STUCK IN THE MUD.

ow One Critic Became Convinced of the Error of His Views.

The world is never in want of critics. Whatever the work in hand, in literatoria a splendid gold bracelet, contain- ture, politics, war, or what not, there are ing the words "For ever" set in precious always men enough to point out mis-

takes. This was emphatically due during our late civil war. Every village had at least one or two wiseacres who knew just when, where and how battles to be fought and the "rebellion ought crushed." The historian of the Fifth Maine regiment cites an experience of the riches of her friends enables her to one such man, in February, 1863.

Now followed the muddy season, and also the cry from Northern quarters 'Why don't the army move?" It seemed impossible for the North to understand that Virginia roads were in such a state as to render military movements absolutely impossible.

A Maine gentleman had occasion to visit Washington, and having a son in our division, concluded to take a trip down to the army, spend a day or two

with his boy and see the sights. The necessary pass was secured, and stay at Constantinople that Her Majesty he went aboard the steamer which plied intends to fit up some of her apartments between Washington and Falmouth. at the Berlin Palace in Eastern fashion. On the way down he fell into conversa-She has commissioned the German Amtion with an officer of our regiment, and bassador to the Porte to procure for her of course the talk turned upon war large quantities of carpets, hanging dimovements and prospects.

The civilian expressed himself freely, -There is no country like France for Why didn't the army move, instead of starting journals. During 1889 no less idling away the time in camp? Somethan nine hundred and fifty new newsbody must be shamefully at fault. The papers were brought out, of which not one remains in life. On the other hand, officer expostulated gently, defending as best he could the action of the Gen the Petit Journal now claims a circulaerals in not attempting impossibilities. tion of 1,095,000 copies. During the "But, my friend," said the man from same period there were printed in Maine. "the weather of late has been France over fifteen thousand new books, charming. Pray tell me what hinders the army from moving?"

-All suggested remedies for the rab-"The mud, sir," replied the officer, and bit plague having failed. New South he proceeded to set forth the awful con-Wales and Queensland are depending on dition of the roads.

abbit-proof fencing to limit the unwel-"Nonsense, you can't make sensible come guests. There are no fewer than people believe there can be mud enough 887 miles of fencing constructed, includ-887 miles of fencing constructed, includ-ing the fence on the South Australian soldier, but I'm sure I could march boundary line. Meanwhile the rabbits twenty miles a day without being much troubled."

-The collection of maps destroyed by "Well, well, we will see," answered the fire of King Leopold's palace in the officer, and the conversation dropped. Lacken was probably the finest in the At two o'clock in the afternoon the world. The library contained 4,000 vol- steamer reached Falmouth. The officer ames, and included manuscript works had business at some of the neighboring by Sir Walter Raleigh and (an editio headquarters, and having procured his princeps in Spanish of the reports of horse, and pointed out the road to the Columbus. The maps had been col- Maine gentleman, who carried an ordiected during the last thirty years utter- nary valise, he at once rode away. Off trudged the gentleman, and an hour or -Mme. Bischoffsheim, the Marquis two later the officer, having finished his l'Harvey and the Princess Potocka have business, started in the same direction. lways been great skaters, and the The distance to camp was about seven arisians who gathered to see them miles. When the officer was about half way there he overtook his steamboat o be ice on the lake in the Bois-called acquaintance, who was sitting beside the hem the Three Graces. They wore otter road, the very picture of home-sickness kins embroidered with gold, and ame- and discouragement. Evidently he had hyst-colored velvet, trimmed with chin- been down in the mud several times, hilla. This season velvet polonaises and his boots and trousers were literally and hussar jackets are very fashionable covered with the "sacred soil." "How is this?" cried the officer, cheer-

some curious calculations

-From some curious calculations nade by the Minister of Finance, it ap-ily. "Why doesn't the army move?" The answer was of a sort hardly proper pears that the loans-redeemable and perpetual-incurred by France since for print. How the Prince of Wales Was Made to Obey His Governess.

Many years ago Miss Hillyard, the

governess in the royal family, seeing the Prince of Wales inattentive to his studies, said: "Your Royal Highness is not minding your business; will you be pleased to look at your book and learn your lesson?" His Royal Highness replied that he would not. "Then I shall put you in the corner," said the governess His Royal Highness again replied that he should not learn his lesson, neither should he go into the corner, for he was

the Prince of Wales; and, as if to show his authority, he kicked his little foot through a pane of glass. Surprised at this act of bold defiance, Miss Hillyard, rising from her seat, said: "Sir, you must learn your lesson, and if you do not, though you are the Prince of Wales, I shall put you in the corner." However, threats were of no avail;

the defiance was repeated, and that, too, in the same determined manner as before-His Royal Highness breaking an-12 @14 other pane of glass. Miss Hillyard, seeing her authority thus set at naught, 944 11 74@ 9 7 @ 10 5 @ 6 5 @ 6 rang the bell and requested that his father, His Royal Highness Prince Albert, might be sent for.

-When a young woman powders her out; and remember that you are under bair and wears a cap it will be rather tutors and governors, and that they must strange if there is not a bang somewhere be obeyed."- Christian at Work. n the vicinity .- Washington Star,

SHAKESPEARE'S WILL. How the Great Poet Disposed of His Earthly Possessions.

It is not generally known that Shake-

speare realized a competency by his in-

Justry as a dramatic writer and theatri-

cal manager, and retired in 1613 or 1614

to spend the evening of his days at his

native town of Stratford, where he had

acquired no small property in houses

His wife, Anne Hathaway, who had

remained in Stratford during the twenty-

four years which he spent in London,

and who was eight years his senior, still

lived, and he had two surviving chil-

dren. Susanna and Judith, the former of

hom was married to a man named Hall.

In his will, dated in March, 1616, about

a month before his death. Shakespeare

left the buik of his property in houses

and lands to his eldest daughter. Susan-

na: three hundred pounds to his younger

daughter, under certain conditions; to

his sister, money, wearing apparel, and

the life-rent of the house in which she

lived; to his nephews, five pounds each;

to his granddaughter, his plate; to the poor, ten pounds; to various friends,

money, rings and his sword. To Susan-

aa and her husband, Hall, he bequeathed

all the rest of his goods and chattels, excepting his "second-best bed, with the

furniture," which he directed to be given

So remarkable a circumstance has not

escaped the notice of his many com-

mentators, and most of them have

spoken of it with pain, as a proof that

Shakespeare, while generous to his chil-

dren and his friends, treated his wife

force in this view, when the long es

trangement of the pair was considered.

For many years, even lawyers failed to

detect a legal circumstance calculated

beyond some such souvenir as the see

her the life-interest of a third part of all

quired in his life time, and she would
