SAY EARTH'S AGE IS 55,000,000 TO 70,000,000 YEARS

Scientists Fix These Two as Maximum and Minimum Estimates

Washington, July 26.—Old Mother Earth, like femininity through all time, but with far greater success than most of her sex, has defied man to learn her age. Scientists still admit their defeat. Their latest estimate credits her with "not above 70,000,000 years, or below 55,000,000 years."

This estimate given official sanction through publication by the Smithsonian Institute, is the result of studies by Frank Wigglesworth Clark and George F. Becker, of the United States Geological Survey.

Professor Clark, in a paper entitled "A preliminary study of Chemical Denudation," presents a view of available data for the world, of the proposition from a chemical point of view, Becker discussed the question in a paper on "The Age of the Earth" from a more philosophical point of view.

The age of the earth has always been a subject for discussion among

scientists and largely without any definite agreement among the representatives of the different branches of the studies on account of the different points of attack. Briefly, the more recent discussions as to the earth's age have placed time as follows:

Lord Kelvin, in 1862, 20,000,000 to 400,000,000 years, with a probable 98,000,000 years.

Clarence King and Carl Barus, in 1893, 24,000,000 years.

Lord Kelvin, in 1897, revised his figures to 20,000,000 to 40,000,000 years.

De Lapparent, in 1890, 67,000,000 to 90,000,000 years.

Charles D. Walcott, secretary of Smithsonian Institute, in 1893, maximum age, 70,000,000 years.

J. J. Jolly, in 1899, age of the ocean, 80,000,000 to 90,000,000 years.

W. J. Solus, in 1899, age of ocean, 80,000,000 to 150,000,000 years.

What is Best for Indigestion?

Mr. A. Robinson of Drumquin, Ontario, has been troubled for years with indigestion, and recommends Chamberlain's Stomach and Liver Tablets as "the best medicine I ever used." If troubled with indigestion or constipation give them a trial. They are certain to prove beneficial. They are easy to take and pleasant in effect. Price 25 cts. Samples free at W. M. DERIVATION OF SISIKYOU FROM FRENCH SEX CALLIOUX

In the Yreka Union of June 5, 1869, Colonel E. M. Anthony, in "Reminiscences of the early days of Siskiyou," a lecture delivered before the teachers' institute of Siskiyou county, held Friday, May 28, 1869, gives the derivation of the name Siskiyou.

He speaks of the first party of white men visiting this country in 1825, and goes on to state as follows:

"The tradition is that a party, possibly the one we have mentioned, were crossing a creek when they first saw the range of mountains to the north of us. There were six boulders in the creek, which the French called "Sex Callioux," and from this fact they called the chain of mountains the Sex Callioux mountains, which by an easy transition became Siskiyou."

Chamberlain's Colic, Cholera and Diarrhea Remedy Never Known to Fail.

"I have used Chamberlain's Colic, Cholera and Diarrhea Remedy since it was first introduced to the public in 1872, and have never found one instance where a cure was not speedily effected by its use. I have been a commercial traveler for eighteen years, and never start on a trip without this, my faithful friend," says H. S. Nichols of Oakland, Ind. Ter. For sale by W. M. POLEY.

FIRST COST, HALF A MILLION

Weston Leader.] A "model" high school building at Portland, which cost \$350,000, is described as an awful botch by the Evening Telegram. There are glaring defects in its construction, and its wooden interior makes of it a fire-trap. That paper objects because the school board is planning for another and similar building to cost the same amount. The board claims that \$350,000 is not sufficient for a fire proof structure of the size required, and that more money is not available.

All of this is interesting, and rather deplorable. It affords an inkling of what would happen should the Oregon normals be defeated at the polls and a "central normal" at Portland be decided upon by the legislature. It would have to be housed in a fire-proof structure, and the grounds, buildings and maintenance would require an initial appropriation of at least half a million dollars. It would require much more money and do much less work than the three normals "cut off" in a fit of imbecility by the last state senate.

The Leader doubts if all three Oregon normals together received as much as \$500,000 during the entire course of their existence. It knows that the Eastern Oregon State Normal School received but \$174,000 since 1891, the date of its first appropriation.

### T. R. DENIES ULTIMATUM

Declares He Has Not Asked for a Break With Sherman.

OYSTER BAY.—Theodore Roosevelt denied emphatically that he had sent an ultimatum to President Taft demanding that the president break with Vice-President Sherman.

The report had it that Mr. Sherman was chiefly responsible for the action of the state committee in refusing to select Colonel Roosevelt as temporary chairman of the New York state republican committee and in recommending the vice-president instead.

The colonel added that he had not sent Mr. Griscom or any one else to Beverly on any mission. He made it clear that he had no intention of doing so and recognized no situation which could call for such a step.

### SHERMAN IS HELD TO BE BLAMELESS

SULPHUR, Okla.—The select committee appointed by the house of representatives to investigate Indian land matters and the so-called Mc Murray contracts and which also has been investigating the Gore bribery charges, issued the following statement:

"The committee has heard and carefully considered all of the testimony submitted and is unanimously of the opinion that there is and was no warrant for any person to use the names of Vice-President Sherman and Senator Charles Curtis in connection with any improper relation with any Indian contract whatever."

"This is the opinion of the committee after hearing scores of witnesses, who appeared following the testimony of Senator T. P. Gore. Senator Gore declared that he had been approached by Jake L. Hamon and that Hamon, acting in the interest of J. F. McMurray, had offered him (Senator Gore) \$25,000 or \$50,000 as a bribe.

The Senator testified that Hamon mentioned Senator Curtis and Vice-President Sherman as being "interested" in the deal, Mr. Sherman being named as the man "higher up."

### CHANGE IS MADE IN MONEY ORDERS

WASHINGTON.—After September 1 the new style of recording money orders issued by the postoffice will go into effect. Instead of recording the name of the sender and name of the payee, the number of the order and amount will be entered by the officials, and if the sender loses his receipt and the money order is also lost, unless the number and date can be furnished from memory, there will be no way of tracing.

Man Bitten by Horse May Lose Arm.

ALBANY, Ore.—There is practically no chance to save the right arm of Jack Fisher, the groom, who was bit on the wrist by Tidal Wave, the famous pacer. The jaws of the big stallion crushed both bones in Fisher's wrist and severed the big artery in his arm, and his physicians believe it will be necessary to amputate the arm.

### PORTLAND IS CHOSEN

WASHINGTON.—The Esperanto Association of North America voted to hold its next annual congress in Portland, Ore., July, 1911.

Sherman to Take Stump.

### ITEMS OF INTEREST THROUGHOUT OREGON

Chronicle of Important Events of Interest to Our Readers.

Passenger Rates Will Be Reduced.

SALEM.—Notice of the voluntary reduction of passenger rates soon to be made on the entire system of the Oregon Railway & Navigation Company has been served on the railroad commission by W. W. Cotton, general counsel of the railroad corporation. The reductions are not great, but are sufficient to be materially felt by those who are regular patrons of the main and branch lines of the O. R. & N. The new rates will be filed with the commission as soon as they have been printed, according to statements of the railroad's counsel and will go into effect soon thereafter if approved by the commission.

To Eliminate Middleman.

THE DALLES.—The Farmers' Educational Union of this county has rented offices in this city. It is the purpose of the union to handle the wheat and other produce of the union and sell it direct to exporters and millers, cutting out the middlemen.

### FOREST RESERVE IN DANGER

Preparations Made to Call California Troops to Fight Fire.

PORTLAND.—So serious has the situation become in the Crater National forest in Southern Oregon that George H. Cecil, associate district forester, called a conference of the chiefs of the various offices to receive suggestions as to further procedure in the work of fighting the flames which are devastating vast areas of valuable timber and threatening the destruction of lives and other kinds of property.

A message was sent by Forester Cecil to the district forester at San Francisco, asking information as to the number, location and disposition of troops in California at the present time, how many may be available for service in Southern Oregon. The situation is extremely serious, perhaps the worst in Oregon history. In the Southern Oregon country there is little likelihood of the timber fires being extinguished by rain before the middle of September.

New Road Is Probable.

FOREST GROVE.—The construction of a railroad from this city to the Patton Valley district is one of the probabilities of the near future. The projected road will connect at Forest Grove with the Oregon Electric Railway and will have its terminal at the new townsite platted on the large timber holdings of August Lovgren, a big timberman of Preston, Wash.

### STATE'S LOSS IS LARGE

Harriman Estate Not Liable for Oregon Tax.

SALEM.—According to an opinion of Attorney-General Crawford, Oregon will not be among receivers of revenue from the inheritance tax now due in several states from the Harriman estate. The state's attorney holds the heirs of the estate residing out of Oregon are not subject to taxation under the inheritance tax law. This decision practically deprives the state of many thousands of dollars, as the Harriman estates in Oregon are of great value, and the assessments under inheritance tax laws have all been made.

Willamette Survey Is On.

OREGON CITY.—Chief Engineer Thompson, of the United States Engineer department, accompanied by a party of 15 men, arrived here to commence a survey of the Willamette river above and below the falls, for the purpose of determining the best site for locks, for which an appropriation of \$600,000 has been made by the United States government and the state legislature.

Will Honor Real Estate Dealer.

ALBANY.—An unusual honor is to be conferred upon C. W. Tebault, a real estate man of this city, by the citizens of Lacombe. As a mark of appreciation of the successful efforts of Mr. Tebault in securing settlers for that locality, a barbecue has been arranged to which a public invitation is extended. Two yearling steers are to be roasted and other refreshments served.

Panthers Killing Sheep.

ROSEBURG.—Farmers and stock raisers along the North Umpqua river in the Deer creek section of Douglas County, have offered a reward of \$10 to any person who will kill one or more of the panthers that are daily reducing the sheep flocks.

## Regulate the Bowels

"I have been troubled with constipation for several years, and have tried a great many kinds of pills, as well as medicine from the doctor. ## Silence!

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indelicate. The thought of examination is abhorrent to them, and so they endure in silence a condition of disease which surely progresses from bad to worse.

It has been Dr. Pierce's privilege to cure a great many women who have found a refuge for modesty in his offer of FREE consultation by letter. All correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.
