Lydia Washburn and Dora Mabson were absent from school Thursday afternoon.

Dr. Mills brought a kangaroo mouse to school Thursday. Said mouse had a tail eight inches long, actual measurement.

The shooting match did not come off Friday. There was too much rain.

### How To Graft.

The time is coming when grafting will be in order, so the following will be appreciated:

L. H. Bailey, in his book on apple culture, gives these directions for grafting: In May, just as the leaves are pushing out vigorously, saw off the limb to be grafted where it is an inch or less in diameter. Trim the stub edges smooth and split it to the depth of about four inches, not more. When the scion is prepared ready for setting it should comprise three buds. The lower end is cut wedge-shape, to fit into the split, and on one part of the wedge part should be left one of the three buds. When the scion is set this bud will be deep down in the cleft and covered with wax, but being near the source of nourishment than any others, it will be most likely of all to flourish, and it will readily push through the wax. The scion is set in the cleft by exercising care that the inner surface of its bark matches the inner surface of the bark on the stub. Wax the whole over thoroughly, leaving no crack exposed. Two pounds of rosin melted with one of beeswax and one-half of tallow makes an excellent wax. As soon as melted pour it into cold water, and when it cools work it with the hands until nearly white. Whenever the wax is handled the hands should be greased with tallow.

Time Wasted With Bad Spelling.

Dr. Gladstone has made elaborate investigations in the schools of England and other countries to ascertain the time devoted to spelling. He finds that 720 hours at least are lost to each scholar, that an Italian child of 9 years will read and spell as correctly as English children at 12, though the Italian began his lessons two years later. It is about the same with the Germans and Swedes. This extra time is given to civics and useful sciences. The illiteracy of English-speaking nations is startling. There were 5, 658,144 persons of 10 years and over who reported themselves illiterate at our census of 1870; 6,239,958 at the census of 1880. The nearly illiterate are probably as many more. England is worse off than we are. But the other Protestant countries of Europe have almost none. One of the causes of this excessive illiteracy among English-speaking people is the business of English spelling. The reform of spelling is a patriotic and philanthropic reform.—Prof. F. A. March, in the December Forum.

A Kansas farmer writes from the "sun-burned district" to tell Iowa people to stay where they are. He "says: It is so dry in some of the western counties that they have to soak their hogs in wet sand over night to get them so they will hold stey the next day."—Lynnville (Iowa) Sentinel.

Fay, one word to you Eastern people. When you come to Oregon, as we hope many of you will do soon, come and take a look at Yamhill county. View our broad wheat fields, fine timber, clear water and elegant homes. See our flowers in bloom out of doors in January and the thermometer at 50 and 60 above zero. We have room for many good citizens.—Dayton Herald.

A perfect town is that in which you see the farmers patronize the home merchants, the home merchants patronizing the home mechanics, the laborers spending the money they earn with their own tradesmen, and all animated by a spirit that will not purchase articles abroad if they can be bought at home. The spirit of reciprocity between man and the mechanic, tradesman and laborer, farmer and manufacturer, results every time in making the town a perfect one to do business in.—Ez.

—Jesse Hobson has furnished the lumber for a new sidewalk from the Friends' church west to the east end of the bridge. The walk will soon be built, so that people from town who are compelled to walk to church will find traveling much better.

—J. C. Cooper, the county surveyor, has been here several days this week surveying a new road and running lines for a number of persons in this vicinity. Mr. Cooper says he is glad to see Newberg making such rapid advancement, and thinks it is now the second town in population in the county.

—The Chehalum Valley Board of Immigration has been having two 8-acre farms divided into small tracts of 5, 10 and 20 acres, this week, county surveyor Cooper doing the work. The L. Laughery place, east of town, was divided into six 10 and one 20-acre tract, and the Vantres place just north of town, into sixteen 5-acre tracts.

—Yr. Thomas Roberts, and family, of Highland, Ohio, arrived in Newberg last Monday. Mr. Roberts spent several months here last summer, and while here purchased the Sep Saxe place. He has spent considerable time in Florida and California, but after having seen an Oregon summer, he concluded that this is the best place he has found.

—A taffy pulling party was given last Saturday evening at the residence of Mr. James Heater. About sixty young people were present. The taffy was distributed and every body was willing to take a hand. After the usual manipulations of the mixture, a few lively games were played and all returned to their several homes and reported a large time.

—The new county road, running from near the Brutscher school house, east, to the Champeog road, was surveyed last Thursday, by county surveyor, J. C. Cooper. J. L. Davis, J. C. Nelson and Amos Nelson, of West Chehalum, were the viewers. The road will be of great benefit to the people living beyond the Champeog road, as it will be shorter and will miss several bad hills.

—The fighting editor has traded his old shotgun for a fine rifle. This is an improvement of which we are proud, as the rifle does not make nearly so much noise and the man who wants to whip the editor can now be disposed of without people thinking an earthquake has struck the town. With a stock of undertaking goods in the back room and this new rifle we felt that the GRAPHIC has the best equiped office in the county.

Nursery Stock.

Cooper & Son, proprietors of the Newberg Nursery, have on hand a full supply of nursery stock and are prepared to fill orders and supply the trade. Call at the new nursery, near the tile factory, on Portland street, Newberg, Oregon.

Small Pox.

There are now nine cases of small pox in Amity, and there has been one death. All patients have been placed in the post house and all persons who have been exposed are quarantined. McMinnville has quarantined against Amity, and has placed guards on all of the roads leading into McMinnville.

Grapes.

Last Monday afternoon Mr. G. W. Mitchell presented us with several large and beautiful bunches of grapes, which were raised on his farm in the edge of town. They were picked several weeks ago, but soiling wax had been put on the stems, keeping them plump and delicious. Mr. Mitchell has picked grapes from the vines in his garden since New Years. While the Eastern States are suffering with cold blizzards, we are enjoying comparatively warm weather. No wonder so many people are coming to Oregon.

A Horse Contest.

Last Saturday morning, people were much pleased to find a new side walk from near the Graphic office to the Livery stable, and of course made it handy to walk out in that direction. But as the unfortunate victim drew near the end, about four men would gracefully spring through the s'able door, start the pump, point the hose at the intruder and tell him to hand over his nickel, to help pay for the improvements, or take a cold water bath from the well. Several nickels were taken in this way, till about nine o'clock a few boys concluded to overpower the monopoly. A rush was made for the hose by five or six boys. The pump was kept going by the spectators and at the close of the contest all hands were well soaked, but the sidewalk monopoly has charged no more toll.

Harmony Items.

After a few frosty nights, we are having some regular wolfsoot weather.

Mr. J. B. Notherton contemplates teaching a class in vocal music at Harmony. John is a good musician, and we think the community will be greatly benefited by his instructions.

F. B. Churchman is at home on a visit, and is soliciting subscriptions for the GRAPHIC. Fred seems to take a great interest in his own town.

Miss Ollie Cain, the only surviving child of Mr. and Mrs. John A. Cain, died at her home in Williamina, Jan. 18, of Typhoid fever. Mr. and Mrs. Cain have the sympathy of the community in their sad bereavement, having lost their only son about a month previous.

Roswell is furnishing his house with some very nice furniture. Wonder what's up.

Lincoln Porter is putting in considerable grain this winter. Lincoln is an enterprising young farmer.

J. L. Gettly and P. M. Churchman have got all their cattle from the mountains with the exception of three head. They have some nice young cattle.
