Civil Engineer and

Mineral Surveyor. NOTARY PUBLIC. Surveys for Patents and Mining Locations a specialty. Address Ashland, Or.

Office at residence, South Main Street

The

JACOBS CONCENTRATOR.

Has fewer wearing parts and lightest running machine made; handle as much or more ore as any belt machine. The patent canyas lap belt is the best belt made for saving fine sulphurets and gold—nothing beats it. A machine that is easy to run and keep in order. Cheapest and best machine made. —:—

PRICE 8350 On board cars. Manufactured by ASHLAND IRON WORKS, Ashland, Oregon.

For further particulars, address: JEHU JACOBS, Prop. Henley, Cal., March 20, 1899.

Henley, Cal., March 20, 1899.

We have used the Frue Vanner, Triumph and Wilfley concentrators. We are now using two of the Jacobs Concentrators in our mill at Henley. We consider the Jacobs Concentrator the best machine manufactured. It does the work cleaner and saves a much higher per centage of sulphurets than other machines, and we recommend it to all mining men to be the best concentrator on the market.

J. O. GILLSON.
