### **ERTC Musical** Unit Seeks More Players

Solid Senders Needed to Bolster Organization, Says Maestro Spalding

If you know the manual of arms for a piccolo, if you can pipe one hot or sweet, opportunity awaits—you may be able to get into the ERTC military band, Warrant Officer Charles S. Spalding, bandleader, announced Eriday nounced Friday.

Besides a piccolo player, clari-netists, trumpeters and a good dance piano player are needed to bring the band up to its authorized strength. Experienced musicians are requested to contact Mr. Spalding at the Band barracks (building 919) at Center

St. and Group Ave. The band is making every effort to provide the type of music soldiers most enjoy when it's most needed, the director pointed out. Every morning at the erack of dawn, bandsmen are out blowing into frosty mouthpieces to start off the soldier's day with music.

Special tunes have been arranged by Mr. Spalding as an accompaniment to individual battalion marching songs. Even swing is included in the scores to give soldiers an added lift. "singing battalion" This "singing battalion" pro-gram was originated by Col. Frank S. Besson, Post commander, on the theory that a singing soldier is a fighting soldier.

"In addition to playing for military formations, the band is preparing programs for concerts," Mr. Spaking said.
"We're throwing out the old-time band music unless it is still proving a favorite, and substitut-ing spine - tingling marches, plenty of popular music, a sprinkling of novelties and a reasonable amount of the fine music the great masters have written. This is our recipe for the soldier's musical palate."

Mr. Spaulding, a graduate of Harvard, Columbia and the Army Music School, has two as-Harvard, sistants. They are T/Sgt. Glen Roberts, the band's top sergeant, drum major and veteran of 21 years of service as a bandsman, and S/Sgt. Jack Hayes, leader the Camp Abbot dance band and former arranger for radio and motion pictures. In July, 1941, Sergeant Roberts and M/Sgt. Harry L. Dalton organ-ized the first ERTC band at Fort Leonard Wood, Mo. Sergeant Hayes, former leader of the ERTC orchestra at the Missouri station, organized the Camp Abbot dance unit and has develop-ed it into one of the most popular musical organizations in this section of the state. The dance band is featured over radio station KBND in Bend from 1945 to 2000 each Thursday night.

THEY DOUBLE IN BRASS BETWEEN ROLES AS SOLDIERS —Here you see, amid the stately pine trees, the 24-piece ERTC Military band under the baton of Warrant Officer Charles S. Spalding. They have been instrumental in supplying rhythmic creations to spur trainees in singing battalion songs, and their smooth brand of melodies greet every new increment arriving here. #### Think It Over!

Five minutes tardiness is not very much! No? If one man is five minutes late to work it seems negligible. If training of one thousand soldiers starts five minutes late It means that 5000 minutes or 84 man hours have been wasted. It means further that 10 men have been unnecessarily drafted. It means also that 10 men should have en released for combat. Lost time cannot be regained!

## Ace Athlete Is 11th Group Sarge Major

By Cpl. Harlan L. Weeks

A pro baseball player from the Blue Ridge Mountains of West Virginia, but you would never know it from looking at him or talking to him. That is M/Sgt. David J. Moreland, sergeant major of the 11th Engr. Tng. Gp. Hqs.

Moreland claims Ridge-Sgt. W. A. as home but spent a good many years in Cumberland, Md. where he played professional baseball for two and a half years in the outfield patrolling left field. Incidentally, Dave got his start in baseball and achieved something of fame as a member of the 1934 world champion American Legion Junior baseball team from Cumberland.

And just to make some of you and just to make some of your potential ball players feel a bit sheepish his batting average while in pro ball was a "measly" .305 which is hitting in any man's language.

Dave did this bit of remark-

able hitting while a member of the Cumberland Colts baseball team. He was employed as a cost accountant and an estimator for a lumber company before his induction on September 5, 1941, through Fort Knox, Ky. and came to Fort Leonard Wood seven days later where he took his basic training with Company D of the 30th Battalion.

After completing his basic he went into the Sixth group head-quarters as a stenographer and later became file chief and then assistant sergeant major. On March, 1942 he won his threstripes and in November put the first rocker under them. On May 1, 1943, upon his transfer to Camp Abbot he made master sergeant.

Dave was a four letterman in high school, winning athletic awards in baseball, football, basketball and track.

His hobby is photography and reading and, oh! yes, girls, at-tention—this good looking sergent major is a bachelor and with "no prospects" according

to him.
We apologize to him for our camera man who had a bit of tough luck this week but we promise you, especially the girls, that his picture will appear next week.

Week.

(Editor's Note: This is the sixth of a series of interviews to acquaint the 416 listed personnel with the "key" serged majors at Camp Abbot. Others will folloueach week.)
