Paym Predicts Chaos if Bill is Defated-Clark Says Revision Is Really Upward.

Wishington, D. C .- The House Satuday adopted the conference report on the tariff bill, 195 to 183 Twenty Republicans voted against the eport and two Democrats for it. The entire Pacific Northwest delegation, except Poindexter, of Washington, voted for the bill.

Minn of Illinois, in a sensational speeth said he would vote against the report unless the rates on pulp and print paper as reduced by the house were retained. He declared that Canada would take such action regarding pulp wood and print paper as to place an almost prohibitory price upon paper in this country.

Payne appealed to his Republican colleagues to stand by the bill, saying that if they wanted to drive their party into chaos they could vote against it. But he said it would be a delusion to vote against the bill upon the idea that the Dingley rates would be continued.

Payne estimates that the increase of revenue that would result from the enactment of the bill will be \$40,000,000 annually.

Average Rate Higher.

Champ Clark, the Democratic leader, said President Taft had been imposed on by being made to believe that the conference report was really a revision downward. Clark submitted a table showing that the average rate of the report is 1.73 per cent higher than the average rate of the Dingley law. If scores of new items in the report, but not in the Dingley law, were added, Clark said, the average increase would be at least 2 per cent.

The conference report will undoubtedly be adopted by the senate Seven or eight of the original "insurgents" will cast their ballots in caus The Democrate have been un
