

VALLEY RECORD.

The People's Paper. ASHLAND, O., Thursday, Nov. 9, 1909

NEWS OF THE WORLD.

HAPPENINGS OF THE PAST FEW DAYS FROM ALL QUARTERS.

LONDON, October 31.—The war office received a dispatch from General White, commanding the British forces in Ladysmith, reporting that the Royal Irish fusiliers, No. 10 Mountain battery and the Gloucestershire regiment were surrounded in the hills by Boers, and, after losing heavily, were obliged to capitulate.

COLENSO (Natal), November 2.—The Boers have commenced shelling Coleenso, their fire being directed against Fort Wylie, which defends the Tugela bridge.

LONDON, November 4.—The war office has issued the following announcement: "The colonial office has received information that the troops have been withdrawn from Colenso and have concentrated further south, but have no news of any engagement in that neighborhood."

LONDON, November 5.—The evacuation of Colenso is undoubtedly a most serious matter for the British, as it is not only a tactical defeat, but as it not only testifies to the complete investment of Ladysmith by the Boers, but makes the relief of General Sir George White an extremely difficult operation.

LONDON, November 6.—A dispatch from the Natal, dated November 3, says: "The Dutch residents here have received news of a sanguinary battle fought yesterday, probably between Ladysmith and Colenso. A large number of the Boers were killed, many being relatives of Natal Dutch residing in this place. The English residents have no knowledge of any engagement."

QUESTONIA, Nov. 8.—Reported Boers blown up stores and railway. Traffic explosion heard. British had evacuated place. Storming is an important point on railroad between Orange River and East London on coast.

Fire destroyed three-story building in West street, New York, one day last week. Three persons are supposed to have perished. Property loss will reach \$200,000.

C. A. Raymond and J. H. Ormandy were before the United States district court at Los Angeles last week for sentence. The two men had been found guilty of counterfeiting at Pismo beach, San Luis Obispo county.

Mrs. Rhoda Horton and her daughter Eliza Jane, were shot and killed in their farmhouse, half a mile from Hancock, Mass., by George Harriman, a farmer, hand. Harriman also shot himself and his recovery is doubtful.

Luther Hungerford, charged at Santa Ana with the murder of James Marion Gregg, and recently found guilty of murder in the second degree, has been discharged from custody on motion of the district attorney.

In the supreme court of Kern county, Ysabel Molina was convicted of the murder of A. Ramos, which occurred on December 2, 1907, and the sentence of the court was that she hang. The defendant appealed upon errors alleged to have been made by words of the district attorney in the presence of the jury, but the supreme court did not uphold the contention and affirmed the judgment.

The Aberdeen Packing company's cannery at Fairview, Wash., was destroyed by fire a few days ago. The loss will reach \$180,000.

Governor Gage has proclaimed Thursday, November 30, 1909, Thanksgiving day.

A dispatch from Paterson, N. J., Tuesday morning, states that the condition of Vice-President Hobart was very serious, and the patient was near death's door.

Still another election will have to be held for a major of the battalion, O. R. G. in the valley. Saturday the returns of the second ballot were canvassed by the adjutant-general's office, when it was found none of the four candidates voted for had a majority. Nine votes were cast, which is three short of the total for the battalion is entitled to, if there were a full complement of officers. This time Captain J. L. May, formerly commanding Company Second Oregon volunteers, received the highest number—four. Capt. Williams, of Eugene, was second, with three. Captain Leabo got one and Lieutenant J. E. Thornton one—Eugene Guard.

Deafness Cannot be Cured. by local applications, as they cannot reach the diseased portion of the ear. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a running sound or tinnitus, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are cured by the Catarrh Cure, which is nothing but an inflamed condition of the mucous surface.

IMPERIAL LIMITED. The Canadian Pacific Railway is now making the fastest time across the continent. Their service is of the most splendid description. All classes of passengers are carried on the "IMPERIAL" train.

You may travel anywhere by the Canadian Pacific Railway and Soo Line. Mr. W. H. Mowat is agent here.

Superior job printing of every description done at The Weekly Oregonian. Quick delivery—The Weekly Oregonian.

CASTORIA. The Kidney and Bladder Regulator. It is the most reliable and most effective remedy for all cases of Catarrh of the Bladder, Gravel, Gleet, Hematuria, etc.

Dr. H. H. Haden, San Francisco, Ala. 5875. "I think Kodol Dyspepsia Cure is a splendid medicine. I prescribe it, and my confidence in it grows with continued use. It digests what you eat and relieves your dyspepsia and indigestion."—Eugene S. Sewer.

THE PHILIPPINES.

MANILA, November 6.—Two columns of General MacArthur's division yesterday took Magaling, about six miles northeast of Angeles. Colonel Smith, with two battalions of the Seventeenth Infantry, two guns of the First artillery, and a body of engineers, advanced from Angeles. Major O'Brien, with a battalion of the Seventeenth infantry and two troops of the Fourth cavalry, moved from Calicut.

Colonel Smith's troops killed 11 insurgents, wounded 128 and captured 50, as well as taking a lot of insurgent transportation.

Major O'Brien killed 49 insurgents, wounded many and took 28 prisoners. The Americans had 11 men wounded.

MANILA, Nov. 4. Captain's scouts located a gang of insurgents at Alaga yesterday and attacked them. Five of the insurgents were killed. Captain Castner had one man killed. The scouts then proceeded to Alaga with the Third cavalry. Colonel Hayes took the Third cavalry and scouts out and captured two carts loaded with ammunition and the breech-lock of a six-inch Krupp gun, in addition to a large quantity of supplies.

Thirty sick and wounded rebels were found hidden in the grass. At San Domingo, scouts joined Captain Parker's command of 125 men and attacked St. Sagosa, killing three insurgents. They returned to Alaga last night. The country where the engagement occurred is flat and grassy, with deep canals. The rebels used revolving cannon at Alaga. Captain Cameron's troop of the Fourth cavalry, which is about five miles north of Talavera, found 14 wounded Filipinos, who had been abandoned and were starving.

An examination of the trail where Colonel Bell had his fight with insurgent cavalry shows that 26 rebels were killed. Three prisoners, 13 horses and 15 guns were captured.

The new explosive, thorite, invented by Dr. Tuttle of Tacoma, Wash., is to be tried on the Philippines. It is claimed that the explosive is more deadly than any yet invented. If it is as successful as the inventor claims the government will pay him \$1,000,000 for the secret of its manufacture. Dr. Tuttle was at one time a resident of Manila.

The annual report of the adjutant-general of the army, Brigadier-General Corbin, to the secretary of war, was made public recently. General Corbin sums up the military forces now in the service of the United States as follows: Regular army, 84,900; militia, 24,574; total, 109,474. The distribution of these troops up to October 1 last, was as follows: In the United States, 34,229; Porto Rico, 3,363; Cuba, 11,187; Philippines, 22,815; en route to the Philippines, 17,090; Alaska, 499; Hawaiian Islands, 498.

MILWAUKEE, Wis., November 4.—Major-General Arthur MacArthur, now doing duty in the war against the Philippines, and Brigadier-General Charles A. King, who was mustered out of the service in August last, were the recipients of two beautiful swords, the gifts being purchased by a large fund which was raised by the citizens of Milwaukee.

A recapitulation of the casualties in action and deaths in the regular and volunteer armies between May 1, 1898, and June 30, 1899, contained in the annual report of the adjutant-general of the army, shows a grand total of 10,076 men. The casualty list alone aggregates 8454, of whom 35 officers and 438 enlisted men were killed in action, and 2794 enlisted men wounded. The death list, numbering 6619, was made up of 234 officers and 6395 enlisted men. Of this total 35 officers and 438 enlisted men were killed, the remainder of the deaths resulted from disease, including the following: Wounds, 26 officers and 192 enlisted men; disease, 165 officers and 5344 enlisted men; accident, six officers and 309 men; drowning, eight officers and 86 men; suicide, two officers and 59 men; murders and homicide, 32 men.

The grocers of figs seem to be well satisfied with prices received for their dried product, which average about 70¢ per ton. The shipments of dried figs from California are rapidly increasing. If the blightophaga proves its power of survival in the state there will be a "boom" in fig planting, although it is uncertain whether there will be any more profit in the fig line of commerce than in the lumber and nut lines, which now seem to be the most profitable.

A warrant was issued last week for the arrest of N. C. Twining, a teacher at the Ivenhoe school, Los Angeles. It is alleged that he cruelly whipped Vida Belcher, the 13-year-old daughter of School Trustee Belcher, who is politically opposed to Twining. The girl had a heart disease and is said to be in a precarious condition.

Carroll Cecil, a stockman of Silver Creek, reached Grand Island, Sacramento county, Cal., three weeks ago with 40 head of young, unbroken mules, and sold the entire band at \$200 per span, says the Lakeview Examiner. Mr. Cecil says the business of raising young animals for the market is just as profitable as it ever was; that the mules he sold at \$200 per span are not above the average, but he has sold 150 head, if he had them. He intends to take a large herd to the Sacramento valley next fall, confident that the price will be \$300 per span.

The fight between James Jeffries and Thomas Sharkey came off at Coney Island Friday night. The fight lasted rounds and both men were on their feet at the end. The referee awarded the fight to Jeffries on points. Sports regard the ruling as very unsatisfactory, and claim it should have been decided a draw.

Workmen engaged in building a tunnel at the powder works near Santa Cruz, came across a bed of live snakes 300 feet below the top of the mountain being tunneled.

The Pennsylvania ferry-boat Chicago, plying between Jersey City and New York, was cut in two by the steamer City of Augusta, which crossed the line on the New York side of North river. She went down in seven or eight minutes. There were between 30 and 40 people aboard, four being women. It is supposed that several persons were drowned.

The naval test of the Marconi system of wireless telegraphy was successful. Twenty-two warships of New York one day early in the week. Messages were sent for a distance of 21 miles and received with such accuracy as if by the old system of telegraphing.

The steamer Bertha reached San Francisco recently with 389 passengers and \$1,500,000 in gold from Cape Nome, Alaska. Returned miners say the district is richer than Dawson.

Amos Lant, the noted hangman of San Quentin, has been hopelessly insane and sent to the State Hospital.

The old reliable—The Weekly Oregonian.

The Floriston, Cal., paper mill wants a daily carload of lime.

The telegraphic rate from Atlin to Dawson is \$4 for ten words of loss.

A new railroad is projected between Ensenada, Lower California, and San Diego, Cal.

The Snoqualmie Falls, Wash. Electric company has begun to supply Electric with light and power.

Nearly \$200,000 has been invested in new pumping plants in the vicinity of Pomona, Cal., this year.

The Truckee River, Cal., General Electric company expects to be ready to deliver power on the Comstock June 1, 1910.

The hydraulic system put in by the Edison Iron works of San Francisco is draining the entire Comstock from end to end.

For the first ten months of 1899 the United States has furnished Mexico with \$333,335 worth of electrical material, about double the sales of the same period of 1898.

Great Northern trainmen say they will refuse to sign bonds, and if the company deducts cost of same from their October pay checks they will go out in a body.

The Butte County, Cal., Electric Power & Light company begins operations next week. Power is to be used by manufacturers, druggists, farms and mines. The plant adds 5000 H. P. to the 9000 H. P. brought from Edison, Cal.

The entire force of shipwrights employed at the navy yard, Mare Island, quit last week because the government would not advance their pay from \$4.24 to \$5.04, as promised.

Horris Hicks, a student at Berkeley university, broke his neck while playing football recently from a crane in the Arctic ocean. Stops were made at various ports and some 60 destitute miners picked up and brought south.

The revenue cutter Bear arrived at Seattle one day recently from a cruise in the Arctic ocean. Stops were made at various ports and some 60 destitute miners picked up and brought south.

The officials at Dawson are receiving many inquiries from relatives for missing kinfolk, and the police are busy trying to find out just what happened. A representative of a fiber company has visited Butte county and offered to supply half the capital for a yarn plant, provided local people would supply the remainder.

All the walnut packing houses are actively engaged in the grading, grading and packing the nuts. The crop is moderate in size and of excellent quality. It has been practically all sold at remunerative prices.

Several hop sales have been made in Balles, Or., during the past week, although the market has not fairly opened yet. The price paid so far, ranging from about 8 cents to 10 cents, according to quality.

Colonel Moulton of Colusa county, has this year raised a large quantity of sorghum molasses. This is quite an industry in some of the eastern states, but has received little attention in California.

Charles Hall, a cook of the steamer Hancock, was shot and killed in a saloon near San Francisco recently by C. R. Dodge. Dodge shot in self defense.

While riding on freight cars near Red Bluff, Charles Staples and an unknown man were killed last night. Another man, whose name is not known, was probably fatally injured.

Brigadier-General Joseph C. Breckinridge, inspector-general of the United States army and major-general of volunteers, arrived in San Francisco last week from Washington on an official visit.

The election held at Eureka for the purpose of determining whether Eureka should be bonded for \$40,000 to erect a school building was overwhelmingly successful. But 500 votes were cast; 299 in favor of the bond, and 201 for the district has 1800 votes.

A warrant was issued last week for the arrest of N. C. Twining, a teacher at the Ivenhoe school, Los Angeles. It is alleged that he cruelly whipped Vida Belcher, the 13-year-old daughter of School Trustee Belcher, who is politically opposed to Twining. The girl had a heart disease and is said to be in a precarious condition.

Carroll Cecil, a stockman of Silver Creek, reached Grand Island, Sacramento county, Cal., three weeks ago with 40 head of young, unbroken mules, and sold the entire band at \$200 per span, says the Lakeview Examiner. Mr. Cecil says the business of raising young animals for the market is just as profitable as it ever was; that the mules he sold at \$200 per span are not above the average, but he has sold 150 head, if he had them. He intends to take a large herd to the Sacramento valley next fall, confident that the price will be \$300 per span.

The fight between James Jeffries and Thomas Sharkey came off at Coney Island Friday night. The fight lasted rounds and both men were on their feet at the end. The referee awarded the fight to Jeffries on points. Sports regard the ruling as very unsatisfactory, and claim it should have been decided a draw.

Workmen engaged in building a tunnel at the powder works near Santa Cruz, came across a bed of live snakes 300 feet below the top of the mountain being tunneled.

Dr. F. E. Lily of Merced, died a few days ago of blood poisoning. He was public administrator and coroner.

Family troubles caused Thomas Cox to commit suicide last week at Keswick.

The trial of George Suesser, for the murder of Sheriff Farley, is being held at Salinas this week.

Samuel Rolla Walker, one of Monterey's oldest citizens, is dead at Pacific Grove.

Samuel Winter, a resident of Fresno, committed suicide by taking strychnine. He was a drummer and in poor health.

Mrs. Ruth E. Goetz, who is being sued for a divorce at San Jose attempted to commit suicide in the court room last week while the case was being reviewed.

There are to be four mails a day between Vallejo and San Francisco in the future.

Hereafter Los Angeles is to tax vehicles of all sorts. It is expected that \$18,000 per year will be raised in this way. The money will be used for street repair purposes.

ALL A MISTAKE. But a Mighty Serious Fact Was the Same.

There is a story of a man who just put in public pillory because he couldn't pay a small debt. An anxious friend came to him, and he, who did not feel assured, explained argumentatively— "Perhaps not," replied the victim of mistaken justice; "but here I am."

The seemingly impossible often comes true. If a man should tell his friends that he was cured of indigestion many of them would exclaim: "Why, man, indigestion isn't a killing complaint. His ailment would be," "It is a killing one," the fact is, indigestion in the full sense of the term is not a mere ailment, but a complaint. The worst diseases that flesh is heir to, have their beginnings in bad digestion and the liver and stomach.

People by hundreds every day to Dr. Pierce's "Golden Medical Discovery" is a cure for many of the most dangerous diseases that afflict the human system. Most of the people who die of consumption die because they neglect the liver and stomach, and give the liver power to keep it pure. Nature does the rest.

"Discovery" does it by creating a digestive organ that feeds the body for good or evil. It is shown in the case of a little girl living in Chicago, who was cured of indigestion, blood, and gives the liver power to keep it pure. Nature does the rest.

For thirty years Dr. Pierce has been chief physician of the Lawrence Hotel and Surgical Institute of Buffalo, N. Y., where he has had probably a more extensive experience in treating chronic diseases than any other physician in America. His remarkable cures are the result of his treatment of the English-speaking world as the most marvellously efficacious.

"Favorite Prescription" for women is unquestionably the most perfect and successful ever intended for the treatment of female complaint. Taken in conjunction with the "Golden Medical Discovery" it is a most effective and powerful effective course of treatment for weak, nervous, overworked women.

A copy of Dr. Pierce's great thousand-page illustrated book, "Common Sense Medical Advice," will be sent free of charge on receipt of 21 one-cent stamps, or the cost of mailing only; or for 21 stamps, which can be obtained from the Western Dispensary Medical Association, Buffalo, N. Y.

WILLIAM FOX. ALLEN HILDRETH. FOX & HILDRETH, Ashland, Oregon.

City Passenger and Truck Transfer. All kinds of freight, baggage, household goods, etc., transferred with promptness and safety. Handling on a large scale contracted for.

WOOD FOR SALE. —ICE IN SEASON.— Will handle ice in Ashland during the summer season. Delivered at your door every morning.

Passengers delivered to any part of the city.

GRANDMA HAD CONSUMPTION and I am afraid I have inherited it. I do not feel well; I have a cough; my lungs are sore; am losing flesh. What shall I do?

Your doctor says take care of yourself and take plain cod-liver oil, but you can't take it. Only the strong, healthy person can take it, and it can't take it long. It is so rich it upsets the stomach. But you can take

SCOTT'S EMULSION. It is very palatable and easily digested. If you will take plenty of fresh air, and exercise, and SCOTT'S EMULSION steadily, there is very little doubt about your recovery.

There are hypophosphites in it; they give strength and tone up the nervous system while the cod-liver oil feeds and nourishes.

SCOTT & BOWNE, Chemists, New York. Seattle, Wash.

A few years since orchardists were tumbling over themselves to plant Tragedy prunes, which were then selling at enormous prices in eastern markets.

Now the same men, except in the very earliest sections are digging them up. They will not sell at all after better prunes come into the market.

The crop of Thompson's seedless grapes is large this year and of good quality. It was mostly harvested before the rains. For some reason customers insist upon having this grape "bleached" and the price seems to be fixed more by success in bleaching than by any other quality. "Extra bleached" are now selling for 10 cents per pound, but growers want more and are "holding off."

The California Raisin-Growers' association, with its vigilant inspectors in each packing house, is maintaining with rigid rules the "standard of excellence" in every grade of raisins permitted to be boxed and stamped with the name of the association, so that the jobber and retailer can feel assured when purchasing California raisins so stamped that he is getting just what he pays for.

The Crockett sugar factory has had rather poor success with the best planting of last year, many of which, for one reason or another, did not turn out well. The company seems to have poor success in inducing farmers about the bay to replant, for it proposes to itself lease and operate about 10,000 acres, some of which, and probably the majority of it, will be reclaimed lands on the river islands or about bay. One thousand acres of reclaimed Petaluma marsh lands are to be planted to beets.

It is estimated that fully 10,000 acres of barley were caught out in the rain on Union and Roberts islands, and partly on the west. The weather there has been such ever since that most of the farmers assert that they will not lose much, as the growing grades which were wet will make good feed, and only few cents on each cental will be lost. The harvesters will not complete their work on the islands till the last of next week.

Captain William Green, Sonoma's oldest pioneer, is dead.

Earl Fruit Company. CAPITAL AND SURPLUS, \$250,000.00. MAIN OFFICES: Sacramento & Los Angeles, Cal.

BRANCHES: CHICAGO, BOSTON, NEW YORK, PHILADELPHIA.

OPERATING IN All Pacific Coast Fruit Districts.

FRUIT GROWERS' EXPRESS. ARMOUR & CO., Prop's.

General Offices: 250 La Salle St., Chicago, Illinois.

Office at residence, South Main Street. The..... JACOBS CONCENTRATOR.

Has fewer wearing parts and lightest running machine made; handles as much or more ore as any belt machine. The patent canvas lap belt is the best made for saving fine sulphur and gold—nothing beats it. A machine that is easy to run and keep in order. Cheapest and best machine made.

PRICE \$350. On board cars. Manufactured by ASHLAND IRON WORKS, Ashland, Oregon.

For further particulars, address: E. H. JACOBS, Prop. HENLEY, CAL.

Henley, Cal., March 20, 1899. We have used the Frue Vanner, Triumph and Wiley concentrators. We are now using two of the Jacobs Concentrators in our mill at Henley. We consider the Jacobs Concentrator the best machine manufactured. It does the work cleaner and saves a much higher percentage of sulphure than other machines, and we recommend it to all mining men to be the best concentrator on the market.
