A disgraceful row took place at the jaunty west of town, last Monday night, about 9 o'clock, in which Jim Hess received a bullet wound in the leg. The particulars we are unable to give as there seems to be an effort made by the interested parties to smother the thing, but there appears to have been a general row something like an Irish wake. This is simply a repetition of the old story.

In speaking of the State Reform School building at Salem, the Statesman says that in convenience of arrangement and in the substantial manner of construction, it is a model of perfection. Superintendent Miles says however with reference to the plan of the building that he thinks this plan was chosen without reference to convenience of arrangement and because it looked nice on paper. A person with experience in Reform school work could have made many valuable suggestions.

Brakeman Killed.
Thos. J. Pheny, a brakeman on the Oregonian railway, was killed at Rock Creek last Saturday morning by falling from a loaded car and being run over. The car was being run into a switch, and young Pheny in swinging himself down, was holding to a stake which was supporting the wood with which the car was loaded. This stake gave way, letting him fall under the car and one or more trucks passed over him. He died at 3:30 in the afternoon. The stake pocket was gone and the coroners jury found the railroad company guilty of negligence. The company will no doubt have to pay more for this accident than a new set of stake pockets for the whole outfit of cars would cost.

EDMUND ROBINSON,
Volunteer Observer.

As evidence of the uncertainty of things earthly we have only to quote the following from The Alliance Farmer published at Los Angeles California. Don Pio Pico, the last Mexican governor, the man who surrendered California to Gen. Fremont, in 1846, has been served with a legal notice to vacate his old home on the San Gabriel river, twelve miles east of this city, where he has lived for more than half a century. Governor Pico at one time was the largest land owner in Southern California. His home place alone contained fourteen leagues of land. Not being able to speak English, and belonging to that old chivalrous class who trusted in the honor and believed in the word of a gentleman, he was the victim of scheming and dishonest men, who have got possession of all his vast estates, and in a few days California's last Mexican governor will be turned into the streets, ninety-two years old, without a dollar or a relation to take care of him.

Mr. Thomas Batte, Editor of The Graphic, Texarkana, Arkansas, has found what he believes to be the best remedy in existence for the flux. His experience is well worth remembering. He says:

"Last summer I had a very severe attack of flux. I tried almost every known remedy, none giving relief. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended to me. I purchased a bottle and received almost immediate relief. I continued to use the medicine and was entirely cured. I take pleasure in recommending this remedy to any person suffering with such a disease, as in my opinion it is the best medicine in existence. 25 and 50 cent bottles for sale by C. F. MOORE & CO."
