Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflamed condition of the membrane of the middle ear. The result is that the tube gets inflamed and has a running sound or imperfect hearing, and when it is entirely closed deafness is the result. Unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for each case of deafness cured by our method that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. J. C. HENNEY, 153 O. St., Toledo, O. Sold by Druggists 75c.
