Lock Box 95, Ashland, Oregon.

HOT AIR BUBBLE BURSTED.

The Circuit Court Decides the Saloon Cases in Favor of the City of Ashland.

Salomon and Lewis Do Not Meet the Mayor the Second Time and are Supposed to be in California.

The cases of the city against the saloon keepers of this city, H. Salomon, V. Lewis, Honck & Son, and J. Salomon, were decided by Circuit Judge Hanna Monday.

These parties were convicted of selling liquor without a license in City Recorder Berry's court and after giving bonds appealed to the circuit court on a writ of review. This action made the city the defendant in the case. The case was tried on the points of law involved and decided in favor of the city of Ashland. C. B. Watson and W. M. Colvig were the attorneys for the saloons and H. L. McWilliams, W. C. Hale and J. R. Neil for the city. The order of the court is as follows:

Now, on this 15th day of July, 1901, after careful consideration of said cases, the Court finds that there was no error of law in the trial of said cases in said Recorder's court, in said city of Ashland; and in the rendition of the decision thereon. It is therefore ordered that the petition of plaintiffs be denied and that the Recorder's Court of the City of Ashland be and it is hereby directed to execute the matter reviewed in accordance with its decision.

It is further ordered that the defendants pay the costs of said proceedings and that the clerk of this court spread on its records the proceedings herein as proceedings had in vacation.

... COLESTIN ...

This is simply another chapter in the same old case of "hot air" bubbles. The liquor business in Ashland while temporarily compelling the saloons to hunt their hole it will not long be long before they are ready to start again. But it is likely that it will return when the storm blows over.

Honck & Dame have a sign out: "This place for rent" and have quit selling liquor.

Wm. Sonnikson quit the business soon after his conviction and is not now engaged.

H. Salomon, a gentleman with pronounced Hebrew accent and the gait and swagger of a picaresque character, reviewed the foreign troops who served in China. He praised General Gaselee, the British commander, and General Fukushima, the Japanese commander. He also spoke highly of the discipline of the Germans and the military pride displayed by them. He deplored the "undressness" of the Americans and exhorted the officers to employ good tailors, thus setting a good example for the men. Colonel Sumner of the Sixth Cavalry endorsed what General Chaffee said. He advocated the adoption of distinctive parts of uniforms, thus associating the men with their regiments. The experience and observations of the Americans in China have broadened and improved the arguments which have returned to the Philippines.

IN THE PHILIPPINES.

General Chaffee, addressing the members of the Military Order of the Dragon in their banquet at Manila, reviewed the foreign troops who served in China. He praised General Gaselee, the British commander, and General Fukushima, the Japanese commander. He also spoke highly of the discipline of the Germans and the military pride displayed by them. He deplored the "undressness" of the Americans and exhorted the officers to employ good tailors, thus setting a good example for the men. Colonel Sumner of the Sixth Cavalry endorsed what General Chaffee said. He advocated the adoption of distinctive parts of uniforms, thus associating the men with their regiments. The experience and observations of the Americans in China have broadened and improved the arguments which have returned to the Philippines.

THE TROUBLE IN CHINA.

General Gaselee, who commanded the British Indian troops at Peking, left July 14 on route for England by way of Japan, Canada and the United States. There was a special guard of American, Chinese, Italian and Japanese troops at the station and a number of Chinese police. The presence of the latter was an unusual occurrence. Part of General Gaselee's staff will remain at Tientsin.

General O'Moore Creagh, who succeeded General Gaselee, Colonel Alexander of the Sixteenth Bengal Lancers is now in command of the British troops in Peking. The Sixteenth Bengal Lancers, the Seventh Rajputs and the 10th Cavalry will leave about the middle of August. Only 250 troops will be left as a legion guard.

THE CROPS OF OREGON.

Hay is nearly a completion and the crop, as a whole, is an average one and has been secured in excellent condition. The second crop of alfalfa is making satisfactorily. The corn crop is well advanced in the clover fields in Clackamas, Marion, Linn and Curry counties, but the grain is not so good as it was last year. The wheat crop is becoming general. Wheat, oats, rye and barley in the Willamette valley continue doing well. The beans are large and well filled. The potatoes are in excellent condition. The fruit crop is not so favorable, as there is considerable complaint of small heads and shrunken berries. Good deals of the wheat crop in Union county has been cut for hay. Spring wheat is generally very promising, but in many sections it needs rain. In the Willamette valley the weather has been injurious to grain, and the yields there will be below the average. The harvest of the grain is well advanced and making satisfactory progress, although in some few sections the lateral vines are reported deficient, which may be due to a lack of rain. The cherry season is drawing to a close and early peaches and apples are beginning to ripen.

REV. MILLIGAN'S SON DROWNED.

While playing on logs in Willamette River Two Boys Go Under—Bodies Recovered.

Portland Oregonian, July 13.]

While romping about on a boom of logs yesterday, on the Willamette river, between the Portland Lumber & Manufacturing Company's mill and the old water tank, two boys, William and Charles Milligan, 11 years old, fell into the river and were drowned. Curtis was the son of Rev. James V. Milligan, Presbyterian Sunday school missionary of the Presbyterian church, and residing at 624 Second street, licensee of the Willamette saloons, machinist, 274 Sheridan street.

Shortly after breakfast, Milligan and Fred Fritch went to the river bank to play. The Fritch boy lives at Second and Sheridan streets. At 10:30 o'clock when the boys reached the boom of logs, and they began to romp, the Fritch boy fell into the river first, and that in his fright he dragged the Milligan boy after him. But the bodies were not recovered until the bodies were recovered. Rev. Milligan was in Tillamook county at the time.

... COLESTIN ...

The Chautauqua Assembly today closes its 9th annual meeting, being one of the most successful and successful of the series. At this session the program has become more popular and the lecture features were somewhat reduced. The most prominent feature of the series enlarged, making it more popular for a larger class of people and not eliminating the Chautauqua feature.

The Chautauqua assembly was successful in its efforts to pay for its platform and the \$200 interest on the bonds.

The enterprising president has attempted to reduce the property amounting to \$2400 and on two evenings this week received volunteer offerings amounting to \$1700 from patriotic citizens of Ashland.

CURES MULTIPLY,

Testifying to the Wonderful Success of Dr. Darrin...Electricity the Road to Health and Vigor.

Stevens, near Brownboro, Or. I am much pleased to be able to hear perfectly again. L. EMERSON.

Cured of Liver and Heart Trouble.

To the Editor: You may say for me that Dr. Darrin has done me a great amount of good in his treatment. I began taking his treatment at Ashland in May for liver trouble which had bothered me for two years. I am now very much improved and feel satisfied that I will be entirely cured in a few weeks. He also treated me for heart trouble and in that also I have been materially benefited. I have no hesitancy in recommending Dr. Darrin to any afflicted with these troubles. I live at Ashland and have been a resident of Jackson county for seventeen years. J. W. FEW.

Al Turpin Recovering.

To the Editor: I have been seriously afflicted with heart trouble, constipation, dyspepsia, kidney and liver complaint. I was unable to work, and at a last resort I went under Dr. Darrin's treatment by medicines and electricity. One month's trial has made me feel like a new man. I heartily recommend Dr. Darrin. I reside at Wellen, Or. AL TURPIN.

Deafness and Ringing Ears Cured.

To the Editor: I have been bothered with deafness and ringing in the head the past ten years from the effects of fever and taking quinine; I was also troubled with stomach trouble and dizziness. Dr. Darrin has cured me so I can hear my neighbors talk in a low tone of voice, and now my other troubles have vanished. I am well satisfied with Dr. Darrin and will ask you to refer your readers to me at Lake Creek, Or., where I have resided since 1872. H. G. MEYER.
