## THE MODERN STORE

It Has One Department Little Known To Customers.

The great department store of our time has one department usually unvisited by customers, and yet very essential to the good of the store. It is the hospital de-partment. The hospital is a feature of the equipment of the great modern department stores, because experience has proved its advantages. It is not more a mark of humanitarian progress than of commercial sagacity. It is not there for the benefit of customers, though its use would not be denied them. It is there for the benefit of the clerks, a majority of whom are women, and these women are those who almost exclusively use the nospital. It is not an uncommon thing for the young woman employee of the

fainting to the floor. Her shop-mates promptly care for her, and she is assisted to the store hospital where she may rest and have the needed restoratives.

While the existence of the store hospital points to the sympathy of the man-agement with its employees, it also em-phasizes the weakness of the women for whom the hospital is established. Women who work must be prompt and regular in their duties or they are not wanted. The back may ache, every step may jar along the spine until the head throbs pitifully. The reaching up for a box of gloves or the stooping to pick something from the floor may cause acute pain, but the woman behind the counter must hold on until she drops, and she generally does. Then comes the hospital, a brief rest, and some pallative for her present pain. Next month she may repeat the ame experience; for it is noted that this ST. PAUL, DULUTH. MINNEAPOLIS, CHICACO liability to physical collapse among women is much greater at certain periods. The hospital is good in its place. But what these women need is health, Through Palace and Tourist Sie pers sound health. And sound health for them means the cure of those womanly diseases which are the primary cause of the physical weakness such women feel. There is a cure for womanly diseases

which has the testimony of tens of thoumanent nature. It is Dr. Pierce's Favorite Prescription, the medicine which

makes weak women strong and sick "A heart overflowing with gratitude as well as a sense of duty urges me to write to you and tell you of my wonderfull recovery," says Miss Corinne C. During the whole summer I could scarcely keep up to walk about the house, and yesterday I walked four miles and felt better from the exercise. I now weigh 125 pounds. I read in your book of testimonials where a lady said Dr. Pierce's medicines where a 'Thousand pounds of comfort,' please let me add one thousand pounds more to it. Mine was a case of complicated female disease in its worst form."

THE BEST MEDICINE FOR WOMEN. Dr. Pierce's Favorite Prescription can lay claim to being the best medicine for women without fear of contradiction. It it best because it contains no alcohol. and is entirely free from opium, cocaine and is entirely free from opium, cocaine and all other narcotics, which give only temporary relief from pain. It is the best medicine for women because its cures are radical, going to the root of disease and establishing perfect and permanent health. To these claims the women themselves are the witnesses, who having tried in vain other medicines, have

In consumption of coal the British engines have a decided superiority over American, though not over the Belgian engines. It is pointed out, however, by the president of the railroad board that the Egyptian engineers are not so muscular or intelligent as American engineers, and that alterations had to be made to enable them to operate the locomotives satisfactorily. He says he knows of railroads where a suitable American design has been selected and where difference of coal consumption is very small.
