Wis.—Dear Sirs—I have been a tobacco fiend for many years, and during the past two years have smoked from fifteen to twenty cigars regularly every day. My whole nervous system became affected until my physician told me I must give up the use of tobacco for the time being, at least. I tried the so-called "Keeley Cure." "No-To-Bac" and various other remedies, but without success until I accidentally learned of your "Baco-Curo." Three weeks ago to-day I commenced using your preparation and to-day I consider myself completely cured; I am in perfect health and the horrible craving for tobacco, which every inveterate smoker appreciates, has completely left me. I consider your "Baco-Curo" simply wonderful and can fully recommend it.

Labor organization has had booms as often after lost strikes as it has had depressions, though the boom may not have always come in the branch directly concerned in the strike at that particular time, and a lost strike in one industry does not appear to deter other of the industry does not appear to deter other of the industry does not appear to deter other of the industry does not appear to deter other of the industry does not appear to deter other other or industry does not appear to deter other other or industry does not appear to deter or industry does not appear to deter other or industry does not appear to deter or industry does not appear to divisions of labor from inaugurating contests in support of their demands, nor does it make them postpone action.

These things show that organized labor is not intimidated and cowed because of the temporary setbacks suffered by some of its divisions, and while it is not so easy to produce satisfactory proof it is a fact known to close observers country, or another industry in the canalers. same locality, or the same industry close ago, "It's the strikes that are never ries." He referred to the effect upon emown or others' experience that labor will strike if pressed too hard. The man is a fool who thinks that labor gets anything that it is not able, or is believed to be able, to enforce. Of course this is a general proposition.

So far I have only dealt with the strikes that are written down as failures. If the argument is good, it holds much faster in the cases of "those that are rated as successes," and the position taken in The Times is absurd. I know all about the great array of figures, usually exaggerated three times over, brought out to show "the loss in wages," but those figures and dollar signs haven't as much terror in them as one might think who doesn't appreciate the fact that the workingman only gets a bare existence anyway, whether working or striking. Of course there is under the seal of said Circuit Court of the sometimes a little "dead horse" to square State of Oregon for the County of Jackson, dated the 11th day of May. 1895, upon a decree rendered May 7th, 1895, in favor of Samuel Phillips, Plaintiff, and against the above named Defendants for the sum of Four Hundred Dollars (\$400,00) with interest thereon from the 30th day of November 1892 at the rate of ten per cent vember, 1892, at the rate of ten per cent. per annum, and for the sum of fifty dollars (\$50.00) attorney's fees in said action and for the costs and disbursements and worker.
