The S. P. Must Pay Taxes.

The supreme court has rendered a de cision in the case of the people of California against the Central Pacific and Southern Pacific companies, involving the right of the state to tax the franchises of those roads. The railroad companies resisted this taxation on the ground that their franchises were derived from the national government as well as from the state authorities, and were inseparable. The court decided | clerk. A Greek candy seller also tried against this view, holding that the railroad companies owe their existence as corporations to the state, and are sub- experienced gang of diamond robbers The chief justice said that the state franchises have never been merged in the federal franchises and that they were as legitimately subject to taxation as the roadbeds of the companies. Justice Field wrote a dissenting opinion in which he said that the position taken by the majority opinion was absurd
