

Local Events.

Dr. J. B. Moore went to the city yesterday. Stabler & Edwards are busy with the new cannery building.

Heston & Bierman bored a well for Charley Moore, Wednesday. Turned posts, brackets, etc., at Harbor Lumber Yard.

The excursion netted the college \$140. Very good for one day's work. Two lots for sale cheap if sold in the next 30 days. Inquire at this office.

Dr. McConnell has moved into his new and commodious office on First street. Carroll Kirk sustained a very severe sprain of an arm last Friday by falling.

Screen doors, way down, at Harbor Lumber Yard. Only four ladies at the horticultural meeting last Saturday, to see the nice flowers.

County assessor York, has been busy in this vicinity during the week, assessing property. Uncle Wm. Hobson is falling very fast and it is not expected that he will last much longer.

LATER—Death came at noon yesterday. Funeral today at 4 o'clock. A visit to Duranoe Bros. mill reveals the fact that they are turning out lumber at a lively rate.

Engene Hoskins has a position in Portland as teamster. We understand he gets good wages. John Knight can extract more fun out of a rainy day excursion than any man in Yamhill county.

Frank Moore has developed into a real estate rustler. Nothing like it in this day and age of the world. Will Macy's school at Riverside, closes this week, and then we suppose, Newberg will seem natural again.

Prof. Thomas Newlin, president of the college will arrive here from Indiana, about the middle of July. There will be services at the Evangelical church next Sunday, at 10 a. m. All are cordially invited to attend.

Frank Hadley, J. I. Hadley and N. C. Maris acted as judges at the strawberry, cherry and rose fair last Saturday. You missed a pleasant excursion if you failed to go with the three hundred to Latourell Falls last Friday.

Rev. C. M. Hill, of Portland, will preach in the Presbyterian church, June 28th at 8 p. m. All cordially invited. Yellow fir lumber delivered to any part of town at a reasonable price by MITCHELL & CLARK.

D. W. Cummins is having a new well ganged made, with which he expects to discount anything yet in use in that line. Mr. Storey the new tin-smith, has been very busy during the week putting the tin roof on Morris, Miles & Co's building.

Prof. and Mrs. Hartley and Mrs. Vannie Martin, are intending to attend the state teachers association at Yaguina Bay. The date fixed for the opening of the college is Sep. 10th. Let all friends of the college do their best to encourage young people to attend.

Have your house spouted now while it is cheap, but before doing so call at the new tinshop and see the patent cave trough maker, hangers etc. Last Friday would have been a good time to have passed a subscription paper to raise money to put in a stairway down the hill to the boat landing.

H. L. Christenson has just finished a new barn on Wynooki street, for George Christenson. He will build a new house for him later on in the season. Deputy Sheriff Connor, was in town Wednesday, looking after property owners, who have been dilatory about settling with the county of Yamhill for taxes.

Thinking our many friends for their past favors, we solicit your further patronage to help us over our loss. MITCHELL & CLARK. The track on the race course to the boat landing was a little heavy last Friday morning, but everybody made good time. Several rubber shoes were lost however.

Harvey White came down from Salem, last week, and went on the excursion. He assisted Ab. Hill in dishing out good things to the excursionists from his stand. Mr. Itaskell returned from Ilwaco Monday. It has been so cool and rainy that but few persons have gone to the beach. A few hot days will send scores of people from Portland.

Mr. C. B. Frissell has at last succeeded in getting some long needed changes made at the depot, so that the daily routine of business can be transacted with greater ease and comfort. The different churches desiring to have the place of holding services and the time of the same properly given in the Gazette directory, will confer a favor by handing us a correct copy of the same.

Robert Samms, who was a student in the Academy last year, is now in Des Moines, Iowa, but writes that he intends making his home in Oregon. Oregon against the world for a pleasant place to live. J. D. Bell gave one of his fingers a very bad cut the first of the week by accidentally letting a large knife fall while cutting a steak. John Townsend is wielding the cleaver in the meat shop, while Mr. Bell nurses his finger.

Samuel Hobson photoed the plate of fine strawberries exhibited by Mr. Smith last Saturday. Seven of them were laid on a rule occupying a space of 12 1/2 inches. A photo of this kind showing the rule as well as the berries gives very convincing proof of the fertility of our soil.

Mrs. Larkin, wife of J. S. Larkin, started last Monday with her youngest daughter, on a visit to her son in Minnesota. She will probably be gone most of the summer. Mrs. Jones and her son, also returned at the same time to their home in Minnesota. They went over the Northern Pacific.

Milt Nicholson began excavating for Parker's new brick yesterday. Sam Irish has the contract for the brick and stone work on Parker's brick.

Cabbage plants for sale at my place east of the park. E. W. Wessner. Yellow Fir is the best for building sold at Harbor Lumber Yard.

J. M. Ramsey, the painter, has been at work at La Fayette for the past week or ten days. Mrs. Hockett, of Salem, was down a few days ago visiting her nephews, the Estep boys.

Charley Spaulding has built a wood house of the regulation size and shape, the past week. Mr. Boyce left yesterday for his old home in the east. He will visit his father and other relatives that he has not seen for sixteen years.

Heston & Biermann traded some wells to C. F. Moore for his ice house, which they have moved onto their lots and converted into a stable. John Davis and Joe Estep went to Salem the first of the week. They will work for an uncle who has a large building contract there.

C. B. Haworth, our undertaker, has made arrangements whereby he is able to furnish coffins at very low prices. See his ad. elsewhere in this paper. Fourteen pretty girls was a sight that might have been witnessed Tuesday evening on the lawn at Mrs. Stabler's. She was entertaining her Sabbath school class.

The ladies of the W. C. T. U. are arranging for a literary contest on the night of the fourth. There will be a free for all contest by the old ladies, and a Demorest contest by the young people. Catalogue of Pacific College are now out. Students and others interested who get their mail at Newberg can get copies by calling at the bank or this office. Students living at other points will be supplied through the mail.

The Cantata given at Armory hall last Saturday evening was well rendered, and greatly enjoyed by the audience. The attendance, however, was small, owing no doubt to the fact that there were so many other attractions crowded into last week. Climbing up the hill from the boat landing the other night, a lady stooped down to put on her rubber, which she thought she had lost and behold she was vainly trying to put a gentleman's rubber (which she picked up) on over both her shoe and rubber.

The young people who took part in the Demorest medal contest on the excursion were Mabel Edwards, Myrtle Davis, Mattie Stratton, Lettie Dixon, Libbie Morris, Wilbur Round and Walter Edwards. The latter was awarded the medal. Some farmers are complaining that the continued rains have caused early winter wheat to fall. The increase in the cost of oats and hay will no doubt make up for all loss in wheat from falling. A little more sunshine would be acceptable all around.

President Rosenberger, in speaking for Prof. J. J. Jessup, who has been selected as instructor in science and mathematics in Pacific College, said he regretted that the finances of Penn would prevent them from keeping him there as one of their faculty. Just the kind of young men that are wanted for our college.

The remarkably low price for such fine fruit tracts has caused parties to walk out to take a look at Moore Bros. land. You need not do so hereafter as Frank L. Moore is here for the purpose of accommodating, with a free ride to the property, those who desire to purchase large or small tracts. Prices can't be beaten; much of the land was sold to some of our best horticulturists before it was fairly open on the market.

John J. Jessup, son of Dr. Elise Jessup and brother of Mrs. Nate Wiley, graduated from Penn College, Iowa, in the scientific course a few days ago with high honors. He will soon be a resident of Newberg again as he has been elected to the position of instructor in science and mathematics in Pacific College. "Johnny" as he was familiarly known, here comes with the highest recommendations from President Rosenberger, of Penn and we shall expect good work in the college from him. He will add strength to the faculty.

Dressmaking done at Mrs. Lamb's residence corner Fifth and Meridian St's., four blocks south of Bank building. Mrs. LAMB & MISS WOODWARD. Notice to the Public. I hereby warn the public to make no contracts of any kind with Edward B. Swetman. JOSEPH SWETMAN.

Patronize Home Industry. I have just finished burning a kiln of superior brick which I will dispose of at lower living prices. Call and see me at the Newberg brick yard. JAMES HANNETT. Excursion Rates. The Southern Pacific will sell round trip tickets from Newberg to Portland July 3rd and 4th for one dollar. Good until the 6th. Sad Accident. An accident occurred up the valley last Sunday by which Fred Vendall, a young man about fifteen years of age, loses an arm. He and another young man were out hunting, and in some way his shot gun was discharged accidentally, the charge entering one arm above the elbow. Dr. Carman was called, who dressed the wound, but later it was found necessary to take the arm off at the shoulder. His recovery was considered doubtful for a few days, but we hear he is a little better at this writing.

Program of Review Exercises For Friends' Sabbath School to be held on the evening of June 28. Song. Opening Exercises. Topics of lessons for 1st and 2nd Quarter, Emma Moore's class. Golden Texts for 1st Quarter, Nettie Reece's Class. Golden Texts for 2nd Quarter, Belle Cox's Class. The Ten Commandments, Leola Morris' Class. Name Kings of Israel and Judah, Lucy Haworth's Class. Name the 12 tribes, and the 2, called Judah, Anna Miles' Class. Give evidences in the past six months lessons, of the Lords regard for childhood and youth, Sarah Smith's Class. Give brief review of the two Temperance lessons this year, Anna Stabler's Class. Give four reasons for the captivity of Israel and Judah, O. C. Emery's Class. Name books of law and books of prophets, Dr. Mills' Class. What Prophets denounced the sins of Israel and Judah and foretold their captivity, G. N. Hartley's Class. Name books of Old Testament, Frank Morris' Class. By whom, when, and where were Israel and Judah taken captive? Elizabeth Miles' Class. Song. Teachers form into class, and are questioned by L. Ella Hartley, Supt.

The Excursion. During all last week as the cloudy, damp weather continued from day to day many eyes were anxiously turned to the overhanging clouds, hoping that the mists would clear away and the silver lining appear before the morning of the 10th. It was hope against hope however for when the time came on Friday morning for getting ready to start for the boat, a gentle "sizzle, sizzle" had set in, and when the crowd was on the way, it had increased to an old fashioned downpour. It was a bad day for youngsters, who had figured on linen dusters and snowy white dresses, but they got over just the same. The road down the long hill to the steamer landing was not at all dusty, and although the track would have been considered by competent judges rather heavy, good time was made by several parties. In fact, "the slippery paths of youth" often referred to would not compare with it at all, for "old folks" of "staid habits," guiding their flocks of little ones appeared to be on the downward course all the same as the headless youth vainly attempting to guide his best girl and avoid unnecessary contact with the ever present "blue mud." The curiously inclined might get further information regarding the ups and downs of the three hundred by referring to the fond parent, who carried a young hopeful on one arm and a weighty lunch basket on the other, followed by the elderly gentleman who also "trussed" at the same old spells, or the philosophic young lady who on finding the adhesive properties of the soil too much for her dainty slippers, took them off and carried them under her arm as the good naturedly waded down the hill in her stockings. "All aboard!" Sang out the mate and Cap. Spencer of the old steamer Sola, who had been engaged to pilot us down the Willamette, turned the wheel and the Undine steamed off down the river with her three hundred passengers, who were on pleasure bent in spite of wind or weather. The rain soon ceased and although it continued cloudy most of the day but little rain fell. Short stops were made for passengers at Champsoop and Butteville. Oregon City was reached in due time and the hand boys called forth the occupants of the paper mills who gave us a welcome by the waving of handkerchieves and sheets of paper. The great falls of the Willamette at this point find the Locks where boats are raised and lowered a distance of 49 feet, the suspension bridge below the falls and other objects of interest were greatly enjoyed by the party. Portland was reached at a quarter to ten where passengers came aboard and Captain Spencer left us and Captain Chas. T. Kamm took the wheel. The great shipping interests viewed on either side of the river at Portland, made up of every conceivable kind of craft from the little steam launch with shrill child like whistle, to the great ocean steamers with wide extending yard arms and tall masts, was a sight to those coming from the great plains, where the prairie schooner is the only "vessel" to be seen. A ride of twelve miles brought us to the mouth of the Willamette and the Undine was headed for the upper Columbia. Vancouver was reached before noon. This is one of the oldest military posts in the northwest and Uncle Sam continues to keep his boys stationed here. Long before noon, lunch baskets were in great demand and the good things spread out on the lower deck were sufficient for a multitude. Latonnd Falls the objective point was reached at 1:30 p. m. and the crowd filed out to take in the sights. The falls are about a quarter of a mile back from the river at the head of a deep canyon. A large stream falls perpendicularly a distance of 250 feet from a projecting rock and unmercifully pounds the rocks below, day in and day out year after year. Visitors go behind the waterfall a distance of 100 feet under cover of a real mountain of over hanging rock which overhead resembles honey-comb magnified a million times. The pounding of the water on the rocks causes a great spray and wind toward the north side of the gorge of sufficient velocity to almost take a fellow off his feet. A shower just before arriving made it wet and slippery under foot but the party took in the grand sights anyway. An hour was spent here when all went aboard and started on the homeward journey. Much of the time on the way home was taken up with songs and recitations, band music &c. The Demorest medal contest was enjoyed by all. The boat landed at home at 9:25, which was earlier than many expected. The universal verdict was a splendid trip.

Horizontal Meeting. A very interesting meeting of the Chehalis valley horticultural society was held at the public school house last Saturday at 2 p. m. The election of officers for the ensuing six months resulted in the election of E. C. Armstrong, Pres. R. S. Inglis, Vice Pres. E. Robinson, Sec. and Treas. Ed. Nelson, Dr. Mills, William Rowe, E. W. Wessner, Nate Wiley and Paul Macy were appointed as a committee to arrange for the July meeting of the state horticultural society to be held at this place. Committee on entertainment, H. Cooper, N. C. Maris, Cyrus Hoskins, Committee on exhibit, Cyrus Hoskins, N. G. Kirk and Mr. Cobb. George Stabler gave a short but interesting talk on strawberry culture followed by general remarks on the subject. The late rains having injured the cherry and strawberry crop and the roses, the display in the competition for premiums was not as large as it otherwise would have been. C. F. Smith showed a plate of strawberries of the Big Bob variety that were the finest we have ever seen. The society ordered them photographed to convince the skeptical of the possibilities of this country in berry culture. Miss Joyce Hoskins and Mrs. Sade Hoskins showed some very fine roses and Miss Acheson other flowers. Below we give the program in list. Largest and Best Collection of Cherries, 1st C. E. Hoskins, Varieties, Gov. Wood, Kentish, Rockport, Elson, May Duke, Knights Early Black and a Seedling, 2nd Dr. Mills, Varieties, Abernathy Seedling and Major Francis. Largest and Best Collection of Strawberries, 1st Dr. Mills, Varieties, Senece Queen, Cumberland Triumph, Manchester, Charles Downing, Big Bob and one unknown. 2nd Zimri Mills, Varieties, Big Bob, Senece Queen, Cumberland Triumph and Manchester. Finest Specimens of Cherries, 1st C. E. Hoskins, Rockport, 2nd Dr. Mills, Major Francis. Finest Specimens of Strawberries, 1st C. F. Smith, Big Bob, 2nd Zimri Mills, Big Bob. Largest and Best Collection of Roses, 1st Mrs. Joyce Hoskins, 15 varieties, 2nd Mrs. Sade Hoskins, 12 varieties.

Newberg Fair, September 23-4-5, 1891. The above date is set for our next annual fair, which we expect to hold, if we don't succeed in procuring any grounds, we will hold it under a big fir tree if we can't do better. After our last fair, almost everyone was enthusiastic and clamorous for stock company, fair to charge admission and pay premiums, but so far we have been unable to get a sufficient number to take stock and put money in to make it go. "Money makes the mare go" and it takes money and enterprise to make the fair go. Almost everyone asked to subscribe says, "oh yes I'm interested, it's a good thing and we must not let the fair go down, but I can't take stock myself, you had better get some one else that would be a better hand to run a fair." What we want is substantial encouragement in the way of a little hard cash and work and it is high time arrangements were completed. The stock book has been circulated considerably and, as yet, only 8 names of the desired 20 have signed to take stock. Come on ye enterprising agriculturists, fruit and stock raiser, from all ye ends of old Yamhill and give us a boost. If ye can't raise a company very soon we shall have to continue on the old plan and as new grounds will be secured, buildings to erect, etc. it will take considerable money and I shall have to secure a professional bargainer to wait upon you with a subscription paper, which do you prefer a donation or an investment? If ye "must have a fair," we must have one or the other and it is for those most interested to say which we shall have. It will take a united effort and prompt action to make the coming fair what we all want to see it,—a success. Call at the secretaries office and manifest your interest by taking a share of stock or subscribing to a fund for a free fair. H. COOPER, Pres. N. C. MARIS, Sec'y.

From The Sea Shore Ocean Park Pacific Co. Wash June 23 1891. Leaving Newberg on the morning of the 13th and remaining over Sunday in Portland we arrived here last Tuesday at 12 m. after a pleasant trip down the Columbia and across Baker's bay to Ilwaco and from thence to this place by rail a distance of fifteen miles. This summer resort was until three years ago owned by the Methodist denomination and used by them to hold camp meetings and also as a pleasure resort. Since then it has changed hands. Many lots have been sold and a number of neat cottages have been erected, several having been added this year. The beach is very fine, growing a drive of twenty miles at any time from Ilwaco to Oysterville. A number of other camping places are scattered along the beach, but this is the only place where liquor is not allowed on the grounds. The visitors to the different camps every summer number many thousands. There is a good hotel here kept by Mr. W. D. Taylor, but it is not large enough to accommodate one fourth of the people who would like to stop at a hotel. A larger one is badly needed. Elk, deer and bear are found in the woods. Clams on the beach and oysters and clams in Shoalwater bay. One mile from here is Sealand, on the bay, where passengers take the steamers for South Bend. It has rained every day since we have been here, keeping us within doors most of the time, where we can sit and listen to old ocean's incessant roar. There are but few families here yet. The crowds will not commence coming until after the fourth of next month, when every steamer will bring its hundreds. Clams this year are very plentiful and large. In Astoria we met Joe Atkinson. He is engaged in fishing, and has grown much heavier than when living in New-

berg, salt air agrees with him. A life saving station is to be built within two miles of this place this summer.

Sherrwood Items. Smokeville is a thing of the past. Sherrwood is the place where the Portland Press Brick Factory is located. Mr. Young is building his new house on Second street. Wm. Seeney and others have a force of hands building a dance hall on Front St. The Germans ran a picnic excursion train out from Portland last Sunday, for the benefit of the new church, that is to be built one mile north of here. Jas. Loid has a contract to haul 1000 cords of wood for the iron Co. J. F. Heacock will help him. Solomon Wecker and Ella Ford were married at the residence of the brides parents last Sunday afternoon. The Central hotel has changed hands again, H. H. Hand is the present proprietor. A brother of Mr. Cox came last week, and is at work on the brick yard. Engene Hoskins has accepted a position in Portland. Mrs. Stabler preached in Friends' church last Sabbath morning and gave a bible reading in the afternoon on systematic giving, that was very interesting. The Sabbath school picnic was a success. Among those taking part in the exercises outside of home talent, were Mrs. Hartley, Elwood Wessner and Abram Morris, Newberg, Mr. Henry Tualatin, Mr. and Mrs. Barber and Elva Coppick, Pleasant Hill, Mrs. Craven, Middletown. A good dinner was served that all seemed to enjoy.

Municipal Notice. NOTICE is hereby given that a petition has been filed with the common council of the town of Newberg, asking for the vacation of an alley through block two (2) in the eastern part of Newberg, as plotted and recorded by Jesse Edwards and wife. By order of the common council, FRANK H. HOWARD, Recorder for the town of Newberg, Dated, Newberg, Oregon, this 9th day of June, 1891.

WOMEN THAN LEPROSY. It is curable, and there is but one preparation that does cure that disease, and that is the California Positive and Negative Electric Lipo-ment. Sold by C. F. Moore & Co. It also cures neuralgia, rheumatism, headache, sprains, burns, and all pain. Try it and tell your neighbors where to get it.

ONLY ONE IN THE U. S. Out of 1577 cough syrups manufactured in the U. S., but one has been found to be entirely free from opiates and that is the California Positive and Negative Electric Cough Cure, which is the best on earth for coughs, colds, croup, etc. Sold by C. F. Moore & Co.

EXCITEMENT runs high at C. F. Moore & Co's drug store over system builders, as everybody is using it for curative of the stomach, dyspepsia, constipation and impure blood and to build up the system. It certainly possesses wonderful merit and all agree so well of it.
