# Royal Baking Powder

## Makes The Food More Healthful

Royal Baking Powder possesses peculiar qualities not found in other leavening agents, which arise from the superior fitness, purity and healthfulness of its ingredients.

Royal Baking Powder leavens the food perfectly by its own inherent power without changing or impairing any of the elements of the flour.

Thus the hot-breads, hot-rolls and muffins, and the delicious hot griddle-cakes raised by the Royal Baking Powder are wholesome and digestible, and may be eaten without distress, even by persons of delicate digestion.

Alum baking powders are low priced, as alum costs but two cents a pound; but alum is a corrosive poison and it renders the baking powder dangerous to use in food.

ROYAL BAKING POWDER CO., 100 WILLIAM ST., NEW YORK.

Markham's "Man With a Hoe" becomes Markham's "Man With a Hoe" becomes more and more a reality, the man with the lash will become more and more a necessity. Capitalization tends to break man down mentally and build him up physically, so he can better serve his masters, and this physical growth can be better kept in check by physical pain than in any other way, and the lash is the most proper way of applying it. But if equality of opportunity was preserved for all men, there would be no Markham's hoe-men to need the lash to keep them in the paths of rectitude.
