The gold mining season is shorter than that in our northwestern states The placer goldfield is the best paying known anywhere, but the quartz veins will yield yet more richly when they are developed. Men have already, however, made fortunes there in one or two seasons. Last summer there were only a few hundred miners on the ground, yet they took out, chiefly from the A. G. Rockfellow to B. F. Next summer American enterprise will put upon the great Yukon river a complete line of steamboats which will convey miners and freight from the mouth of the Yukon to its source. It will then be possible to reach the gold region quickly and easily by steamer from Sitka to the mouth of the Yukon, thence up the river by the new line of

Prizes For Horseless Carriages. Another competitive exhibition of car riages propelled by mechanical motive power will be given in New York city next Decoration day. The carriages mus start from City Hall park and make the trip to Irvington and back to point of beginning, altogether a distance of 56 miles. The money to be distributed is \$3,000, and the prizes are offered by The Cosmopolitan Magazine. The points that the judges will consider in awarding the prizes will be, first, speed; next, simplicity and durability of construction; third. safety and ease in operating; fourth and last, cost. Entry lists will be open till

May 1. Here is a chance for somebody to make both fame and fortune. It is certain that the cities are more than ready for the 80 acres in tp 38 s, r 1 w; also land in Med- horseless vehicle. The great improve ment in cleanliness and comfort is manifest at first thought. The abolishment of the horse will give in the crowded city more space for moving about, while doing away with all the stabling means more room for houses and better sani tary conditions. The carriages of the rich will doubtless always be drawn by Freshest horses, and they will always be used for pleasure riding and driving. But as for delivery wagons, express and freight wagons and trucks of all kinds city residents will welcome the day when they are abolished forever and the faithful horse is released from thraldom.

Moreover, if the perfect horseless vehicle has been invented already, the public is not aware of it. If any man Oliver Harbaugh, Plainhas brilliant new ideas on the subject here is his chance.

Scott's Emulsion makes cod-liver oil taking next are now shipped to Petaluma from San thing to a pleasure. You hardly taste it. The stomach knows nothing about it-it does not trouble you there. You feel it first in the strength that it brings: perience. He has been blind for five it shows in the color of the cheek, the rounding of the angles, the smoothing of the wrinkles.

It is cod-liver oil digested for you, slipping as easily into the blood and losing itself there as rain-drops lose themselves in the ocean.

What a satisfactory thing this is-to hide the odious taste of cod-liver oil, evade the tax on the stomach, take health by surprise.

There is no secret of what it is made of-the fish-fat taste is lost, but nothing is lost but the taste.

Perhaps your druggist has a substitute for Scott's Emulsion. Isn't the standard all others try to equal the best for you to buy? SCOTT & BOWNE
