out in the rain

A good drenching in a cold rain is often the beginning of consumption. Yet no one claims that the germs of this disease existed in the rainwater. Then how was this brought about? The exposure was followed by a cold; the vitality was lowered; the cough continued for some weeks; the throat and lungs became congested; and thus all the conditions were favorable for the growth of the consumption germs.

of Cod-liver Oil, with hypophosphites, does not directly attack these germs and kill them. But it does tone up the whole system and restores the body to health before serious harm is done. The germs of consumption thrive best when the system is weakened and the throat and lungs congested. Do not delay until it is too late, but treat your cough early. Scott's Emulsion is one of the very best remedies. SCOTT & BOWNE, Chemists, New York. so cts. and \$1 a bottle.
