Valter King Will Put In A Five Stamp Mill. Walter King, formerly of the Queen shoe store on Fourth street, has purhased the Taylor Bros. mine on Hungary creek, paying therefor \$5000, Mr. ing will at once install a 5-stamp mill on the property. He has purchased the mill from the Risdon Iron Works of San Francisco and it is expected to arrive francisco and it is expected to arrive his week, when it will be put up immediately. The motive power to be employed will be water from a ditch which

has already been constructed, through a futhi I motor, which Mr. King purchased here.

Until the arrival of Mr. King at the mine Major Carter is in charge, five or six men being employed. As soon as properly shaped a largely increased force will be put at work. The mine is a low grade but free milling property, and has considerable development work donwhich gives every evidence of permantory and steady values. A good many tons of \$10 to \$15 ore is on the dump and as Mr. King is a practical mining man of large experience and practical work, he feels safe in saying that he has a mine that is a mine. de left with his family Monday for the scene of operations. ELECTION OPINIONS.

As we copied a large number of articlefrom the Portland Evening Journal, s republican paper that supported Mr. Chamberlain for governor, we append herewith two editorials after the elec-

he traveling public from the four-cent rate which has prevailed on the railroads There are admonitions to both parties of western Oregon almost since the days when the passenger coach supplanted the stage. Now if Mr. Harriman will n this election. The first is to the rethe stage. Now if Mr. Harriman will give us a proportional reduction in freight rates the commercial prosperity of southern Oregon will be given an impetus such as no other one, or even two factors could give. With a slight lowering in freight rates Medford products would be able to get into markets from which they are now debarred and the consequence would be that our fruit and other industries would be given a tremendous boom and double-section freight trains on the railroad would be the rule publican party. The defeat of Mr. Fur nish is less a rebuke to him personally than it is to the bosses who misconceived the power of ring politics. This state is normally strongly republican, and it is no slight cause that could convert a republican majority of 15,000 into a minor-

ity on the head of the ticket. Mr. Furnish was not sacrificed to any spirit of revenge. The majority of the in freight rates would not mean the se people cannot be moved to such volcanic action by such ignoble sentiments. The ago before this section of the state was nomination of Mr. Furnish was not the result of any spontaneous regard for point at which their output could be him. It was forced on the party by the quickly increased were transportation charges fixed on a more encouraging bastrong hand. Otherwise, not even his sis than now prevails. own exceptional weakness or the exceptional strength of his opponent would have sufficed to beat him. The ring, and spring, when he was confronted by two Mr. and Mrs. C. H. Dalrymple and W. Guardianship of Rovs and Homer no one else, is responsible for a demo-

The other lesson is to the democratic party. The leaders of the republican party are not approved by its members. But the intemperate language of the democratic minority in congress, respecting the conduct of of the army in the Philippines, is resented by the people. That present conduct is near diverting the attention of the country from the real questions which republican leadership invites. But in this election Mr. Chamberlain has set an example in his tempered and reasonable exposition of the whole Philippine subject that even the national leaders may deign to notice. Indeed, if the democrats are wise, George Chamberlain's election will have written that plank in the national democratic platform. Justice to the Philippines does not imply any reflection on the Ameri-It is rumored that Charley Howard of Scott Valley and Jake Strobeck of Hornbrook, would not object to acceptance of ocrats of Oregon have only endorsed that "sweet reasonableness," which

> holds the solution of a difficult problem. Hard words are more fatal than bad deeds. That has illustration in Monday's result. Combined with other things, Judge McGinn's lawless tongue parts, of courage and generosity, mere and at right prices. political misconduct does not explain his slump. In his active career, in law and politics, he has wounded with his bitter speech many men who would have forgotten or forgiven merely injurious acts. It is the spoken word that rankles, and the election returns are in some degree the message of retaliation for his ungenerous eloquence. He sowed the wind and reaped the whirlwind.

Equally is the potency of moderate speech exemplified in his competitor. Dr. Lane, though capable on occasion of a cutting vocabulary, is by nature and habit a man of sweet speech.

The virtue of moderation in speech is again illustrated in George Chamberlain's phenomenal majority. Under strong provocation he never for a moment lowered the dignity of his canvass by uncourteous retort. A good natured raillery was the limit of his answer to the somewhat brutal strokes of his adversaries. Those who know his natural temper, best appreciate the strength of is admirable self-control. We know now, if never before, that "he who ruleth his spirit is greater than he that taketh a city," and that; as in this case t is he who taketh the city.

campaign. If treasured up, they will be fruitful of moderation and decency in the elections yet to come.

OR HARD DEAFNESS ARE NOW CURABLE HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS: BALTIMORE, Md., March 30, 1901.

- Being entirely cured of deafness, thanks to your treatment, I will now give you Gentlemen: — Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.

About five years ago my right ear began to sing, and this kept on getting worse, until I lost my hearing in this ear entirely

I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain

Very truly yours,

F. A. WERMAN, 750 S. Broadway, Bultimore, Md.
