CASTORIA reenbacks Are Upheld and Banks of Issue Denounced by a Highly Reputed Champion of "Sound Money"-The "Monstrous" Proposition of the Bankers.

> "Matthew Marshall," who contribntes articles to the Monday issues of the New York Sun, has the reputation of being a leading authority upon financial questions. He to a greater extent than any other writer in New York enjoys the confidence and has the support of the goldites, and his utterances upon the money question are entitled to more than ordinary consideration upon that account. "Matthew Marshall" is the uom de plume employed by Mr. Thomas Hitchcock, one of the largest holders of New York Sun stock.

Because of the foregoing facts the following pronounced concessions to the greenback and denunciation of the present system of banking are noteworthy

and will prove entertaining reading to all those interested in the discussion of the People's Party, held Feb. 22, in financial topics. This is an extract from Boston, adopted the following resoluthe article of "Matthew Marshall" in tion:
