JUST DO YOUR BEST.

The signs is bad when folks commence A-busing with Providence. And habits' cause the earth don't shake At every prairie step they take.

My doctern is to lay aside Contentions, and be satisfied; Just do your best, and praise or blame That follows, that counts just the same.

FOR SEVERAL days the carpenters, plasterers and brick layers of Portland have been on a strike demanding the eight hour system for a days work.

THE AUSTRALIAN ballot system has lately been tried in two or three of the states with the best of success. It is quite likely that our next legislature will pass an act adopting the system for Oregon elections.

A MAN named Heart, from the Sand wich Islands has bought a farm near Cornelius in Washington county, which he intends to settle upon.

WE ARE in receipt of a finely colored lithograph entitled "Noah Webster-The Schoolmaster of the Republic."

The central object in the picture is a copy of the latest edition of the Unabridged, against the open pages of which lies a fac-simile sheet of Dr. Webster's manuscript, against which in turn appears a fine likeness of him.

FRANK P. BAUM, former editor and publisher of the GRAPHIC and for the past four months, foreman in this office is soon to leave us. He went to Portland this week and bought a new printing outfit of Palmer & Roy, which has been shipped to Friday Harbor on the San Juan Island, north of Port Townsend on the Sound.

Death of Charles Sitton. News came the first of the week of the death of Chas. Sitton, son of Mr. Sitton, familiarly known as Duck Sitton, who lives a few miles northwest of McMinnville in this county.

The Family Educator.

Webster's Unabridged Dictionary is a great family educator, and no family of children ought to be brought up without having ready access to this grand volume.

Important Meeting.

The Board of Directors of the "Newberg Home Protection Association," have called a meeting of the stock holders of the Association for to-night.

Runaway on Main Street.

Last Wednesday morning while Walter Stratton was driving J. C. Nelson's milk wagon down Main street, a bolt came out of a single-tree which let the single-tree drop down and scare the team, which began to run.

One Dollar and a Half.

PAYS for the GRAPHIC for a whole year and this is a small sum of money to one individual but if all amounts of this denomination were paid in that are put due on our books it would add very materially to our cash account and would enable us to improve the paper.

A Foul Crime.

Down the river in Marion County, two men broke into a saloon last Sunday and made themselves beastly drunk and afterwards met two little girls four and six years old who they enticed away and committed a foul crime upon them.

No Saloons.

Jesse Hobson had a letter from Washington City this week, written by a gentleman, who said he desired to find a location for a home where he could educate his sons and have them away from saloon influences.

Edwin Morrison, Principal.

Below we publish a letter that we clip from the Farm and Fireside, published at Philadelphia. The tone of the letter sounds like it might have been written by one of our enterprising farmers and fruit raisers living north of town.

From Oregon.—Our climate is that common to western Oregon and Washington, rainy winter and clear summer. Not a shower troubled us last season from the beginning of haying, which is here out before grain, until all our grain was threshed, and this winter no prudent man has had to work a day in the rain, unless he close to town.

Wheat is the great agricultural staple of this region, oats and hay following. Corn is not grown as a general crop; hops are much grown and say well; potatoes are grown extensively, and every variety of garden vegetable succeeds well. There has been, and still is, a large immigration to this part of the country. Land sells for all it is worth—thirty to seventy-five dollars per acre in this immediate vicinity. Fruit growing is beginning to attract attention and is a profitable business. There were about fifty tons of dried fruit, mostly prunes, shipped from this place the past season; this is the product of young orchards, very few of which have been planted more than five or six years. Cherries, pears, apples, peaches and plums are the principal fruits grown, though with a home market, a vast amount of berries would be produced. One of our greatest needs is a cannery to handle a large amount of fruit and vegetables which the driers do not use. The recent, unprecedented flood did much damage along the larger streams throughout the state, and every means of travel and transportation was for a few days suspended.

Sons of Veterans Organize.

NEWBERG, Oregon, April 12th, 1890.

Kilpatrick Camp, No. 7, Sons of Veterans, U. S. A., was mustered, in due form by Adjutant Frank Melvin, assisted by brothers Hunter, Hughes, and Howe, of East Portland, and members of the G. A. R., of Newberg.

The officers chosen were as follows: Captain, E. E. Washburn; 1st Lieutenant, Charles W. Harris; 2nd Lieutenant, Charles F. Butler; Chaplain, Fred. Rogers; 1st Sergeant, Walter Q. Mills; Q. M. Sergeant, John K. Wright; Sergeant at Arms, James Thomas; Color Sergeant, Wm. Thomas; Principal Musician, John Frank; Corporal of Guard, L. Finnigan; Camp Guard, N. Tibbels; Picket Guard, N. Lawson. We are anxious that the members go to work and carry out the objects and principles of the order befitting its noble intentions and the interests manifested at the beginning. They are most heartily welcomed to the ranks by the most zealous and aspiring members. The Mustering officers were most highly pleased with the bearing of the new members and urge them to study well Sections 1 and 9 inclusive of Article 2, Chapter 2, and sections 1 and 2, Article 17, Chapter 2, that the morality of the Order may be improved. The instructions of the Mustering officers were somewhat more than new Camps of young Divisions generally receive and we truly hope they will be taken and improved upon to the very best advantage. The boys of East Portland were highly pleased with the bright prospects of a good Sister Camp. The division officers are only too willing to give any assistance possible. The boys from E. Portland had quite an adventurous trip going home on the wood train. The train broke and was a long time in being fixed, and then having to make two trips over one grade and three over another did not add much to the speed. They enjoyed it fine and will remember Newberg for long days to come and extend their most hearty invitation to the Sons of Veterans to come and see them at their earliest convenience. The appreciation for Newberg hospitalities by the young visitors was very flattering, if spoken of.

Most Respectfully Yours, FRANK MELVIN.

Married.

General Crook, the famous Indian fighter, who died last week, was a total abstainer from both alcohol and tobacco.

The house committee on the alcohol liquor traffic has authorized a favorable report on the bill providing for the appointment of a commission on the alcoholic liquor traffic.

The scientific temperance instruction law of California has already so seriously affected the saloon-keepers' regular crop of customers—the boys—that the liquor men have begun agitation to have the law repealed by the next legislature. The W. C. T. U. will endeavor to pour cold water on this project.

Miss Frances E. Willard's noted "Den," through the generosity of personal friends including many white-ribbons, is about to be enlarged and handsomely furnished with physical comforts and literary conveniences. This is a "much needed reform," as the "den" as it is, is more famous than comfortable.

This is how some one figures it out: From a bushel of corn, a distiller gets four gallons of whiskey, which retails at \$16.00 the farmer who raised the corn gets 40¢ the government gets \$3.63, the railroad gets \$1.00, the manufacturer gets \$4.00, the retailer gets \$7.00 and the consumer gets drunk and 10 days.

The Woman's Cycle gives a pleasing picture of Mrs. Pickler, wife of the South Dakota congressman, who has entire control of the suffrage work of the South Dakota W. C. T. U. "She and her husband live in a quiet way in lodgings near the capitol. About her desk are great piles of documents to be sent out to her state, and the moment the the room is cleared of men wanting post offices, and the mending is done, she takes up her pen and addresses bundles until the baby either wakes up or becomes tired of amusing himself."
