for Infants and Children.

MOTHERS, Do You Know that Paregoric, most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisous? Do You Know that in most countries druggists are not permitted to sell narcotics

without labeling them poisons? Do You Know that you should not permit any medicine to be given your child

unless you or your physician know of what it is composed? Do You Know that Castoria is a purely vegetable preparation, and that a list of

Its ingredients is published with every bottle? Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher.

That it has been in use for nearly thirty years, and that more Castoria is now sold than

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense? Do You Know that one of the reasons for granting this government protection

was because Castoria had been proven to be absolutely harmless? Do You Know that 35 average doses of Castoria are furnished for 33

Do You Know that when possessed of this perfect preparation, your children may

be kept well, and that you may have unbroken rest? Well, these things are worth knowing. They are facts.

GOLDBUG IGNORANCE

A SHINING EXAMPLE SHOWN UP BY HON. JOHN DAVIS.

tient With Bigotry and Lunacy.

The Woman's Journal of Boston, May 9, 1896, contains a review of A. C. Fisk's valuable little book entitled "Statesmen Three." The review is signed H. B. B., which I suppose means Henry B. Blackwell, the editor in chief of The Journal. His statements show so much ignorance and bigotry that some of them deserve attention.

Evidently H. B. B. has only studied the money question from the standpoint of the usurers and gold gamblers, whose predecessors our Saviour drove from the temple in Jerusalem, and of whom President Lincoln said, "I wish every one of them had his devilish head shot off.' (Carpenter's "Six Months In the White

House," page 84.)
H. B. B. thinks that Fisk's "asser tion that the government is in the hands of brigands who have robbed the people of more than a billion dollars annually for the last 30 years" is "wholesale falsehood," by which "well meaning people are misled and become anarchists." He says, "If the writer believes if he does not believe it, a charlatan." Now let us test the truth of that alleged assertion. The United States census report of 1890 states the wealth of this country at \$65,000,000,000. There is a very general impression There is a very general impression abroad, sustained by the testimony of numerous public men and high authorities, that fully one-half of that tremendous sum is now in the hands of about 30,000 men who are not creators of verselth.
