Gold Hill Items

Gold Hill, March 3, 1936.

Mr. Jack Morris of Blackwell said while conversing with your correspondent today that the Jacksonville and Gold Hill area near future prohibit all mining and prospecting on their so-called possession claims in Blackwell and Gold Hill. Wasn't there a protest against this association of the two areas? Mr. Morris, "there is one sent to the U. S. land department, signed by nearly every landowner in the area. But that amounts to nothing, because this association made application for the land before it was known as mineral land. And even if it is mineral land they have a good right to it as the little farmers in the country, or that either."

Gold Hill school district has lately arranged to build a new school house of two rooms at the east, and probably larger. They have purchased a lot back of the Gold Hill hotel, where will be a very suitable site, and will use the old school house for part of the structure. The district intends to sell bonds to pay for it.

Your correspondent saw Mr. Curry today and in an interview that gentleman says: "The railroad company served an injunction on me three weeks ago, compelling me to cease from further development of my quartz claim near the base of Table Rock, where I also live. The company claims the land where my lode is, but I have a right to it. I have owned the claim for two years, and have done the required amount of work. The ore is a very rich one and the vein is seven feet. The first discovery of this vein was about the time of the Gold Hill strike, some time in '30. Mr. Curry, when asked if Mr. Peterson would make the coming payment, said: "I understand he will forward the coming payment to the bank in Portland and also a check for the amount of the payment. I am a big Mr. Peterson thinks he may be able to get some more quartz claims near the base of Table Rock, where I also live. The company claims the land where my lode is, but I have a right to it. Mr. Curry, when asked if Mr. Peterson would make the coming payment, said: "I understand he will forward the coming payment to the bank in Portland and also a check for the amount of the payment. I am a big Mr. Peterson thinks he may be able to get some more quartz claims near the base of Table Rock, where I also live. The company claims the land where my lode is, but I have a right to it. I have owned the claim for two years, and have done the required amount of work. The ore is a very rich one and the vein is seven feet. The first discovery of this vein was about the time of the Gold Hill strike, some time in '30.
