Life at Grant's Pass.

Grant's Pass Courier.]

A season of agitation occured Monday in the corner saloon, when August Fetsch, the proprietor, and Robert Bybee engaged in a dispute over a game of poker. It seems that Mr. Fetsch expressed doubts of Mr. Bybee's veracity and that Mr. Bybee then and there imprinted his digits on the countenance of Mr. Fetsch. This act seemed to displease Mr. Fetsch, who forthwith arose and smote. This procedure in turn aroused the displeasure of Bybee, who declared war. Mr Fetsch made a desperate charge on Bybee's fortifications, but was repulsed with heavy loss. A fierce battle was waged but the parties were finally separated, greatly to their relief. Their performance cost them the regular price—$5 apiece.

A Big Mining Enterprise.

Yreka Journal.]

The Yreka Creek Dredger Mining Co. has commenced work by staking out the ground for operations, and starting scrapers in digging out a basin for the dredger. The starting point is in the Booth claim, north of the Hawkinsville school house, from which place the dredger will continue northward to Yreka, a distance of about two miles. It will take a long time to work all the ground secured by the company, and it is firmly believed good pay will be realized. By opening a basin in the creek down to bedrock an abundance of water can be obtained, probably 10 feet or more.

Hawkinsville will resume its old prosperity of the '50 period, when the new dredger company gets well started in opening Yreka Creek at that place, work having been commenced there yesterday with teams and scrapers. Hawkinsville polled over 300 votes at the Buchanan Presidental election in 1856, while Yreka polled 1150 and Greehorn about 300 From the mining boom now progressing in Yreka basin, it looks as though the voting population will run up to old time figures. In the '50 period there were very few families and children among us, hence the '56 number of voters now, would represent a population of over 10,000.

Besides this, three extra classes are managed; more pupils expect to enter soon, and there is a bright class preparing to graduate. The pupils all belong to a literary society and there is in the room a table supplied with good papers, magazines, etc. T. W. Talcott is the happy leader of this hive of young progressive Americans.

Read these Testimonials, given under oath, of Cures Actually Performed:

I can cheerfully state that the Snap Shot is the best liniment I have ever used, or ever heard of in a life time.

We always keep a bottle of it at the normal school. Among the athletic students who have been hurt one or two applications of this liniment has taken out the inflammation and cured a sprained ankle, a dislocated knee and a mashed finger. One application cured a young lady of a paralized arm and another young lady who had the rheumatism and also a stone bruise was entirely cured by two applications.

It has also cured burns, cuts, carbuncles, pimples, tooth-ache and rheumatism.

We have never known inflammation that it will not speedily take out, if thouroughly rubbed in once or twice.

It is A MARVELOUS MEDICINE, and will do even more for the afflicted than is claimed for it.

On this 28th day of July, 1899, appeared before me, a Notary Public within and for the State and County above named one W. W. Dickerson who being duly sworn, made the following statement;-

My daughter, who was a student at the State Normal School one night while studying felt a pain in her hand which soon extended to the arm. The next day she went to school and during the day she lost the use of her arm and it became spotted and the teachers sent her home, fearing blood-poison. When she arrived home I took her to Mr. Sutton's office where he applied "Snap Shot" liniment and within twenty minutes of the first application, the swelling was gone down, the pain was gone and the spotted appearance left it, and she has never had the least trouble with her arm since or a recurrance of the pain.

James M. Fewel being duly sworn deposes and say's:- That about ten days ago I had the neuralgia in my face and it pained me severely and had been troubling me for two weeks or more when I had Mr. Sutton apply his Snap Shot. He rubbed my face for a few minutes and completly cured the pain and since that time been almost wholly free from pain.

My wife was sick with the cholera morbus and took about half a teaspoonful of the medicine and it cured the trouble at once and she never felt anything more of it.
