Passenger and Freight Rates to all points east be obtained from C. B. FRIEDEL, Agent Newberg.

NEWBERG GRAPHIC.

ISSUED EVERY FRIDAY MORNING.

EDITORS AND PUBLISHERS:
E. H. WOODWARD & OSM. C. EMERY.

FRIDAY, JULY 31, 1891.

Entered as second class matter at the post office at Newberg, Oregon.

LEBANON, Oregon, had a \$10,000 fire on the night of the 23.

The School Journal, under a new management, has been moved to Monmouth.

Rev. GEORGE WHITTAKER, of Marshall, Tex., has been elected president of Willamette University, vice Rev. Van Scoy, resigned.

The Irrigation Age says: "Utah has a history and a fame with which the world is familiar." Yes, and that's just what's the matter with Utah.

It is said that a Heppner wheat grower has contracted his crop to reliable parties at 70 cents per bushel. This would seem to indicate a fair price for wheat this year.

An irrigation congress will be held in Salt Lake, Utah, in September commencing on the 15th and lasting three days. It is expected that subjects relating to irrigation in all its phases will be thoroughly discussed.

THURSDAY, the 23d, is said to have been the hottest day experienced in Oregon since 1871. It was a shriveler, but a day or two afterwards with cool nights and vegetation showed no signs of its ravages.

THERE seems to have been a surplus of deputy marshals up in Washington, so much so that there were not contraband Chinamen enough to afford a genteel living for all. As a consequence they got into a fight among themselves and made some vacancies. Supply and demand is self-regulating up there.

The La Camas News is authority for the statement that there are many men up in the Sound country who are subsisting on clams rather than run a country news paper. In other sections of the state where there is a shortage in the clam crop, they have to depend almost exclusively on suckers, we presume.

Too much cannot be said to induce fruit growers to persistently spray their trees. The codlin moth is getting in his work now, and what has promised an abundant yield of fruit will turn out a vast crop of worms if proper care is not exercised. Two or three sprayings now will make your fruit crop secure. Spray your trees!

LIEUT. GLAVE, an Alaskan explorer, has written to the Port Townsend Leader that he has succeeded in crossing with pack horses the mountainous barrier that has long shut off the interior of that territory from the coast. He reports the interior rich in minerals, fruits, fish, game and forage, and predicts great things for the future of Alaska.

AT LAST we have found some foundation for an argument in favor of tobacco. An Oregon City tough attempted to perforate a man named Neesley with a pocket knife, but the knife struck a plug of tobacco in Neesley's pocket and saved his bacon. It will be noticed that Neesley wore his tobacco in a different place from some men, and that may have had something to do with its efficacy.

A MEETING of prominent historical societies has been called to determine whether a pile of bones at Havana, or a similar one at San Domingo, shall be called the bones of Christopher Columbus. It is quite clear that Mr. C.'s bones cannot be at both places, and probably are at neither place, but a morbid public demands that they be located somewhere, and the sooner it is done the better.

THERE are certain show enterprises in this country which have a reputation for being pretty shrewd, and they have worked Oregon county newspapers awful hard to get some free advertising, but in only a few cases have they succeeded. This thing of giving something for nothing does not meet the approval of Oregon editors, who have found that thanks don't go far toward paying their bills.

STANLEY, the great explorer, after traveling all over the known world discovered something in England that was new to him. He found that a woman has a will of her own, and one woman in particular who would not submit to his domination. So he has cut loose from his bride of a few months and will go back to shooting benighted Africans, a diversion for which he seems to be more peculiarly suited.

Our patent laws work an injustice to innocent parties many times. The Edison electric light company having won a case in the courts against the United States Electric Light Co., for infringement of patent, will now be privileged to charge a royalty from every innocent purchaser using lights made by this concern. A similar instance may be cited wherein the National Cash Register Company on similar grounds is exacting a royalty from those who have been using a register made by another company. An inventor should be afforded some protection, to be sure, but not to the extent that innocent purchasers may be made to suffer for the wrong doing of others.

THE survival of the fittest is shown in the change of management of the Islander at Friday Harbor, Wash. The Islander is the paper that was started by the bum element to freeze out Frank P. Baum. Frank is still on deck, and the Islander has passed into other hands.

LA FAYETTE ITEMS.

It was 102 degrees in the shade here last Thursday. We hope never to see it any warmer than that in this or any other world.

Clyde Fletcher, the boy who had his leg broken three weeks ago, in a runaway accident, died Thursday morning.

Rev. Ballentyne had the misfortune to cut his foot severely last week and was unable to preach Sunday, and Prof. Kantner filled the pulpit on Sunday morning.

Dr. Watts filled the Presbyterian pulpit in the absence of Rev. Eccleson.

Henry Alderman and Miss Edith Kelly two of our most worthy young people, have been united in matrimony since our last writing.

County superintendent Baker, has been engaged as principal of our public school for the ensuing year, which is a guarantee that we will have a good school.

Harvest is in full blast here now and every one that is on the work is busy. Yet there are several left on goods box duty in town.

The weekly World man of Portland, gives quite an elaborate write up of our town in last week's issue of his paper, particularly our saloon which he takes great pleasure in recommending to the public, but makes no special mention of any of the three or four church organizations of the town, but it is likely there is more money in writing up the saloon than the church, though we think the advertisement of the latter, would have more influence over the better class of home-seekers than the booming of the saloon would. Though we have nothing personally to say against Mr. Gildner, as a man he is a good citizen and a man strictly up to his work.

Kimberlin & Ferguson have just started their new thrasher which works splendidly.

There was a game of ball here yesterday between North Yamhill and La Fayette, which was won by La Fayette, the score being 13 to 31.

SHERWOOD ITEMS.

Wedding in town Wednesday.

R. F. Thomas, of Newberg, moved into Thos. Cox's house Monday.

F. C. Varner preached at Pleasant Hill last Sabbath afternoon.

Professor Hartley preached at Friends' church Sabbath morning.

Joseph Moreback and Rosa Snook were united in holy matrimony last Wednesday at 11:30 a. m. They have the best wishes of the community.

Mrs. Ella Hartley gave a very interesting and instructive lecture on the "Buried Cities of the Holy Land" last Sabbath evening.

Dr. Rickard has located here and Sherwood is no longer without medical aid. The doctor comes well recommended.

Sherwood has two shoe shops so the people need not go with their toes out any longer.

Mr. Johnson of the Portland Press Brick Co. has been out for some days looking the brick works over.

The Sherwood hall is having a new roof put on this week, the boys having come to the conclusion that paper makes a poor roof.

MARION ITEMS.

The weather is fine.

Pea picking is about at an end. But there remains acres of ungathered peas, on account of the canners being unable to take care of them. The peas yielded from 1 to 2 tons per acre, and the canner claimed that they would yield 4 tons per acre. But even at one and two tons per acre they had to throw out 1500 bushels of peas.

Joseph Cook's new house is about finished.

Almer George is working at his house.

Last month Martin Cook and wife visited our monthly meeting. Brother Martin fed the flock with just the food needed. Come again brother Cook.

The Presbyterians have organized a Christian Endeavor society and it is pretty well attended.

Prof. Hartley and wife, of Newberg, and Mr. Townsend and wife, of Albany, visited our meeting on Sabbath the twelfth. Brother Hartley preached an able and instructive sermon which was highly appreciated by all—Hope he will come again.

The saw mill is doing a steady business now.

Arthur George and wife spent two days at his father's last week, visiting.

COUNTY NEWS.

Several owners of threshing machines in this and adjoining counties are fitting up boarding cars in connection with their machines, and in which their workmen will be boarded. This will lighten the burden of the wives of farmers at threshing time, and will be hailed with delight by the women.—Herald.

The fair at Newberg will be held September 23d, 24th and 25th. It is the intention to make the fair a grand success, and Newberg people when they become fully awake, do not do things half-way.—Herald.

Old settlers predict that the coming winter will be a tight one for Oregon. Predictions are based on past experience. It has been the rule that following a rainy summer the cold winds will pull down from the north and freeze everything up tight, then veering around to the south they will blow up warmer and bring snow. Snow has been seen in this valley to the depth of two feet.—Reporter.

J. C. Cooper will leave about next Tuesday for Detroit, Mich., to attend the national U. A. W. encampment. He is one of the three delegates appointed to

represent the state, and is, as far as known, the only one of the three who will go. During his absence he intends, for the novelty of the thing, to set foot on Canadian soil, the land to which defaulting bankers flee. He will be absent about six weeks, and may, before returning, visit relatives in Kentucky, from whom he has been long separated.—Reporter.

Mr. H. E. Mosher, of this city showed us a potato leaf last Monday morning that had two large Colorado potato bugs on it. He informs us that these bugs do considerable damage to potatoes in the way of destroying the vines.—Ledger.

ONLY ONE IN THE U. S.

Out of 127 cough syrups manufactured in the U. S., but one has been found to be entirely free from opiates and that is the California Positive and Negative Electric Cough Cure, which is the best on earth for coughs, colds, croup, etc. Sold by C. F. Moore & Co.

EXCITEMENT

Runs high at C. F. Moore & Co's drug store over System Builder, as everybody is using it for catarrh of the stomach, dyspepsia, constipation and impure blood and to build up the system. It certainly possesses wonderful merit when all speak so well of it.
