occupied by Daniel Sann, and which was supposed to be a clue to the murder of Tom Bybee in 1886. Sann now lives in Josephine county and writes this card to the Coquille City Herald: Up to the time I left Josephine county for Coos, I had in my possession a small double-barreled muzzle-loading fowling-piece, a short gun of No. 12 calibre, or less. It was a gun that I purchased in San Francisco in 1856, and had had in my possession up to the time I left Josephine county in 1888. When ready to come down into Coos county, about the 1st of October, 1888, I did not consider the gun of sufficient value to fetch down here. It was very old and dangerous to use, being breech-burnt and much broken up in the stock and about the locks, and about to leave Waldo and not thinking it worth bringing along, as I said before, and not wanting any youngsters to get a hold of it, as it was dangerous, I pushed it out of sight in a sort of blockade brush fence about twenty-five yards to the right of the cabin, as one approaches the cabin in coming from town, and near the company's "old ditch." This may explain the gun found by the boys, except that I have never had any buckshot in the gun I left there.

Democrats Fuse with the Alliance.

Topeka, Kan., March 10.—It has been practically decided by the leading democrats of Kansas not to put a presidential electoral ticket in the field, and to support the people's party electoral ticket. A fusion will also be effected on state officers and congressmen at large. The democrats and alliance leaders claim that this will wipe out the republican party in Kansas. The same tactics are to be used in Nebraska and the Dakotas. To offset this the republican leaders of these states urge that the republicans in the Virginias, Tennessee, Georgia and the Carolinas enter into a fusion with the new party.

Plans are being laid to hold a convention of delegates from all parts of San Diego county some time in March to discuss the needs of the county in the matter of transportation facilities. The feeling in the city and county is that the time has arrived to do something and wait no longer for uncertain syndicates. The leading men in San Diego have taken the matter up and the result will be a convention at which a formal plan of procedure will be settled upon.

One of the most extensive raids organized by the Chicago police department in years was made the other day when twenty-five officers surrounded a place on Clark street and placed 240 men under arrest. The establishment was a full fledged pool room and was run by Frank Shaw and Sid McHie, member of the gamblers trust. A rushing business was in progress. All the speculators were taken to the police station and put under bail.

Dr. H. M. Scudder, a prominent Chicago physician, is under arrest for the murder of his mother-in-law, Mrs. F. H. Denton.

WHY ROYAL Baking Powder is Best

"The Royal Baking Powder is absolutely pure, for I have so found it in many tests made both for that company and the United States Government.

"I will go still further and state that, because of the facilities that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportions of the same, and the method of its preparation,

"the Royal Baking Powder is undoubtedly the Purest and most reliable baking powder offered to the public.

The supreme court of Ohio, in the case of Attorney-General Watson vs. the Standard Oil company, has handed down a decision concerning trusts. This case was instituted by petition in quo warranto to oust the company from its corporate rights and to forfeit its franchise. The judgment of the court is to oust the company from the right to make the trust agreements set forth in the petition and of the power to perform the same. This is all the attorney-general desired. He did not desire to deprive it of corporate rights as enjoyed by others, but of its trust agreements, which are contrary to law. Under the decision the company will be allowed to continue corporate powers.

The remains of the late Colonel John T. Brady were interred in the Catholic cemetery at Virginia City, Nev. After the casket was lowered into the grave members of the order of Chosen Friends, to which society the deceased belonged, began dropping sprigs of evergreens on the casket. Father Lynch, the officiating priest, forbade the Chosen Friends from performing that rite, and stated that the Catholic service at the grave was final, and prohibited any further ritual ceremonies. Notwithstanding Father Lynch's protest, some of the members of the order continued dropping evergreens in the open grave, when he announced that hereafter no members of the order of Chosen Friends would be allowed to enter the consecrated ground of the Catholic cemetery as a representative body. He also spoke disparagingly of the custom of placing costly emblamatic offerings on the biers of deceased persons. The unusual incident created considerable excitement at the grave side and caused widespread comment.

Sherman R. Brown is the name of one of the happiest men in Oakland. Brown, who is the son of a Kansas farmer but whose roving disposition has caused him to lead the free-and-easy life of a tramp for the past ten years, has established his claim to a fortune of $230,000, which is sufficient to dispel all his cares during the remainder of his natural life. Brown was arrested at Shell Mound, Alameda county, recently for sleeping in a barn. He served a brief sentence for vagrancy, and upon his release from prison he proceeded to trace up an advertisement in a Los Angeles paper which he had read during his incarceration. The advertisement was inserted by Robert M. Shearer, an Eastern attorney, with the purpose of locating the heir to a fortune of nearly a quarter of a million. Brown recognized in himself the missing heir, his aunt, Miss Sherman of Glenn county, Kan., having recently died and left him the greater portion of her fortune. Communication with the attorney established Brown's right to the property, and the formality of signing a few papers by which the property has now come into his possession was gone through with, and Brown has gone East to assume control of his fortune.

Ladies, Pay Attention.

WHY WILL YOU SUFFER, when you could get relief by using the famous, well known remedy Orange Blossom, a sure specific for all the troubles and sufferings peculiar to the sex, when it has cured thousands who stand ready to give testimony of its great virtues and curative qualities. Ladies, remember its the old, tried and true, your friend in trouble and time of need. Give no credence to these new and worthless compounds that are flooding the markets. For sale by MRS. M. ROBERTS, Helman street, near the Youle & Gilroy planing mill.

The Pittsburgh Lamp is one of those inventions that seems to be finished. It seems to reach the end as to goodness of light in every way, and ease of management. The only care it requires is filling and wiping.

Dirt falls out when the chimney is taken off, not into a pocket as in other central-draught lamps.

Putting in a new wick is a very easy matter indeed.

All this seems strange to one who knows how troublesome other good lamps are.

It is in all the good lamp-stores. Send for a primer.
