With this pressure, when running at about 450 revolutions per minute, the pump propelled a jet of water from a 1-inch noz-

square inch.

27% Difference The "Royal" the Strongest and

## Purest Baking Powder.

Whether any other baking powder is equal to "Royal," let the official reports decide. When the different powders were purchased on the open market and examined by Prof. Chandler, of the New-York Board of Health, the result showed that Roval Baking Powder contained twenty-seven per cent. greater strength than any other brand. When compared in money value, this difference

would be as follows:

If one pound of Royal Baking Powder sells for 50 cents.

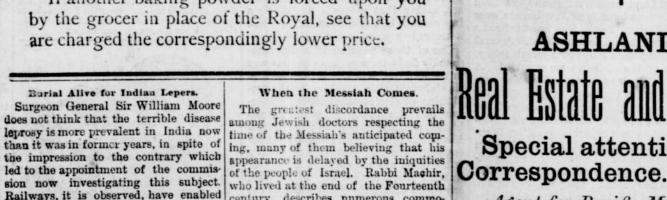

One pound of no other powder is worth over 36 cents.

If another baking powder is forced upon you by the grocer in place of the Royal, see that you are charged the correspondingly lower price.
