Suicide Near Roseburg.
John Baker, a native of Bavaria, living at Cleveland, 15 miles northwest of Roseburg, committed suicide Friday, after having burned his dwelling house and its contents. It seems that he had had trouble with his wife in the forenoon, and beat her over the head with a revolver. His wife immediately took her children from him. The mother and youngest child then went to Mr. Lehr's, three quarters of a mile distant, and the father hid in a barn. His wife, the father's father, and a son went to Roseburg to have the father arrested. Meantime Baker must have set fire to his house, and going to the home of Edward Von Pesel, not far distant, secured a gun without being observed in the act. The burning of the house was soon afterwards discovered and the firemen tried to find the cause. The dead body about 500 yards from Mr. Von Pesel's house. It was clearly a case of suicide, the deceased having placed the muzzle of the gun in his mouth. The charge of shot blew the top of his head off. His hands were badly powder burned. Baker had been acting strangely for some time, and was evidently insane. He leaves a wife and three sons.

Normal School Notes.
Julie Kodeson, one of the Juniors, is teaching a six month term of school near Keno, Klamath county.

Ernie Armitage of the class of '96 is in Sacramento, Cal., and is expecting soon to obtain a position in that city. A neat little fortune has come to him Armitage from some of her relatives who she graduated in June.

Of Interest to Miners.
The United States supreme court has made a decision in the case of Hav. v. Victoria Copper Mining Co., reversing the precedents of other decisions, and the customary practice of miners in locating mining claims. It has held that a valid mining location may be made by a person marking the boundaries on the ground or even of posting a notice on the ground located. The practical effect of this additional ruling is uncertain, as titles based on location only—Mining and Scientific Press.
From this decision which coming from the highest court is permanent, it appears that a locator may mark the boundaries of his claim either by notice posted which shall describe them with reason and clearness, or by stakes or monuments at the corners, but he cannot dispense with both notice and determinate marks at the corners.

Summary of Convention News.
The National Populist and Silver convention convened in St. Louis yesterday. Senator Marion Butler of North Carolina was made temporary chairman of the Populist convention. An address was delivered by Gov. Stone of Missouri, replied to by Ignatius Donnelly.
In the Silver convention, Congressman Newland of Nevada was made temporary chairman. A girl dressed as Goddess of Liberty read the Declaration of Independence. A telegram was read from Senator Teller that he voted for Bryan was a vote for American monetary independence and aroused great enthusiasm.
At the session this morning Towner made a great speech in silver convention. He says Bryan represents cause of humanity and justice.
Chairman Butler called Populist convention to order—Delegates left in arriving—Credentialed committee met in both halls—Bryan and anti Bryan men both claim Populist credentials committee not ready to report and recess taken until 3 P.
At time of going to press both conventions in session.
Credentialed committee reported—Patterson delegation from Colorado seated—Indications are that majority of convention are for Bryan. Lane and Kilburn made speech in silver convention.
Gen. Weaver elected chairman committee on platform. This is considered history for Bryan.
Weather clear and cool in St. Louis.

Millinery and Hairdressing.
Miss Ober has opened fashionable millinery and hairdressing parlors in 200 main on Factory street and invites the ladies wishing anything in the line to call upon her.
Siskiyou Dairy Interests.
The Fall River Tidings reports a new industry in the western part of Modoc county as follows: Campbell, the turtle catcher, was telling about the largest egg story the other day in California. He has heard in a long time. He says he recently took a trip to Lake lake with a load of supplies for the Indians who are coming there, and reached their camp just as they were preparing their supper. As there are large numbers of water fowl in that country the Indians have all the eggs they want and on the evening in question they had a large quantity of duck and mud-veneggs on hand. Mr. Campbell had seen four Indians in the camp, and these six-eight eggs were cooked, and they ate every one of them. Besides the eggs they devoured a turkey and something less than a ton of bread.

Portland Fire.
The two-story brick building, occupied by H. Wolf & Brother, at No. 30 Front street as a wholesale gentleman's furnishing goods house, was completely gutted by fire Monday night. The loss is estimated at \$50,000, and is partly covered by \$35,000 insurance. The building is owned by the Lambert estate and H. L. B. B. B. \$5000 insurance carried on it will probably cover the loss, as the walls and floors are damaged but little. The cause of the fire is unknown.

going to school
Do the children go to school? And are they joyful and happy? Is school-life a pleasure? And is progress being made? Or is the opposite true? Does the close of each day bring a headache? There is no appetite and sleep is imperfect. The color gradually leaves the cheeks and only a little effort is followed by exhaustion. To continue school means to cope to the end of the year with broken health. What is the best thing to do? Take
Scott's Emulsion
of Cod-liver Oil, with hypophosphites. The cod-liver oil nourishes the body and makes red corpuscles for the blood. The hypophosphites are tonics to the nervous system, giving mental activity during the day and refreshing sleep at night. Don't let your child get thin and worry along. Give Scott's Emulsion; insist on a generous amount of outdoor exercise; and the vigor of youth will return.

going to school
Do the children go to school? And are they joyful and happy? Is school-life a pleasure? And is progress being made? Or is the opposite true? Does the close of each day bring a headache? There is no appetite and sleep is imperfect. The color gradually leaves the cheeks and only a little effort is followed by exhaustion. To continue school means to cope to the end of the year with broken health. What is the best thing to do? Take
Scott's Emulsion
of Cod-liver Oil, with hypophosphites. The cod-liver oil nourishes the body and makes red corpuscles for the blood. The hypophosphites are tonics to the nervous system, giving mental activity during the day and refreshing sleep at night. Don't let your child get thin and worry along. Give Scott's Emulsion; insist on a generous amount of outdoor exercise; and the vigor of youth will return.
