Question Answered.

Yes, August flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system and that is all they took when feeling dull and bad with a headache and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize Almanac. T. K. Bolton.

The family of S. O. Furrey of Ashland are comfortably located in their cottage, and will remain until September 1st.

Master Crit Tolman has been at the hotel for a couple of weeks, his auntie, Mrs. Blount, having been in San Francisco.

The coming attraction is a big dance in Tolman hall, Aug. 3d. A grand time is anticipated, and everybody is invited to attend. The music will be furnished by Mr. and Mrs. Ray Satchwell of Ashland orchestra.

A number of our young ladies went on a mountain climbing excursion, Saturday. They left the hotel at 6 o'clock a. m. and went to Buck Rock, and from there to the large structure on the S. P. line known as the Dollarhide trestle; from there they walked to Steinman station, hence across the country to the Carter Creek soda springs, where they were cordially entertained. From there they went to Wagner Springs, and after a rest of a few minutes they started for Tolman's arriving at 4 p. m.

On account of the timber frauds discovered in Montana and Idaho Commissioner Hermann of the general land office has suspended all proofs made during the present year under the timber and stone act, pending full investigation. This action applies to all states where government land is purchased, and involves thousands of cases. Many large companies and speculators, it is alleged, have had "dummies," as their agents, make purchases of these lands from the government.

Emilio Aguinaldo has written from Manila to Mrs. Emily Mash of Portland, Or., in answer to an inquiry as to the fate of her son, G. D. A. Venville, who was one of the men on the Yorktown captured by the Filipinos. Aguinaldo, while expressing sympathy with Mrs. Mash, says: "I shall try within the limits of the relative freedom I enjoy in prison to investigate what you so much desire. It would be my greatest pleasure if I could give you information concerning the matter, as I should like it for my own mother."

Don't be satisfied with temporary relief from indigestion. Kodol Dyspepsia Cure permanently and completely removes this complaint. It relieves permanently because it allows the tired stomach perfect rest. Dieting won't rest the stomach. Nature receives supplies from the food we eat. The sensible way to help the stomach is to use Kodol Dyspepsia Cure, which digests what you eat and can't help but do you good.—McNair Bros.

Mayor Neil is out with his low water mark proclamation. People should remember that they are getting a great water privilige in Ashland at a very small sum of money. Therefore don't hog it all. Lots of it goes to waste through carelessness. Remember that you are a great system and if each does his part well everybody will be happy. There is also a penalty attached for those that are not considerate.

The biggest part of the carload has already been spoken for, so come early and lay in your order, or you will get left. I can save you money on everything you buy. Yours very truly,

The District Fair.

The First District Southern Oregon Fair is to be held at Ashland this year, commencing September 17, and lasting five days. T. E. Hills, president, and J. W. Plymale, secretary of the association, are active in the preparations for this fair, and are meeting with much encouragement. The programme will be generally similar to those of former fairs, except there will be no horse racing. In place of the race attractions, there will be baseball games, a band contest (the band awarded the prize for the best music will be given $150) and ring tournaments, embracing Spanish games on horseback. Chautauqua Park is to be used for the fair. The tabernacle is to be fitted up for shelf and booth exhibits. The exhibits of fine stock are expected to be good, and the horticultural and art exhibits will be especially meritorious.

An effort is being made to induce Klamath and Lake Counties to participate in this fair. These counties are entitled to one-third of the state appropriation for the district fair, and their participation renders available the whole sum for the one fair. The Ashland Board of Trade made a liberal appropriation to assist this fair, and the citizens generally are inclined to give it cordial support. Ashland has never before been favored with the district fair. It is intended to take the bulk of these district fair exhibits to the state fair at Salem this season.

Grants Pass, July 29.—Alex Watts, owner and proprietor of the Watts placer mine in the Williams creek district, came into Grants Pass yesterday. He stated that the cleanup just completed was very good, bringing over $1000 for each man employed during the season. The Watts mine consists of 160 acres of rich placer ground, eight miles of ditch and two giants. It has been worked for 30 years and yields a big sack of coarse gold and nuggets each season. It will continue to yield handsomely for some time to come, as the ground is far from being worked out.

At Reno, Nev., Judge Talbot, in the case of Wedikind vs. Bell, held that when the top or apex of a lode is within the exterior lines of a valid mining location the locator has a right to follow its dip into adjoining patented land, mineral or agricultural. This decision gives the Wedikind location and also the Bell location to John Sparks, who recently bought the interest of George Wedikind in the Reno Star. Bell has been working the mine—Judge Curler having denied Wedikind an injunction to restrain Bell—and has taken out thousands of dollars every week.

Bert Ohmerty, a well-known young man, committed suicide by shooting himself near Congress, A. T. A few days previously Miss Ethel Kent was accidentally killed by Ohmerty's gun, which he had left standing against a rock near Kent camp. Miss Kent knocked the gun down and it exploded, inflicting a wound from which she died a few hours later. Ohmerty brooded over the accident until he decided to end his life.

While Judge Budd was hearing a case in court at Stockton, Cal., a sound like the hissing of a rattlesnake came from behind the railing, and the judge ordered the bailiff to investigate. Pablo Quinez, a Mexican, was found to be making the noise with his mouth; his eyes glinted like those of a snake, and he was in a comatose condition. Quinez continued to hiss for several minutes, but later came out of the fit and walked away. Some years ago Quinez was bitten by a rattlesnake and his arm had to be amputated to save his life. Occasionally he has these peculiar fits, hisses, sprawls on the ground and attempts, like a rattlesnake, to strike objects or persons.

Judge Hanford of Tacoma has announced his decision that an Indian citizen has a perfect right to buy whisky and to drink it if he so chooses, just the same as any other citizen of the United States. The ruling does not affect the law that prohibits the selling of liquor to an Indian who is not a citizen, but the court holds that an Indian who is a citizen cannot be deprived of any of the rights that are possessed by any other citizen under the constitution.

Lionel Comport, the young milkman mysteriously shot at Los Angeles recently, is now out of danger. Comport was shot through the abdomen and was thought to be fatally wounded. The operation is a most difficult one, and Dr. Pierce is receiving the congratulations of his colleagues on his success.
