THE BEAT-EX-JUDGE WEBSTER.
Eugene Guard.
Judge Webster, of Jackson county, who
once fined the Bronco editor for con-
tempt, will have to retire for the Omaha
judge. A dispatch says: Judge P. O.
Hawes, one of the most prominent of
Omaha's attorneys, was jailed for fifteen
days for contempt by Judge Scott. Hawes
had refused to practice before Scott; the
court heard of it and sent for the attorney
and fined him. A lady attending
court remarked to her husband that the
affair looked more like the exercise of
power than justice. Her remark was re-
peated to the court and she was at once
fined.

STUTZ THEATRE COMPANY.
The old favorites, J. G. and Alma
Stutz, are too well known to need any
special mention. They will be remembered
by the largest and strongest theatri-
cal organization now on the Pacific
coast, consisting of six leading stars, sup-
ported by a large company of profes-
sionalists—not for hire, as is customary
of large combinations. They have a rep-
ertoire of all new plays from the pens of
our greatest modern authors. If you
wish to see a moral, refined, high class
performance do not fail to secure seats
early for Thursday eve, Nov. 29; on sale
at Opera house grocery.

Common Sense
Should be used in attempting to cure
any of the venereal diseases. As can-
cers originate in impurities in the blood,
local applications can do no permanent
good. The only reliable method of treat-
ment is to purify the blood, and for this
purpose there is no preparation superior
to Hood's Sarsaparilla.

Hood's Pills cure constipation by re-
storing peristaltic action to the alimentary
canal.

Pardoned by the Governor.
Gov. Penney pardoned Ben P. Wat-
son and E. P. Mason, late editors of the
Sunday Mercury who were about to be
put in the county jail for one year under
conviction for criminal libel. The
supreme court has sustained the circuit
court's decision in the case. The govern-
or considered that the defendants had
received sufficient punishment already,
their business having been ruined by the
prosecution.

Geologists, or Flexible Sandstone.
Geologists tell us that "one of the
most marked and well known charac-
teristics of sandstone and rocks in general
is their extreme rigidity," but there are
really some specimens that are more
flexible than wood, bending under the
slightest pressure without breaking.
The best known and most abundant of
these flexible stones is itacolumite, an
elastic sedimentary deposit found chiefly
in South America, but not unknown in
the United States, being frequently
found in large quantities in the moun-
tains of North and South Carolina and
occasionally in Georgia. The flexibility
of itacolumite is readily understood
when the stone is subjected to a micro-
scopic examination. All ordinary sand-
stones are rigid and brittle, but in ita-
columite the grains are cemented by
resin and sericite, which confer the flexi-
ble property to the stone as a whole.
Viewed by a strong polarized light, ita-
columite is seen to consist of separate grains
of sand in a slab of itacolumite is sur-
rounded by a coating of the flexible mica
and sericite and that veins of the same
material run in every direction, im-
parting to it a peculiar elasticity. A
flake of such stone two feet in length
and two inches thick "snagging" five
inches in the middle when both ends
are held up by some support.—St. Louis
Republic.

POPULISTS AND REPUBLICANS.

The Oregonian says they will fight
the New Presidential Contest.
Portland Oregon, Nov. 15.
There is some prospect that the demo-
cratic party will be swallowed up by the
populist and disappear temporarily. Not
long ago, because the democratic party
represents an eternal principle and the
populist party only a temporary craze,
but long enough to make the next presi-
dential election a square issue between
the republicans and populists, upon the
questions of free coinage and the income
tax. Both the republicans and the demo-
crats upon the democratic party to its
destruction by its dangerous allies. Par-
tial adoption of them has ruined it in the
east and left the republicans in undis-
puted control there. Failure to adopt
them wholly has ruined it in the west and
sent half its members over to the
populists. The former brought
populists into control of its own policy
and councils in the other. There is a
plethora of the democratic party in the
east and left the republicans in undis-
puted control there. Failure to adopt
them wholly has ruined it in the west and

populists. The former brought
