True Economy

The difference of cost between a good and a poor baking powder would not amount for a family's supply to one dollar a year. The poor powder would cost many times this in doctors' bills.

Royal Baking Powder may cost a little more per can, but it insures perfect, wholesome food. In fact, it is more economical in the end, because it goes further in leavening and never spoils the food.

Royal Baking Powder used always in making the biscuit and cake saves both health and money.

You cannot, if you value good health, afford to use cheap, low-grade, alum baking powders. They are apt to spoil the food; they do endanger the health. All physicians will tell you that alum in food is poisonous.

Green's station, four miles south of Roseburg, furnished another train wreck Friday morning. The train arrived in Ashland ten hours late.

A Baltimore man is suing his wife for a divorce because she goes through his pockets at night. He ought to be laughed, if not kicked, out of court. In the first place, a man who can't hide all his money except what he is willing his wife should abstract from his clothing doesn't deserve to go down town with more than a nickle for car fare. And then any man fit to have a wife ought to understand that 30 cents thus obtained does more good and makes her pleasanter than $3.70 handed out and presented to her in the open. It is the woman, not the man, in that case that is entitled to a divorce.

Proposed New Railroads.

A. B. Hammond of Montana who organized and built the railroad to Astoria and the Corvallis & Eastern R. R. has recently purchased the John Vance Company's saw-mills, railroad, etc., in Humboldt county, Cal., which is one of the most extensive holdings of the famous redwood timber lands of that district. This surely means a railroad outlet of some kind, as Hammond is an active spirit. Whether it means a railroad up the coast to connect with his present lines in Oregon at Yaquina bay, Corvallis and proposed lines into eastern Oregon via Prineville or will eventually come up the Klamath river and connect with the Oregon Midland Railway's prospective eastern connections at Klamathon is not yet disclosed.

The Hammersley mining property, known as the Daisy mine has been bonded to Henry Phillips of the Preston Peak copper mines. A force of men has been sent to pump out the water, and active work will commence at once. The mine is located on Evans creek, about 20 miles from Grants Pass.

T. JAMES' BIG MINING DEAL.

The Spokane Chronicle of the 10th inst. has a column account of the sale of the Yellow Jacket and Maude S. group of mines 30 miles east of Rossland, British Columbia. The property belonged to Jack and C. B. Etner and Cromie brothers of Spokane, and the purchaser was Louis Will, the beeswax manufacturer of Syracuse, N. Y., who was rusticating in Ashland and Pelican bay last summer. The price was $65,000 the first payment being $10,000. Thos. James, the well-known mining expert formerly Superintendent of the Shorty-Hope mine near Ashland, but now a resident of Spokane, made the sale and has been placed in charge of the mine as manager by Mr Will. Mr. James has been developing the property under a bond and has 5000 tons of ore blocked out that assay $20 per ton. He has a 10-stamp mill en route to the mine that costs $6000 with equipment and the new owner expects to add 30 more stamps later on, besides other extensive improvements. The Chronicle article says: Mr. James is also a well-known mining expert in other parts of the country, and especially in Colorado, having come to Spokane early last November in the interest of this deal. Although asked for a statement at that time in regard to the proposed purchase he refused to give anything for publication until he saw the first payment made. In the well-known apex and side land case in Aspen, Colo., Mr. James gained renown, his testimony being given preference over Australian experts. He now intends to make Spokane his home, and will make frequent trips between here and the mines.

The Bravery of Woman

Was grandly shown by Mrs. John Dowling of Butler, Pa., in a three years' struggle with a malignant stomach trouble that caused distressing attacks of nausea and indigestion. All remedies failed to relieve her until she tried Electric Bitters. After taking it two months, she wrote; "I am now wholly cured and can eat anything. It is truly a grand tonic for the whole system as I gained in weight and feel much stronger since using it." It aids digestion, cures dyspepsia, improves appetite, gives new life. Only 50c. Guaranteed at EUGENE A. SHERWIN'S Drug Store.

From a G. A. R. Man

"My attack of miller's Asthma was very bad. I was afraid to lie down at night for fear of smothering. I couldn't get my breath. No matter if all the doors and windows in the house were open, it seemed as if there was no air and that I must surely smother to death. Mr. W. B. Long, of this city, called my attention to Acker's English Remedy for Throat and Lung Troubles. I thought little of it but bought a bottle in the hopes that it might help me a little. It gave me wonderful relief, and the second bottle cured me completely. My recovery is permanent, too, for ever since I have not had the slightest return of my old enemy. I consider Acker's English Remedy by long odds the best medicine in the world for hacking coughs, asthma and bronchitis. It completely masters those stubborn diseases that many people wrongly suppose to be incurable. If sufferers will just try a single bottle, it will prove every word I have said, and more too." (Signed.)

My little girl's hair did not grow. It was harsh and dry, and would break off, and her scalp was full of dry dandruff that I could not comb out. A place around the back of her head was bald, and on the top of her head the hair was only two or three inches long. I used CUTICURA SOAP and some CUTICURA Ointment, and her hair has come in thick and as soft as silk. MRS. A. DOWNEY, Alfred, O.
