This is but one of the many reductions made by the Western Union to meet the demands of the public in general. Snch actions are thoroughly appreciated.—Oregonian.

That Idle Boy.

If there is anything that is a blot on creation more than another it is an idle boy or man; one that has nothing to do but to hang around and watch other people at work. It makes us so tired and weary to have these "blots" come about us, that we always draw a long breath when they go away. If these do-nothing kind of folks could see themselves as others see them they would either go off and hide or else get something to do. Too poor to live without work, too lazy or proud to work, and so insensible to public opinion that they do not care, we know of no other name to call them by, but "blots on civilization."-Lebanon Express.

MRS. F. A. MORRIS, County Superintendent of Press Work.

Report of 3rd. District Convention, held at Corvallis, March 26-28, 1889.

The W. C. T. Unions of the 3rd District met in Convention in the old College Chapel at Corvallis March 26th at 2.30 p. m. Thirty minutes were spent in devotion conducted by Rev. Mrs. Spangler of Corvallis. Convention proper opened at 3 o'clock with Mrs. M. E. K. Edwards, Pres. in chair. The following committees were appointed, viz., credential, resolution, finance, nominating and committee on courtesies. General reports were heard from the local Unions in the district. The Convention then adjourned to meet at 7.30 p. m. The evening session was opened with singing by the choir, followed by Bible reading and prayer by Rev. Mr. Rogers of the Congregational church. Prof. Rook of Salem, was introduced to the convention. The Prof. commanded the attention of the audience for ninety minutes, with a very good address. The speaker is evidently a woman's rights man, if we may judge from the ridiculous construction he placed upon the non-voting law for women, telling the audience that women are classed with negroes, untaxed Indians and idiots, the women coming last on the list. Wednesday morning devotional meeting was conducted by Mrs. Woodward, Evangelistic Supt., Corvallis. The day was spent in hearing reports from superintendents of departments. Some of these reports were full, showing much work and thought on the part of the superintendents. The evening was spent in hearing different ministers tell how prohibition prohibited in Iowa. Some excellent music was rendered by Mrs. L. A. Additon's W. C. T. U. choir. Thursday morning came the election of officers, reports of committees, miscellaneous business etc. The convention adjourned at 11.15 a. m. The hospitality of the Corvallis people will not soon be forgotten.

Officers of 3rd. District: Pres. Mrs. M. E. K. Edwards, Newberg; Vice Presidents, Mrs. Spangler of Corvallis, Mrs. Biddle of Dallas, and Mrs. Woodward of Newberg.; Sec., Miss Maggie Butler of Monmouth; Treasurer, Mrs. Percavil of Monmouth.

April 7th is the day on which pastors are requested to preach on Sabbath observance.

April 28th is the world's day of prayer for W. C. T. U. and collection for world's W. C. T. U.

Academy Notes.

Monday was celebrated in the usual way, by everybody trying to fool every other body.

Miss Prudie Miles made us a call Monday afternoon.

Dr. Minthorn and wife who were connected with the school last year spent Sunday at this place.

Mrs. Sarah Hoskins and Mrs. Lewis Hoskins made us a visit Tuesday.

Edith Deskins and Gertrude Lamb, who attended school last term gave us a short call Wednesday.

Some of last terms students were on the campus taking part in the ball playing Wednesday.

Wm. Macy's sister visited the school Thursday.

The majority of the students have been attending the evening meetings this week and several have been attending the morning services. Miss Eva Parker has charge of the meeting, and assisted by the christain workers of this place, is doing a good work. Several of the students have been converted by their labors and we hope many more will be.

Miss Parker was at the students prayer meeting Wednesday evening and also quite a number of young people of the town, as a general invitation had been given them. It was a very interesting meeting. Miss Parker gave some very good instruction to the new converts as well as to those older in the work.

Alva Cook, who has been attending school this term will commence teaching the West Chehalem school next Monbay. We wish him success. STEIN.

Says an exchange: "We have been shown a design for an upholstered front gate which seems destined to become very popular. The foot board is cushioned and there is a warm soapstone on each side, the inside step is adjustible so that a short girl can bring her lips to the line of any given moustache without trouble. If the gate is occupied at ten p. m., an iron hand extends from one gatepost, takes the young man by the ear turns him around and he is at once started toward home by a steel foot. The girl can if she likes set this part at a later hour than ten.

There is nothing which more forcibly illustrates the gigantic strides of the United States than her postal service. In 1881, according to Mulhall, the number of pieces handled in the mails was 2,243,000,000. In 1888 it had increased to 3,576,100,000. In the same period Great Britain increased from 1,682,000,000 to 2,279,000,000 pieces. In 1881 the number of pieces to the inhabitant in the U. S. was 45, in Great Britain 49; in 1888 the increase in the U. S. was to 71, and in Great Britain 61. In Germany the number of pieces per capita increased from 29 in 1881 to 41 in 1888; in France from 36 in 1881 to 37 in 1888.—Chronicle.

Germany owns and operates all her railroads; also her telegraph system. In a few years France will own all her railroads; she now owns her telegraph system. Italy owns a large portion of her railroads, and all her telegraph and telephone system. The colonial governments of British India and Australia, also most of the British colonies except Canada, own and operate their railroads and telegraphs. "Speaking broadly," says a prominent writer, "the people of the whole world, with the exception of the United States, own and operate their telegraph system and mostly their railroads. -Ex.
