—The Champion road grader has been at work most of the week. The machine is a fine one and does good work. Main st. has been graded and put in first-class condition from the depot to Portland st. and for the last few days the machine has been improving the streets in the south part of town. This is something that has long been needed and if the sidewalk building would only keep up with the road making, we think everybody would be in a better humor when the rainy weather comes.

—The revival meetings which have been in progress all last week and a part of this, under the leadership of Miss Eva Parker were closed last Tuesday evening. A great religious interest has been awakened and much good done. There were ninety-six conversions and renewals. Miss Parker though not an eloquent speaker has a peculiarly forcible and practical way of presenting the gospel, which seems to have a wonderful influence over her hearers.

—The daring persons who have been putting those twelve inch tile down over the tops of the young ornamental trees near Dr. Moore's barn had better let up as it is known that the tile are taken from the city tile factory by persons who are neither interested in the yard or the trees. This is a very unbecoming trick for any one to do, beside the thing of being caught at it. Now if this is persisted in we may take it upon ourselves to publish names and give particulars of the thieving, without consulting either the owner of the trees or the tile, as perhaps neither of them know anything about it. Newberg is an incorporated city, and the officers may be summoned.

CHURCHMAN—SMITH.—At the home of the bride's parents at Middleton, April 2, 1890, Mr. Fred B. Churchman to Miss Lillie V. Smith. Mrs. Mary E. K. Edwards officiating. Both of these young persons are well known to the people of Newberg and all join in congratulations, and in wishing them the best there is in life. The wedding was a very quiet affair only a few guests being present. After remaining in Middleton a day or two they went to Sheridan where they will make their home.

W. C. T. U. COLUMN.
"For God and Home and Native Land."
Mrs. F. A. Morris, County Superintendent of Free Work.

The sacred writers deal not in "glittering generalities," but burning particulars. They address not multitudes, but individuals. They write what Jesus said, not of to-morrow, but of to-day.—Standard.

The law requireth a tenth part to be given to the Lord; the Gospel requireth all—soul, body, good name, etc.; even that the possessions be sold, and laid at the Master's feet.—Isaac Pennington.

Our fireside conversations, our thoughts as we pass along the streets, our spirit in the transaction of business, all have some amount, small though it be, of moral value.—Goulbourn.

We can deny ourselves but we can not cleanse ourselves. The sheep can go astray alone, but can never return to the fold without the assistance of the shepherd.—W. Secker.

Mr. Partello, the wonderful American marksman, who lately made 224 points out of 225 at long range, has always been a total abstainer and has now given up tobacco.—Dr. B. J. Richardson.

All Sunday freight trains on the Pennsylvania railroad, except those containing live-stock and perishable merchandise, have been discontinued. The order gives rest to several thousand employes.

Mr. J. N. Stearns, editor of the National Temperance Advocate says that the claim of "reduction of saloons" by high license is like the colored man's statement of the army which "was advancing backward while the enemy was retreating on us."

Dr. H. Gratton Guinness of London, in an address delivered before the Congregational ministers of Chicago, said that the friends of Africa even dreaded the building of the proposed Congo railroad because of the greater facilities it would provide for transporting the awful curse of rum into that country.

It takes about fifteen cents worth of corn to make fifteen dollars worth of whisky, and the farmers share of the whisky business is too small to warrant any very extensive stretchings of his conscience. The distillers only use a little over one per cent of the corn grown and what they do use takes the place of other corn for fattening hogs and cattle. If the world can get away with ninety-nine bushels of good corn and one bushel of slop, we think they will be able to manage the whole hundred in sound corn without any break in the market.—New Republic.

Rev. Dr. S. F. Jones of Evanston, has a witty invention well worth mentioning. To avoid the endless list of pulpit announcements he has them all printed on a card and placed in every pew, one for each person, with the statement at the top, "Take this card with you." This serves as a memorandum for the week. The Doctor is a most genial as well as a gifted man, and a friend of the W. C. T. U., as is proved by the fact that he places his announcements first on the list of "miscellaneous" and following his "regular meetings."

A man's true companions are his thoughts and purposes; his character forms his real neighborhood and surroundings. The most pitiable poverty of soul may cringe amid the splendor of Murray Hill, and true royalty may be enthroned in some squalid tenement amid the grimy bricks of Baxter Street. When Ben Johnson, the poet, was ill and poverty-stricken, a sympathetic nobleman laid his case before the king, whom he had often delighted by his dramatic talents. With a great show of condescension the king sent him a paltry present. Johnson returned it, with the message: "I suppose his majesty sends me this because I live in an alley; tell him his soul lives in a mental alley, and many a vivacious intellect is surrounded by moral narrowness and squalor."

Woman's Industrial Council.
Francis E. Willard says: "The report of the Woman's International Council at Washington in 1888 has been published. No woman can read the book without being proud of womanhood and feeling inspired to do something grander than she had hitherto supposed it was possible for her to attain. The book is also an out-and-out encyclopaedia, a revelation of the present status of the woman movement. Almost every word that was uttered in that nine days' wonder, for that was the length of time the Council was in session, is here reported stenographically. I hope all women with a mind of their own will send sixty cents each to Mrs. Rachel Foster Avery, 748 North nineteenth Street, Philadelphia."

The Refuge Home.
We all heartily rejoice with our State President in the appropriation of \$2,500 for two years for the Refuge Home to be established in Portland. She has worked hard and prayed earnestly for success in her cause and we rejoice in the rewards granted to her prayers and to her work. So long as the cupidity of men and of governments suffers the salvation in our midst so long will there be victims.

So long as the cupidity of the procurer produces the supply which often gives rise to the demand for the house of ill-fame, so long will there be the miserable victims to man's lust. And these victims would often times escape from the cruel chains of their degradation, if the hands of Christian sisters would loosen them. Thank God there are no high walls to keep the unfortunates impaled, nor blood-hounds to run them back to their prison-house should they effect an escape, as is the fact, the solemn, awful fact in the lumber districts of Wisconsin, in Christian America to-day!

We trust much blessing may attend our Refuge Home; that it may become the door of hope, the gate of Heaven, to many a poor girl, glad to be rid of a life of shame and thankful to the kindly ministering hands held out to help her rise to a better, purer life.
