TIMBER AND LUMBER. Some items of local interest concerning the most productive industry now before the consideration of the Coast. The timber land investments are the topic of discussion these days in this section and one after another all the big corporations of the eastern states have been camping on the forests of southern Oregon and northern California looking at the prospects for an opening for these lands in considerable bodies. What remains subject to entry under the federal government's timber land act is being rapidly taken and can be marketed at a fair margin a short time after approval by experts. We are informed that of the fine, large body of timber land lying north of Klamath river and between Jenny and Spencer creeks, the Congressman Hopkins tract contains 40,000 acres, John R. Cook & Co. own 16,000 acres, the Oshkosh Lumber Co. about two years ago secured possession of 14,000 acres, and there are 12,000 acres held by various different small holders. Lindley, Mason & Co. have contracts with the S. P. R. R. Co. for 20,000 acres of railroad grant lands and options on enough more to give them the control of 70,000 acres. All these lands are contiguous and are covered in one mass, being a virgin forest until the limited operations of the last decade. The Sagat Pine Lumber Co. at Klamath receives \$14 per 1000 feet for the common lumber supplied to the box factories and from \$16 to \$26 per 1000 feet for that converted by sash and door factories. These prices are what makes the investor wish he owned a sawmill or a large size of timber land. When Cook & Co. erected their large plant and began their modern at plant on the untouched Jenny creek forest, some nine years ago, they cleared the land clean of both pine and fir as they went along. We are informed these trees averaged in age in the neighborhood of 200 years or more and the size at butt of tree would average 2 and 3 feet. A rank growth of young forest is already noticeable upon the late scene of destruction and the saplings are now ten and twelve feet high and at growth of from 20 to 30 years will again be ready for market, as at the present time the Pogeama Lumber Co. is cutting trees that go low as 14 inches at butt and 10 inches at top. In this climate and soil timber makes a prodigious growth and comes forward at a more rapid rate than in the more rigorous climates of the east where the long, cold season compels a dormant state for a greater period every season. Eastern timber men call the saw mill business of Siskiyou county in the swaddling clothes of its infancy. One of the best posted timber authorities informs us that Siskiyou county saws 1,000,000 feet of lumber every day. An idea of this amount can be conceived by the daily hauling away to the markets of the world of 60 car-loads. One third of this is the daily product of the Scott & Van Arsdale company near Mt. Shasta.

WALZED TO HIS DEATH. Prominent Mt. Shasta Man Drops Dead on Ball Room Floor. Clam, W. Hirsch, bookkeeper for the Scott & Van Arsdale Lumber Co. at Upton, near Sisson, took his fiancée, Miss Cora Rinkie, daughter of John Rinkie, the company's butcher at Sisson, to the grand ball at Upton on the evening of the 4th of July. As he was waltzing with a young lady about midnight he suddenly sank to the floor on his knees, stretched himself out on the floor and expired before medical assistance could reach him. The merry dancing party was shocked and horror stricken at the suddenness of the unfortunate affair. Mr. Hirsch was aged about 27 years and well liked in that general neighborhood. He had accumulated a few thousand dollars and was an industrious and hardworking man. The remains were taken to San Jose by Miss Rinkie, where deceased has a sister living, and the interment was alongside the remains of his parents.

OBSERVED THE 4TH OF JULY. Ashland observed the National holiday in a modest and becoming manner, in spite of the heavy rains of the 2nd and 3rd. At 11 o'clock a. m. the literary exercises were held at Chautauqua grove, Mayor D. R. Grant presiding. The address of the day was made by Hon. Robert G. Smith, a fluent orator as well as mentally aggressive character from whom bold speech was heard upon the latter day issues of American history. Col. J. H. McKnight, a San Franciscoan, addressed the audience on "The Flag." Our celebrated male quartette—Leon and Elmer Patrick, Tilton and Burnett—permeated their audience with patriotic songs through their fine singing. The quartette picnic dinner met with the praise and approval of the partakers and the roasted ox proved tender and juicy. The Yeago-Niles orchestra of Henley led the music for the masked street carnival in plaza which proved a hilarious event. Good order was preserved and everything passed off satisfactorily. The opera house was loaded with pretty ladies and handsome men in the evening of the grand ball. It was a success in every way and a proper closing to the festivities. The baseball game on the Athletic grounds in the afternoon was witnessed by 500 people and the Thornton & Hildreth nine of Ashland defeated the Mt. Shasta and Yreka 4 to 0. There were some splendid plays in game.

HOODED BY HOBOES. Dunsuir News.] Jules Gwindon, for many months switchman here, but for several weeks breaking on the upper division of the Southern Pacific, received quite a painful injury, Monday morning, while chasing lobos off the brakebeams on his train running this way. A catlike guard struck him, scaling part of his leg and bruising his back in many places. After the usual surgical manipulations, Jules shook himself together and was able to take care of his anatomy without going to the hospital.

Klamath County. Chay Parker of Ft. Klamath expects to run a couple of wagons daily between that place and Crater lake during the tourist season. James Polton and his crew have been vaccinating cattle on Klamath marsh. Jesse Norton and Ben Looley are employed by S. B. Gardner of Ft. Klamath to train a string of racers. He has a fine stable of very promising youngsters. The Klamath County Agricultural Association has organized and elected the following directors: Geo. T. Baldwin, I. D. Day, Alex. Martin, Jas. H. Driscoll, John S. Shook, J. F. Adams and I. Gerber. The directors will proceed to select a permanent site for the construction of a track and buildings suitable for the exhibits and trials of speed. Numerous locations have been suggested, several of which are quite eligible.

COUNTY COMMISSIONERS. Bonds of New Officials Approved. The journal for the month of June had, approved and signed. Monthly reports of sheriff, treasurer, recorder, clerk and hospital contractor approved from E. K. Anderson. The official bonds of treasurer, clerk, recorder, sheriff and tax collector having been examined as to the sufficiency of the sureties were approved by the court. An agreement was made between E. W. Blewin and Jackson county, whereby E. W. Blewin is to operate the Rogue River ferry for the sum of \$180 per year, or \$15 per month. J. C. Moore and others for vacation of a county road which lies between southeast corner of Eagle's land and intersection of said road with county road leading from E. K. Anderson's place to Jacksonville having been fully considered, and that the abutting property owners whose said road is to be vacated have given their consent, it is ordered that said road be vacated and the county court record said vacation in road record.

Gold Hill. From the News.] Dr. James Braden has rented the brick office formerly occupied by Dr. Dixon. The Dr. will fit up offices to rent and will reserve the rear of the building for his own use. Henry Kubli came over to take a look at the Golden Standard mine preparatory to having some developing work done as soon as he gets his crop off his hands. Mr. Berkman, the owner of the Ramsey circuit mine, came up Tuesday to meet some eastern people who went over to the mine Wednesday. This mine carries high values in gold as well as quicksilver. All this property lacks is capital. Miss Nettie Moore, who was thought to have been seriously injured from the result of a runaway some three or four weeks ago, has now fully recovered to be able to visit with Mrs. Dan'l Richards this week. Jesse Vose, who has been suffering from a long time, was able to get out on crutches Monday and it is hoped that he will soon be so he can use the broken limb. The engine and boiler for Captain Leavitt's Maybell mine arrived on Tuesday's freight were unloaded and taken to the mine by teams of Mr. Walker and Noah. Thos. Griffith, a former resident of this vicinity, who has been spending the winter in southern California, returned Sunday to visit with relatives. Out of 9 of rock Dr. Braden and J. D. Graham nortered out \$633.40 in two days this week, and plenty more in eight days.

What at Two Cents Will Do. It will bring relief to sufferers from rheumatism, or neuritis, even in the worst cases. This is about what one dose of Foley's Honey and Rub Cost. Isn't it worth a trial?—T. K. Bolton. Jacob Isler, the timber cruiser, was over from Klamath on the first of the week. Mr. Isler is among the worshippers of southern Oregon's scenic beauty, the Williamson river and Crater lake section and the Rogue river valley with its fruits and flowers being rivals of the high lands and low lands, respectively, of the home of his youth in the famous Alps of Switzerland. J. Court Hall of Gold Hill has rented the saloon room which is to be put up on the corner of Seventh and D streets by Palm and Bodge. Mr. Hall aims to have the best appointed saloon in Oregon south of Portland—Medford Mail. E. F. Ogden and M. J. Handmore have gone to Phoenix, Arizona, to put in some extensive irrigation machinery for Ex-Judge G. W. Smith of Klamath county. If you want the best photos and latest styles that can be made in Ashland go to Camp's studio.

MAIL AT THE DOOR. You Can Have It Just for the Asking. The people all over the country living along any mail route are to have a luxury in the way of mail service after July 1, 1902, which is already passed. Even though there are no so-called "rural mail delivery routes" in this county, it is still possible for every farmer living along the route of a mail-carriage to have his mail left at his door by simply preferring the "mail box" service. All the farmer has to do is to stick up his little box and notify the post-master to have his mail put into it.

Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure. "For years I have been greatly bothered with kidney trouble and enlarged prostate gland. I used everything known to the profession without relief, until I was induced to use Foley's Kidney Cure. After using three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such trouble, for I can honestly state I have prescribed it in one hundred cases with perfect success."—T. K. Bolton. T. M. Reid, of the firm of Broad & Reid, Forest creek miners, was in Medford last week with a goodly sprinkling of gold dust—about \$800—the result of a few days' run. Keep cool. Pure Ashland water ice at 1 cent per pound and 75 cents per 100 pounds is cheap enough and will give you great comfort and relief. Phone 23. J. R. Edson, an old and esteemed pioneer of Siskiyou county, died at Gallezelle July 4th. The funeral was largely attended there Sunday afternoon. Use Soother of Pain. For all pains. R. A. Booth of Eugene, accompanied by his son, Roy Booth, Frank Beck of Yacaville, Cal., and C. M. Sites of Williams, this state, were visitors in Lakeview several days during the week. Mr. Booth is one of the prominent men of Oregon, and at the head of the Booth-Kelly Company, a firm which is now closing a deal for all of the lands in Oregon belonging to the California & Oregon Land Company.—Lakeway Examiner.
