JOB PRINTING

A. McCALLEN FOR A SEWER SYSTEM.

FOR ASHLAND.

Some of the Obstacles at Present in the Way of the Enterprise.

The regular monthly meeting of the Ashland Board of Trade was well attended at city hall Monday evening, President E. V. Carter presiding. Treasurer A. McCallen and Secretary H. S. Sanford's reports showed that the funds of the organization and its debts just balance. An assessment was then levied. THE SEWER PROBLEM.

The matter of a proposed sewer system for the city of Ashland was taken up. The map of the survey, plans and specifications of Engineer Jesse A. McCall and Consulting Engineer Geo. Scoggin was laid on a table and examined by all present and the report of Engineer McCall was read. [It is printed in full on first page of this issue.] The engineering was looked upon with satisfaction, and the audience then took up the vital question of the sewerage system, the matter of bonding the town and arriving at an equitable distribution of the costs and benefits of the same to the abutting property. M. F. Eggleston pointed out the obstacles in the way of these two principal problems involved. E. D. Briggs, who drew up an opinion on the matters in hand for the mayor and council read the same which is and council read the same which

rinted in full.

The question of the disposal of the sewerage was the most serious part of the discussion, as the residents of Ashland creek below the mouth of the prolated as would warrant an injunction, as I say is a matter of fact and is for your constitution. posed sewer were presumed to be op-posed to the dumping of the sewer mat-ter into the stream and it is believed will enjoin the council from doing so. All these matters were talked over and some light shed upon the question of handling the sewage and the rights and privileges of the residents, property and ditch owners on the lower part of Ashland creek to Bear creek.

This matter came before the city council on Tuesday evening and was also dis-cussed by that body. The private par-ties concerned and the city authorities will confer on the matter and the yarious modern methods of using the sewage will be investigated and when all is nuderstood some of the landowners may see their way clear to handle the sewage after the city delivers it to the desired locality. Sewage is very valuable for irrigation and fertilization and the soil touched by its magic influence prosoil touched by its magic influence produces a rich succulent vegetation not to be secured in any other of nature's interesting lavatories.

TO ENTERTAIN RAILROAD MEN. The matter of the second annual meeting and banquet of the Pacific Coast Traffic Association, which is to be held in tees as may be required to secure a proper

SUBCRIBE For the Valley Record Record F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

To the Hon. Mayor and City Council of the City of Ashland, Oregon: GENTLEMEN—In the matter of providing sewers for the city of Ashland and the payment therefore, on which the Hon. Mayor has asked of me an opinion in

writing, I report as follows: I respectfully refer you to sections 1981 and 1982 of Hill's Annotated Laws of Oregon, pages 981 and 982. The same is relation to the pollution of the waters of relation to the pollution of the waters of streams and providing penalties therefor. The term "domestic use" is there referred to. The term, "domestic use," means the use of water for a family for drinking, washing, bathing, cullinary uses and watering of stock. A right to pollute the water of a stream can be acquired by grant or deed and in contemplation of a sewer it would be well to get such grants from any person owning

plation of a sewer it would be well to get such grants from any person owning riparian rights below the point of discharge, otherwise after the putting in of a sewage system an injunction might be granted rendering the sewer valueless. I call your attention to this as it may be an important factor in the matter. It is of course a question of fact as to whether the water is now fit to be used for domestic purposes for the reason that for many years it has been the custom to discharge all the street gutters into the stream and as this discharge carries with it the manure washed from the streets at every rain storm as well as the sewage then.

Maj. Chas. E. Worden was granted an exclusive franchise for a telephone system for Klamath Falls, and the matter was to be ratified on Saturday of this week. When it began to be understood that the franchise was to be an "exclusive" one a remonstrance was circulated and will be presented to the trustees Saturday.

According to latest advices Col. Dietro, of Missouri, is the successful bidder on the Ashland-Klamath Falls daily mail route at \$4300 per year. Also that J. L. Yadin has the contract from Klamath every rain storm as well as the sewage from many houses that has been for years discharged in such gutters, also many closets are now discharging the sewage in the stream, and manufacturing plants and laundries are discharging into the stream large amounts of paisonous material and later a mounts of paisonous material and at his home, four miles south of later as the stream at the stream large amounts of paisonous material and at his home, four miles south of later as the stream at the s large amounts of poisonous material, and would the use of the bed of the stream

AS TO THE PAYMENT OF THE SEWER. Section 19 of the charter of the city of Ashland, page 88, of the special laws of 1898, provides for the bonding of the city for the sum of not to exceed \$20,000, provided the people of the city of Ashland shall, by a majority vote, vote the issuance of such bonds.

SPECIAL ASSESSMENTS AGAINST PROPERTY. A municipality has no power beyond that granted in its charter.

The powers granted to the city are set forth in the last paragraph of Sec. 1 of Article 1 of the charter (page 80 of laws of 1898). They are generally as follows: The same powers granted under the statute laws of this state. 2nd, the powers granted to municipalities at common law and 3d, the special powers granted in the The only general law of the state of Ore-

gon relating to municipal corporations is in the session laws of 1893, page 119 to page 133, inclusive. Section 22, page 127 is the 1st section of the general law that touches upon the matter and that only touches upon it as to the procuring of a right of way for a sewer, etc. Section 25 this city February 22d, was brought before the meeting. On motion the standing committee on entertainment and reception were authorized to look after the matter and appoint such other committees. Section 25 on page 129 refers to sewers, but only in the light of regulating the laying of the same, and to protect the public health. There is nothing then in the general law permitting the levying of any special streets, and then the rule must be followed as provided in the general laws rel-ative to the laying out of highways.

It refers more properly and specifically to the law of Eminent Domain, i. e., the law which allows the public to take property for public use, but "local assessments are not in the exercise of Eminent De main, 40 Cal. Rep. 497 and 28 id 345 and other cases there cited. Local assess-ments are methods of taxation. Mills on Eminent Domain, Sec. 2.

AS TO LOCAL ASSESSMENTS OR LOCAL TAXATION. Burroughs on taxation, page 471, Sec 148 says, in relation to the power of ru-nicipal corporations and mode in which it is exercised as to local assessments "The power to regulate and improve streets and alleys, etc., does not conter the power to levy local taxes." he power to levy taxes for general purposes, and the power to levy local assessments are entirely distinct." "The power to impose local assessments must be distinctly and clearly granted." "When finctly and clearly granted." "When: city charter gives to the council aut ity to levy and collect taxes not exing 1 per cent and power to pass ordi-nances for paving and keeping in repair the streets, lanes and alleys, it does not confer power to assess on the owners

The power to levy special benefit assessments is given in the Charter of the City of Ashland in Sec. 2 of Article VII or

for the levying of special assessments for sewer purposes. Under the last clause of said Section the assessment may be made

time of certifying the general tax levy of the city, also certify all the special assessments then due to the county clerk. Section I of Article XII, page 94, provides that the council shall annually lev the general tax and all special asses ments for certification to the count clerk. Section 2 of said Article XII pro ides that the county clerk shall extend the same on the tax roll and that the same shall be collected in the same ma

ner as other taxes are collected and that he same shall be paid to the city treas-Section 3 of Article XV, page 97, again provides for the levy of special assessments that may have been due for ten

The assessment must be based on the actual benefits. (Burrough on taxation, page 495.)
The assessment of the special tax must Town, protests against any amnesty to be a change the help must at once, which would probably be the est way. Then let the council provide for the extension of the time of payment to all who apply for such extension and on such times and terms of payment as the council may deem reasonable.

E. D. BRIGGS.

FIFTY-SEVENTH CONGRESS.

In the senate Dubois of Idaho, rising to a question of privilege, said the president ought to reprimand General Wheaton and those officers in the Philippines who are criticising the senate for its action or statements regarding the Philppines. General Wheaton had criticised a speech made at Boston by Professor Schurman, who favored and predicted the independence of the islands. The matter went over for further con-

Very little business was done in th house, which adjourned till Wednesday.

Tuesday. The senate concluded the discussion of the bill establishing a department of commerce and passed it. The name of the new department was changed to that of the department of commerce and that of the department of commerce and that of the department of commerce and the department of the dep labor. There was a stormy debate on the Phillippine measure, but was devoid of definite results. Irritation was displayed on both sides of the chamber, and Lodge demanded that Teller withdraw a statement to the effect that when General Wheaton criticised the charges made by the opponents of the government's Philippine policy the Republi-cans knew those charges were true. Teller afterward modified the statement.

The senate had under discussion whether a censorship exists in the Philippines. It was contended by the opposition that a press censorship does exist, on the ground of intemperance, had while the secretary of war was quoted secured a divorce from his wife on the as saying that no press censorship now

The house adjourned after being in session 25 minutes.

In the senate the Phillippine tariff bill was under discussion. Tillman of South Carolina attacked the policy of the government, and concluded by saying that to erect a tariff wall between the United States and another part of ness and made it the cynosure of the eyes of the world.

DEAFNESS OR HARD .. EARING ARE NOW CURABLE by our new invention. Only those born deaf are incurable. HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS:

BALTIMORE, Md., March 30, 1901.

Gentlemen: — Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.

About five years ago my right ear began to sing, and this kept on getting worse, until I lost my hearing in this ear entirely.

I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain

Very truly yours.

F. A. WERMAN, 730 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation. Examination and YOU CAN CURE YOURSELF AT HOME - at a nominal solvice free. INTERNATIONAL AURAL CLIMIC, 698 LA SALLE AVE., CHICAGO, ILL.
