The election takes place next Tuesday and it is the quietest campaign ever witnessed in this county. The republicans have a good organization and being in possession of all the spoils have been able to put forward the best artificial showing. The local election in June was very demoralizing to the democrats. On account of the weakness or crookedness of the republican party laid itself down to the republicans and refused to even allow the grand old party, so-called, to be called down in national, state or county affairs. In one way and another the democratic campaign was so weak and impotent that it was substantially in the hands of the republican manipulators for certain results. Adding to this unnatural state of affairs the want of interest taken by the people it was inevitable that the democratic party in this campaign from the influence of the republican machine. This largely accounts for the absence of anything like a democratic campaign in this county.
