WAR IN THE TRANSVAL.

Progress of the Fight Between Briton and Boer.

LONDON, February 14.—The war office has issued the following message from Lord Roberts, received this evening:

"DEAR SIR, February 14.—General French left this point at 11:30 yesterday morning with three brigades of cavalry, Horse Artillery and Mounted Infantry, including several colonial contingents, in order to seize a crossing of the Modder, distant about 25 miles. He reports by dispatch dated 6:30 a. m. that he had forced a passage at Clip Drift and has occupied the hills north of the river, capturing three of the enemy's laagers with their supplies, while General Gordon of the Fifteenth Hussars, with his brigade, who had made a feint toward Clip Drift, four miles west, has seized it and another drift between it and Clip Drift, together with two more laagers.

"General French's performance is brilliant, considering the excessive heat and a blinding dust storm which raged during the latter part of the day. "Owing to the rapidity of his movements General French met with but slight opposition, his losses being small. Lieutenant Johnson of the Inniskilling Dragoons is the only officer reported severely wounded.

"The Sixth Division was last night on the north bank of the Riet at Waterval Drift, and is moving to support the cavalry. The Seventh Division is here and will go on this afternoon."

LONDON, February 16.—The war office announces that General French reached Kimberley Thursday evening.

Following is Lord Roberts' message to the war office:

"JACOBSBURG, February 16.—French, with a force of artillery, cavalry and mounted infantry, reached Kimberley this evening, Thursday.

LONDON, Feb. 17.—General Cronje, with a start of a day or two, is seemingly in full retreat from Lord Roberts, moving northward. General French, with the cavalry, simply stayed over night in Kimberley and then pushed on to get in touch with the retreating enemy.

A long Boer wagon train is moving toward Bloemfontein, followed presumably by a large force of British infantry. In their hasty departure the Boers left quantities of supplies and ammunition.

A fire in the business district of Bowie, S. D., caused a loss of from \$115,000 to \$120,000, partially insured. The post office, People's bank and seven business firms were burned out.

LONDON, February 18.—The correspondent of the Times at Modder river, wiring yesterday, says: "General Cronje's army of 10,000 men, with 1000 wagons, is in full retreat toward Bloemfontein, hotly pursued by General Buller's army. It is probably a rear-guard fight all the way to Bloemfontein. Our cavalry has already returned from Kimberley to join in the pursuit."

LONDON, February 18.—It is now amply confirmed that General Cronje escaped. Every detail received, however, proves how admirably Lord Roberts' plans were conceived and were succeeding. But for the unexpected delay at Dekker's Drift, which was almost impossible for weeks, the whole Boer force would have been surrounded. The delay of one day here gave them their chance for a hasty retreat.

All the other movements of Lord Roberts were executed exactly as planned. Apparently General Cronje is retreating with the main army, and even if he escapes altogether he will probably lose all his baggage.

The announcement in the papers of Pittsburg recently, that the long threatened clash of the steel kings had been finally precipitated by H. C. Frick filling the widely heralded suit against Andrew Carnegie and the Carnegie Steel company, praying for an equitable accounting of the ex-chairman's stock holdings in the giant steel concern, created a sensation in financial and manufacturing circles. The suit is regarded as the most important ever filed in connection with the steel business, and it is said more money is at stake than in any legal proceeding ever brought in this country in which all the parties were simply citizens. Steel manufacturers view the trouble as a bitter personal struggle for supremacy, and are watching each move with intense interest.

William G. Cramp, for nearly 60 years connected with the Cramp shipbuilding company in Philadelphia, died suddenly of apoplexy a few days ago.

The adjutant-general received the following cable message from General Oiler:

"MANILA, February 15.—Bates left today with two regiments and a battery of artillery, on transports for San Miguel bay, province of Camarines Sur, to move on Nueva Caceres and from Antimnon, through the province of Tayabas, is not practicable for troops. "The insurgents in Camarines show considerable activity and make attacks on our troops along the southeastern coast. They hold several hundred Spanish and a few American prisoners in the vicinity of Nueva Caceres. Kobbe, with two regiments, occupies the southeastern coast on the north to Donsol on the south; also all important points of the islands of Cautanduanes, Samar and Leyte.

"The conditions throughout the Philippines are gradually improving. All coasting vessels are now engaged in transporting merchandise and products. The bandit element is troublesome in all of the islands and keep the troops very actively engaged."

A cable from Manila says: During the night of February 5, 3000 insurgents bolonser who had been armed with Mauser rifles, attacked the American garrison at Daraga, in Southern Luzon. Re-enforcements were sent from Albay, whereupon the main body of the enemy made an attack on Albay and burned a number of houses. The Fourteenth volunteer infantry, which was stationed at Albay, retired to a convent and fired volleys at the enemy who had surrounded it and attempted to set it on fire, but were routed by sharpshooters from mountain guns which were worked from the convent. The detachment which went to the town hall and fought the rebels all night. Finally the insurgents retreated, leaving 71 dead on the ground. American loss was two killed and five wounded. One of the wounded was an officer.

An expedition commanded by General Bates and consisting of the Fourteenth and Fifty-fifth Volunteer Infantry Regiments and Kelleys' battery, with pack animals for transport purposes, sailed Thursday for the island of Camarines, southeast of Luzon. The expedition, which required six transports, was conveyed by the cruiser Baltimore and the gunboat Market. These vessels will cooperate with the army in operations in the province of South Camarines. Meanwhile General Kobbe is clearing the rebels out of North Camarines from Abak to Nueva Caceres.

An Editor's Life Saved by Chamberlain's Cough Remedy.

During the early part of October, 1896, I contracted a bad cough which I neglected until I feared that consumption had appeared in an incipient state. It was constantly increasing and I was unable to do anything for it. I became alarmed and after giving the local doctor a trial sent for a bottle of Chamberlain's Cough Remedy and the result was immediate improvement, and after I had used three bottles my lungs were restored to their healthy state. Florida orange growers are threatened with another loss, their new groves being in danger from the cold wave prevailing throughout the state. Early Sunday morning the mercury registered 16 1/2 degrees below zero. Sunday it was frozen, and that was even colder. For a few weeks since the January cold wave the weather has been warm, and many groves have leaved out and begun to show signs of spring life. Growers are fearful that the cold groves will be utterly killed or badly injured if the cold continues.

The St. Petersburg correspondent of a London paper remarks that "it will not do to put overmuch reliance upon Russia's official assurance that nothing will be done to embarrass England in the present situation of affairs." gives additional details showing that the delays in the ordinary traffic on the Central Asian railway are not caused, as officially stated, by snowfalls, but are due to the passage of Russian troops, estimated at 20,000, who are being concentrated in the vicinity of Tashkent. The correspondent adds that "most Russians are convinced that Russia intends sooner or later to take Herat."

M. de Crais, minister of the French colonies, has received a telegram from the governor of the French Congo, M. de Lamotte, announcing the defeat in battle of Rabah, the principal chieftain of the Central Sudan, by a French expedition under General. Rabah has long been the strongest opponent of the extension of French influence in the Sudan. He was formerly a slave of Zehur Pasha, himself a great Sudan ruler, but revolted and formed a kingdom of his own in Central Africa, subjugating potentates after potentates until he became head of a vast empire. His career of victory gained for him the name of the "African Napoleon." The French have been fighting his power for years, and the dispatch announces his overthrow.
