Wager's Opinion of Penoyer. A few silly and ignorant persons have recently spoken of Gov. Penoyer as a fanatic. This is not only disrespectful to the chief magistrate of Oregon, but is foolish, because he is not only perfectly sane but is the shrewdest politician and the most popular man in the state of Oregon. I do not admire his eccentricities, peculiarities or his methods, but I do admire his brains, for ability is admirable whenever found. Even Napoleon Bonaparte, the wildest and most unprincipled marauder and plunderer the world has seen, was admirable. Whenever a nation fails to do homage to its great men it has reached a demoralized condition. The governor is no fool. His political sagacity and his foresight are remarkable. Why, he predicted the rise of the "Industrialists" in his Christmas letter five months before they came. Ignorance grew sarcastic over that letter, but the governor knew what he was about. It made hundreds of votes for the populist ticket. I am not considering his moral aspect, but simply his ability. Notwithstanding absurd denial he is the most popular man and the best politician in the state.—Portland Tomahawk.

The Superiority of Hood's Sarsaparilla is due to the tremendous amount of brain work and constant care used in its preparation. Try one bottle and you will be convinced of its superiority. THE FACT THAT AYER'S Sarsaparilla CURES OTHERS OF Scrofulous Diseases, Eruptions, Boils, Eczema, Liver and Kidney Diseases, Dyspepsia, Rheumatism, and Catarrh should be convincing that the same course of treatment will cure you. All that has been said of the wonderful cures effected by the use of

AYER'S Sarsaparilla during the past 50 years, truthfully applies to-day. It is, in every sense, The Superior Medicine. Its curative properties, strength, effect, and flavor are always the same; and for whatever blood diseases AYER'S Sarsaparilla is taken, they yield to this treatment. When you ask for

AYER'S Sarsaparilla don't be induced to purchase any of the worthless substitutes, which are mostly mixtures of the cheapest ingredients, contain no sarsaparilla, have no uniform standard of appearance, flavor, or effect, are offered to you because there is more profit in selling them. Take

There are few good apples there are in California any more, and a price of \$1.00 per bushel is being paid for high beyond all precedent. As there are 400 apples in a barrel this makes the price 124 cents each. One South Water street firm has all the apples in the city and is holding the price at \$1.00 a bushel. It is practically worth its weight in gold. Pie makers have resorted to tin cans instead of barrels as a source of supply, and there are other evidences of great scarcity of apples.

Sights Filled Off. The little city of Corvallis recently had a bit of a shooting scrape, in which most of the citizens took a hand. The cause of the riot was the taking of one Ed. Scott, a local "bad man" by the night watchman having arrested him for disorderly conduct, was marching him to the "cooler," when suddenly the arrestee pulled from his coat pocket a dangerous weapon, and commenced to pump lead at the officer, who called for help. The call was promptly responded to; everybody who had a gun commenced arguing with the miscreant. Fifteen shots were fired, and nobody hit. The culprit was finally safely landed in the city jail, with a sore head, but unhurt; the fainting women were restored to consciousness, and the hamlet was once more at peace.
