What will we do about it? This is a question that may very properly claim the attention of our citizens when we view the present condition of First and Main streets. By simply growling about the mud we will accomplish nothing, but the time is not far distant when if business continues to increase, necessity will drive the town to the consideration of some feasible plan for bettering the condition of the streets.

The 500 mile ride through the Holy Land on last Monday night, was a very pleasant journey for the large audience present. Bishop Becker is a fine lecturer and some who heard him, think he is the best that ever visited Newberg. If he should come again he will be greeted by even a larger audience than he had on this occasion.

The Newberg flouring mills are now running by water. The Chehalis river is now higher than has ever been known this time of year. These mills have the advantage over many of the mills, in that it can be run by either water or steam. It is now being run by water, and of course can be operated at less expense. Tarrant & Son, the proprietors are kept busy turning out that excellent flour manufactured by them. They have a large run of custom work at this time, beside a great amount of merchant work. —Dayton Herald

Read Our Offer.

Last year we gave The American Farmer as a premium with the GRAPHIC. The Farmer is a good paper but as it is published in the east it is not well calculated for the Pacific coast. We propose to do better by our readers this year. Until Jan. 1st we will give to all new subscribers and our old subscribers who will pay up back subscription and one year in advance, The Rural Northwest for 25 cents extra.

The Rural Northwest is a semi-monthly journal published at Portland and is well suited for the farmer, the fruit grower and the stockman. There has long been a demand for a first class agricultural paper in Oregon and we believe after carefully examining several numbers of The Rural Northwest, that it will meet the expectations of its readers. The subscription price of the Northwest is \$1.00 per year. We propose to furnish it and the GRAPHIC for \$1.75 per year. The time for which we can make this offer is short and in order to hasten the thing we will send the Rural Northwest for one year to each of the first twenty-five names handed in without charge. Will you ever have a better opportunity to get an Oregon agricultural journal free?

Mr. Thomas Batte, Editor of The Graphic, Texarkana, Arkansas, has found what he believes to be the best remedy in existence for the flux. His experience is well worth remembering. He says: "Last summer I had a very severe attack of flux. I tried almost every known remedy, none giving relief. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended to me. I purchased a bottle and received almost immediate relief. I continued to use the medicine and was entirely cured. I take pleasure in recommending this remedy to any person suffering with such a disease, as in my opinion it is the best medicine in existence. 25 and 50 cent bottles for sale by C. F. MOORE & CO.
