> He will tell you that Scott's Emulsion has been endorsed by the medical profession for twenty years. This is because it is always palatable—always uniform—always contains the purest Norwegian Cod-liver Oil and Hypophosphites. You should insist on Scott's Emulsion, with trade mark of man and fish. Put up in 50cent and \$1.00 sizes. The small size may be enough to cure your cough or help your baby. But in no case is Scotts Emulsion.

R. MILES' RESTORATIVE NERVINE cures nervous prostration. Not the removing the germs of disease, and then supplying healthy nerve food, increasing the appetite, helping disestion and streethening the entire system. Deperate cases require prolonged atment as shown by that of Mr. a. B. Reed, of Delta, Iowa, who writes: "As the result of a lightning stroke, the physicians said I had a light stroke of paralysis, my limbs would all draw up. I would have throbbings Dr. Miles' in my chest that seemed unendurable. For three months I could not sleep and for three weeks did not close my eyes. I prayed for sleep, and

Restores felt that if relief did not come I would be dead or insane. I took Dr. Miles' Restorahours and from that time on my health improved; slowly at first, but steadily and surely. I took in all 40 bottles, and I cannot express how grateful I am, for I am now perfectly well, and have taken no medicine for over four months." Dr. Miles' Nervine is sold by druggists on guarantee that first bottle benefits or money refunded.
