ASHLAND, Or Thursday, June 28, 1894 Coxey has been nominated in his district for congress, and ought to be elected. That would be one way of getting his petition before congress.

The head of the serpent treason America is John Sherman, the belly is Grover Cleveland and the tail containing the "rattles" which give the alarm when it is about to strike is the Associated Press. It is preparing to strike now, and the Associated Press rattle has sounded.

Brutal and atrocious assassinations i the world's history never cease. The affair in France Sunday was only the latest to turn the whole world pale and sick at the revolting spectacle of the work of a stabber's knife on the heart of a blameless statesman. There can be no conclusions drawn from such murderous affairs; they are simply the work of the diseased brains of a crazy fiend and are as liable to occur to a citizen as to president. However, under the accepted remedies of the white man, the shaving | for free lumber. off of the head at the shoulders, should be duly applied to the assassin.

The Industrial Army is still marchin on to Washington, D. C., in greater numbers than ever, though the Associated Liars' Press is ignoring the movement That's the place for them. Every man with Western feeling, instinct and hono should help the unemployed back east. The Eastern shylock stabbed the West's greatest industry in the heart in order t make gold more valuable and tramps more numerous. Return them the goods of their manufacture and the poor, unfortunate victims, they might as well hang on the ragged edge of starvation in the east as on the coast.

The whole French republic has been thrown into a terrible paroxysm of frenzy and grief over the assassination of President Carnot at Lyons by an Italian anarchist.

President Carnot was at Lyons visiting the exhibition. While he was coming away from the Chamber of Commerce, where a banquet was held, to the Grand Theater, at 9:15 p. m., a young man jumped from the immense throng, jumped upon the footstep of the carriage and stabbed the president in the abdomen. Carnot fell back senseless and was taken immediately to the per-

resident's carriag through the brilliantly lighted streets leading to the Perfecture when the as-

don was formed around the almost exindignation against a human being been seen in that city.

The assassin was finally imprisoned. He is about 20 years old and just came to Lyons. The only cause which led to the crime is supposed to have been the refusal of President Carnot to pardon the anarchists who were recently executed at Paris.

The assassination of the French president has created the deepest sympathy throughout the world. Telegrams of regret and condolence poured in from all parts of the world. Congress adopted resolutions asking President Cleveland TARSNEY TARRED AND FEATHERED. to send an expression of sorrow to the French people. The British court has gone into mourning as a mark of respect to the dead president.

We had a very sudden and unexpected death in our community last Wednesday that shocked us all. As has been announced in my communication before. Clint. Still none of his friends thought of him being dangerous, as he was able to wait upon himself and seemed in fine spirits; but on Wedness. and seemed in fine spirits; but on Wednes-day, the 20th inst., at 3 o'clock, he fell over upon his pillow and without a struggle quietly breathed his last. * *

Wiley, June 19, 1883, arriving in Jackson county July 11, of the same year, where he has made his home up to the day of his death. He was allowed to mount the steps of the carriage, those on guard thinking he wished to present a petition to the president.

As soon as he got on the step he raised the package above his head and struck the president in the side. The package contained a poignard. Carnot when struck fell forward. The people standing around were horrified. Then, when they saw what had been done they sushed for the assassin, who tried to escape, and would have torn him to pieces
