YORK'S -:- PRACTICAL- :- SCHOOL Normal Academy AND Business Institute,

This School is the result of a successful experience in all the grades of the public schools for a term of thirty years. It was not instituted as a mint in which to amass a fortune. I don't want a thousand publis, with a regiment of teachers.

I don't teach two hundred branches. I don't advertise on barns and fences. My school is a plain, practical common sense school. I teach all English branches from the bottom up, thoroughly and well, with daily reviews, until perfection is secured. My pupils for certificates for the Civil Service, for West Point, for the Normal Academy never fail; and my bookkeepers never have to hunt a job.
