MEDFORD DISTILLING AND REFINING CO.,
Medford, Oregon.

Dangerously Injured.

C. B. Kingsbury has been over on Cottonwood creek mining. While at Hill's place Wednesday of last week he caught a hobbled horse in the field, and bridled him. Not knowing whether the horse rode, he got on him with the hobbles on. The horse reared and fell back on Mr. Kingsbury doing serious injury to his left hip joint and back. Dr. Parson fixed him up and he will be able to be brought home to Ashland Saturday.

Hotel Pokegama.

When you go to the big milling town on the Klamath river, stop at Hotel Pokegama, located opposite the railroad track on the banks of the river and conducted by Mrs. E. K. Brightman, than whom there is no better landlady on the coast. Just the place for summer tourists; fine bathing, boating fishing and hunting. Beautiful trees shade the hotel; a fine cool breeze blows up the river. First-class accommodations.

Militia Election.

Co. D. had a lively election for officers Monday evening, which resulted as follows: 1st Lieut., D. B. Ralph; 1st serg't, Ed. Sutton; 2d serg't, Ed Thornton; 3d serg't, Morris Howell; 4th serg't, H. J. Hicks; 5th serg't, C. B. Cristler. Corporals, J. M. Gregory, Herbert Parker, J. L. Mays, C. S. Graves.

There was a lively and close contest equal to a city primary and the victorious party came down town and held high carnival for a number of hours. F. H. Carter, regimental lieutenant and signal officer, presided at the election.

I am an old man and have been a constant sufferer with catarrh for the last ten years. I am entirely cured by the use of Ely's Cream Balm. It is strange that so simple a remedy will cure such a stubborn disease.—Henry Billings, U. S. Pension Attorney, Washington, D. C.

STANDS AT THE HEAD.

Dr. Geo. A. Bethune, State Chemist of the State of Washington, has examined the various baking powders of the market, and speaks emphatically as to which he considers the best. He says:

A series of carefully made tests of the baking powders sold in this market shows that the Royal yields the largest percentage of leavening gas. This powder is also found free from any harmful or even objectionable ingredient; its ingredients are of exceptional purity, so combined that the powder produces the purest and most wholesome food.

There is, therefore, no question but the Royal is the strongest, purest and most wholesome baking powder in the market.

EDITOR VALLEY RECORD:—

Since my last everything has been exceedingly quiet. The farmers are generally very busy with their harvest and consequently business is rather dull and news is scarce.

Quite a number of our citizens went over to the camp meeting Sunday and Sunday before last, and on Sunday the 10th inst. quite a number of our pleasure loving citizens had a picnic on Rogue river, among whom were Messrs. C. W. Taylor, — Ewen and their families, Messrs. Richards and Denham recently from England, George Brown and family, Miss Amy Safford et al. They spent the day very pleasantly walking, fishing, chatting, etc. Miss Celia Brown was the most successful fisher, as she caught two nice trout.

A CHAPTER OF ACCIDENTS.

On Sunday the 10th while returning from camp meeting Wm. Gregory, Jr. accompanied by Miss Zuda Owens had the misfortune to have his team, hitched to a buggy, run away, dashing against a tree and precipitating both from the buggy. Fortunately Miss Owens was but slightly hurt but Mr. Gregory was unconscious for several hours.

On the following Wednesday while John Ashpole and family were at the camp meeting their little boy, Roy, aged about four or five years attempted to climb into the wagon. The horses started, throwing him to the ground, thereby breaking his arm near the shoulder.

About the same time Charles Parker's daughter, Hattie, living above Brownsboro and aged 13 or 14 years was thrown or fell from a horse, breaking both bones in her arm and dislocating her elbow. Dr. Terry of Eagle Point was summoned but by the time he arrived her arm was very badly swollen. She was doing well at last accounts.

Near the same time Mr. Moore, an old gentleman living on the edge of the "desert" near Central Point was on his way to the soda springs on Little Butte and driving along the wheel of the wagon struck a rock or stump, throwing him from the seat to the ground and bruising him very badly but fortunately breaking no bones.

The last accident I have to chronicle in this chapter is not so serious. It was simply an accident caused by lack of judgment. One of the young MEN that applied the "bleaching process" referred to in my last spread the plaster on so thick that when he removed it the reaction was so great that he took cold, throwing him into a fever, but we are pleased to state that he is now convalescent.

It was not the same young man who accompanied a young lady home a few evenings ago and when asked by the old gentleman to put up his horse, replied that he had not time. But it took them both to hold the horse, although it was perfectly gentle. He stayed an hour, and they spent part of the time reading fortunes through the window by lamplight. The old gent says that the next time he comes home with his girl he has got to put his horse up or he will set the dogs on him.

We had quite a sensation in Eagle Point a few evenings ago. Three ladies and a young man undertook to make a team go that didn't want to, and they resorted to all kinds of means to persuade the balky horses to go—but they said no go. Finally they called a young blacksmith to the rescue and he, by the use of a chain, got them started. I did not learn the mode of procedure, but THEY WENT! Yes, they went through the streets like Jehu of old, the ladies encouraging them with all their power by word and—the ladies came out ahead, of course. Did you ever know a woman to fail in what she set her head to do?

Mrs. Stella Fry, nee Stella Wiley accompanied by her son Clinton aged two months is here visiting her relatives, Wm. Wiley and others. Mrs. Lou Chappell of Marshfield, Coos county, is here visiting her mother, Mrs. M. A. Thomas.

Mrs. Morgan of Austin, Nev., is here visiting her parents, Mr. and Mrs. Bettz of Rogue river.

Mr. Dodge, one of the well borers of the valley has been drilling a well for W. H. Bradshaw and after he reached a depth of sixty feet his drill got fa-t and after trying for some time to get it loose finally put in a blast to try to loosen it. But the blast cut the rope that was attached to the drill, leaving the drill fast in the bottom of the well. After an unsuccessful attempt to draw the water out a professional was called in, who examined the water and decided that the drill would not injure it for family use, so Mr. Bradshaw accepted the well. The drill was worth $150—a heavy loss for Mr. Dodge.

Miss Sarah Magerle of Pleasant creek is stopping with Mrs. A. Poole, of the Eagle Point Hotel.

As an evidence of the advantage of advertising in the RECORD, my calling attention to that notice over the P. O. caused such a rush that A. J. F. did not have time to eat, and for fear he might offend some one he decided to board at the hotel for the present at least. And several wanted to know how it happened that Mr. Inlow put his "ad." in the RECORD and were informed that the RECORD has become the leading paper of the county, having a larger circulation in this part of the country than any other paper and is so reliable that the masses of the people look for it as a hungry boy would for his dinner.

Dan Simon of the Pioneer hotel has finished cutting grain and expects to start his thresher next Wednesday.

Since my last Mrs. A. J. Daley and her son-in-law, Ed. Simon, have both been sick but Dr. Stanfield was called and they are improving.

Speaking of sickness, I had occasion to call in at Dr. Terry's drugstore last Saturday and it looked as though it had been taking some of the Doctor's medicine—it looked so gaunt. But he is replenishing his stock.

Thomas Coy informs me that the workmen who have been at work on his house have quit, temporarily, to build a large barn for A. J. Daley on Round Top; he having them engaged prior to their taking the job of building Mr. Coy's house.

George Hoyt, living near Medford, had a runaway last Friday. His team was hitched to a wagon and he was carrying a box of tools in one hand and holding the lines in the other, and in descending a little slope the horses discovered that they had the advantage of him and started to run when he threw the box of tools to the ground and tried to stop them. But they had got the start and made a circuit several times around the barn and came near throwing George off of the wagon, but he held to the post in the center of the hay rack until he succeeded in stopping the team.

Miss Anderson, daughter of Thomas Anderson, is the guest of S. F. Robinett.

Gus Nichols, son of T. E. Nichols, started for eastern Oregon last week. DICK.

Eagle Point, July 18, 1892.

Cavalry Horses.

H. Brandenstein, a San Francisco horse-buyer, has been in the valley to purchase gray and bay saddle horses well broke from 15 to 16 hands high and weighing from 950 to 1100 lbs. Although the horse market is considered dull when a buyer comes in and wants that kind of horse-flesh, he will not find them so plentiful.

Pokegama to Start Up.

The loggers up the Klamath, are now dumping logs into the river at a rapid rate, and the mill will soon be ready for commencing work. As the mill has a capacity of 120,000 feet each 24 hours, it will be necessary to have a large supply of logs on hand, before starting up. Over 110 men are now employed all along the river in getting the logs down, and a number of experienced rafters follow them in bateaus or flat bottom boats to prevent a jam by keeping the logs moving. An immense chute of about a mile long has been made on the mountain side between Truitt's and Edson's, down which the logs are shot into the river. At the top of the mountain there is a level country extending for many miles, covered with fine timber. At present large carts with wheels 10 feet high, and 6 inch tires, are used in hauling logs about a quarter of a mile to the chute, each haul of two 12 or 16 feet logs, requiring about 13½ minutes in loading, hauling and dumping into the stream. As soon as the timber is cut away at the edge of the mountain plateau nearest the river, a road will be built back from 4 to 10 miles for speedy hauling to the river bank. The company buy all the logs they can get in addition to the several contracts, and are now building a fine wagon road up the north side of the river from Pokegama to the junction with the Shovel creek and Linkville road at the Schnackenburg crossing near Bogus. As soon as the mill is started, there will be several more men employed, to make the population of our northern border fully as large as the population in the Mt. Shasta, with Pokegama as the central business place.—Journal.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, and acts directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co.

The Phil Mott claim at Klamath river, just below Honolulu, has been paying handsomely from the last cut sunk down to bed rock, where the gravel seemed to be about as much gold as other substances, especially the crevices. The gold is very coarse and easily secured, causing no trouble as in claims where the gold is fine like flour. The gold is generally coarse in all the deep bed rock diggings, the finest gold being found mostly in surface diggings and quartz ledges.

The McConnell claim in Klamath river at the mouth of Humbug creek, is paying very well this season, a good pay channel having been found in the old river bed, some distance below the place worked last year.—Yreka Journal.
