LEAVE PORTLAND, TAYLOR ST. DOCK.
7:30 A. M. for Newberg Landing.
7:30 P. M. for Mission Landing.
* Except on Mondays.

Local Events.

Laundry goes Tuesday. A. T. Hill. Kay & Todd have but one price for all. Call at Hill's barber shop and take a bath. J. H. Townsend keeps the best silver ware. For a first class shave or hair-cut go to J. L. Myers. For fine paints and oils, see J. H. Townsend. Have you seen W. T. Macy's new stock of furniture? Screen doors and window at W. P. Heacock's. Try W. P. Heacock for nails and builder's hardware. Andrew Pickett is building a new barn on his farm north of town. Paul Macy has bought Anderson Hodgson's interest in the fruit dryer. Jim Rees and Noah Heater are building a new barn for G. W. Mitchell. A very interesting letter will be found in this issue from Elwood Wessner. W. T. Macy's furniture store is where you get the worth of your money. Before you go east it will be to your interest to call at the Graphic office. W. T. Macy has the finest line of furniture that can be bought in Portland. A good five-room house and four lots for sale at a bargain. Call at this office. J. H. Townsend sells Clark's Cutaway Harrow. Nothing like it for orchard cultivation. August Thomas has engaged as cook for one of Charley Spaulding's logging camps. Mrs. Baldwin visited Middleton in the interest of the milliner store last Wednesday. Mordcaei Ellis, of Middleton, was delivering cedar fence posts in town last Monday. Will Clemens, of Dayton, was in town last Wednesday soliciting for the LaFayette Seminary. Mrs. Julius Wiley, of The Dalles, is visiting Mrs. Nancy Wiley, the mother of her husband. Don't wear yourselves out riding horseback, when you can get a Parry cart for \$16.00 at J. H. Townsend's. Luther Hill, the first street barber, has put in both fixtures and is now ready to accommodate the public. Sea-moss and Oregon coast bouquets made by Delphina Ellis the invalid, for sale at J. T. Smith's store. Mrs. Mary Mitchell who has been in poor health for some time is improving nicely we are glad to be able to state. Slab wood a dollar a cord delivered—dry a dollar and a half. **DOORANCE BROS.** J. H. Townsend spent two or three days at Albany last week on business connected with property interests there. For a sample of the class of work the Graphic office is able to turn out examine the new catalogue of Pacific College. When young men of the town visit neighboring villages, they will get home in better shape if they steer clear of saloons. D. P. Stratton has bought a wood saw for his boys and they propose to start a wood yard as will be seen by their ad. in this issue. John Maris has the road out from the river about made passable and is arranging to have a ferry in running order as soon as possible. The young people who attended the social and supper at Mr. Paulsen's Wednesday night report a very pleasant time and a large crowd. One of the railroad officials stated to us a few days ago that the Narrow Gauge was paying better at present than either the east or west side roads. Rev. L. H. Little will preach at the Westfall school house on the third Sunday in June at 11 a. m. The subject will be "The Saints Inheritance." Chris. Jensen who was in town Tuesday said that fall grain was looking well up the valley and that the late rains were bringing spring grain out in good shape. Miss Rebbe Hinchman who will teach in the college next year will be in attendance at the meetings this week. She will visit her mother in Iowa during the summer. Go to Dr. Clark for the Painless extraction of teeth. This is something new, safe and reliable. I can recommend it myself by an actual experiment performed on my own self. Mr. Simms is rejoicing on account of the arrival of his family Tuesday evening from LaFayette, Indiana. He has rented and is occupying the Harrison Crater property near the public school house. On last Monday afternoon some fellow who is training for the penitentiary entered Maris' barn and cut up a horse blanket, a riding bridle and a good set of harness belonging to John. It is safe to say that a fellow who will do such a thing is possessed of more than one ordinary devil.

Highest cash price paid for wool at Kay & Todd's. The carpenters have commenced work on the school building. Elmer Washburn is home for his mid-summer vacation. Jarrett Todd visited his best girl at McMinnville last Sunday. Fred Vantress came up from Sherwood Saturday to see the ball game. Mrs. George Morris and Mrs. Luther Hill visited at LaFayette last Tuesday. A friend of Howard Williams named Wilson was up from Portland over Sunday. Come and see that new lot of pocket cutlery, the best ever brought to Newberg, at Mount's. G. W. Wyman drives into town since moving on the farm, all the same as any other ordinary granger. A gentleman named Burch of Astoria, was here a day or two last week visiting with his friend N. C. Christenson of our town. If you think of going east you will find it to your interest to call at the Graphic office for information. Before you start east to grow up with the country, call at this office and get rates over the Northern Pacific. Doors and windows, all sizes and thicknesses, either sugar pine or cedar. **DEWET LUMBER YARD.** Bert Wessner returned from Monmouth last week where he has been for some time. Bert says Newberg is good enough for him. Strawberries, such as the world can't heat, have been in the market here at twenty cents per gallon during the past two weeks. Mr. and Mrs. J. L. Hoskins and son Cecil visited with relatives in Portland last Sunday, returning Monday on the steamer Manzanillo. They report a very pleasant trip. J. S. Baker, the butcher, started for his old home in southwestern Missouri last Monday and will be gone for a short time on business. The ice cream and strawberry social at J. S. Long's last Saturday evening, was a very enjoyable affair, and proved remunerative to Mr. Long. R. A. Clark, of Portland, who has the job of moving the college buildings to the new site will be on hand the first of next week to commence operations. The president and secretary of the fair are doing everything possible to make the meeting in September a success. Let everybody lend a helping hand. J. M. Tice is ready for all kinds of work in his line, including painting, staining, graining, paper hanging, etc. All work guaranteed first class or no pay. Prices reasonable. We desire to say right here that Newberg's glue club is something to be proud of. The members put in lots of time in practice, and are apparently loaded for all occasions. President Newlin received a communication this week from the president of Haverford college giving the information that the degree of Master of Arts had been conferred on him by the faculty of Haverford. A couple of Indians passed through town last Friday evening with the body of the young Indian who was drowned at the falls at Oregon City the week before. He was a young man whose home was at Grand Ronde and who has been attending the Indian school at Chemawa. From a program received it appears that Miss Howard has arrived in New Brunswick as she was to be present at the commencement time of her college, Mount Allison Ladies College and Conservatory of Music, Sachville, N. B., where she was on program for an address. We learn that the children's day exercises at the M. E. church last Sunday evening were fine, and all, both old and young, enjoyed them very much. The church was beautifully decorated with flowers and ferns and mosses, arranged by the ladies, and presented a very pretty sight indeed. George Christenson went to Portland last Saturday and bought a new engine for the ware house. It is a large one and will furnish ample power for running the cleaner and chopper at the same time. George expects to have the warehouse in good running order this season so that he can give the farmers first class service. Hancock street has been grubbed, preparatory to being graded from Main to College street. It will be a very pretty street when completed. It would show more enterprise if some of the property owners along Sheridan and Meridian streets would grub and clear up those streets were necessary at their own expense, as was done by the people along Hancock street. The enthusiastic Republicans of the town on hearing that President Harrison had received the nomination at the Minneapolis convention, hastily collected together on last Friday evening and jubilated by the firing of anvils. The Democrats will probably be heard from next week, especially if Cleveland captures the Chicago convention. The morning passenger train on last Saturday morning knocked a cow off the track when within two hundred feet of the depot. While the cow was not killed it was a very careless trick on the part of the engineer that might have resulted in loss to the owner of the cow or the railroad company. Apparently no effort at all was made to check the speed of the train. No man engaged in a legitimate business in our town has anything to gain by saying or doing that which will in any way array one part of the town against another part, and the sooner some persons find this out the better it will be for all parties concerned. Anybody that can't succeed in the business they are in without a racket had better move out or make a change in their business.

Mrs. Lamb will accept the thanks of this office for a plate of extra fine strawberries grown in her garden on Meridian street. Miss Lula Burnett, sister of G. T. Barnett, is visiting friends and relatives here. Many Newberg people have occasion to remember her kindly both for her musical ability, and her many acts of kindness to the sick while here a year ago. Capt. Wand, of the steamer Manzanillo, was in town last Saturday, getting acquainted with our people. We understand he is thinking of moving his family here, in order to get the advantage of our schools. We will be pleased to welcome them to our town. We are in receipt of the program of the State Teachers' Association to be held in Portland from June 28th to July 1st. On Friday afternoon of the last day, President Newlin will deliver an address, the subject being, "Political Necessity of National Education." A card from Rev. Thomas Armstrong, pastor of Friends church at Whittier, California, stated that he would be here this week to attend the meetings. This was in answer to a telegram sent by Rev. J. H. Douglas inviting him to come. Rev. Armstrong is an excellent speaker. Lamb & Baldwin have received that large bill of goods they were expecting from the east. They were delayed on the road, but are here now, and will sell them very low. Leghorn flats from 50 cents to \$1.25. Dress Hats 40 cents to \$1.50. Flowers and other goods accordingly. Come and see. The regular meeting of the W. C. T. U. will be held at the Y. M. C. A. rooms on Thursday the 23rd of June at 3:30 p. m. According to the revised constitution, quarterly reports are expected at this meeting. Officers and department superintendents please take notice and be prepared. Members all bring your Bibles. A force of hands have been busy for the past day or two arranging the pavilion at the fair grounds for the series of meetings held by Friends church. The meetings will probably hold for several days and although it is a very busy time a large attendance and interesting meetings are expected. A cordial invitation is extended to the public to attend. J. S. Larkin very kindly sent us a bucket of strawberries of the Crimson Cluster variety last Tuesday. To us at least this is a new variety. While they are not as large as berries as some others they are very rich and sweet and seem to ripen very uniformly. They are certainly an excellent strawberry. Mr. Larkin has depended on the local market for the sale of his crop of berries and seems to have met with good success. The young ladies had better begin early to practice horseback riding. Jacobson, the McMinnville merchant, offers a \$12.50 dress pattern, cape or cloak. A ladies' dress will also be given as a premium. In addition to the healthful exercise gained in horseback riding, those prizes will be worth contesting for. We understand that the premiums are to be awarded to the most graceful rider. County school superintendent L. H. Baker requests us to announce that the Yamhill county teacher's institute will meet at McMinnville on June 20th, and will close about the 28th. Teachers are earnestly urged and the public cordially invited to attend. The meeting will close with an entertainment for the public at which Prof. Geo. Whittaker, president of Willamette University is expected to speak. How much pleasanter it would be walking along the streets on these warm days if nice shade trees had been planted at the right distance and in the proper places by our forefathers. Every property owner ought to remember this and when tree planting time comes next fall, get right in and set shade trees in front of every lot in town. The same outlay can scarcely be made in any other way to increase the value of resilient property more. In a recent letter to the proprietors, Mr. H. M. Bangs, the druggist at Chatsworth, Ill., says: "I am very much pleased with Chamberlain's Cough Remedy. During the epidemic of the grippe here it took the lead and was very much better liked than other cough medicines." The grip requires precisely the same treatment as a very severe cold, for which this remedy is so efficient. It will promptly loosen a cold and relieve the lungs, soon effecting a permanent cure, while most other medicines in common use for colds only give temporary relief. 50 cent bottles for sale by C. F. Moore & Co. The general meeting of Friends church for Washington and Oregon commenced on the 16th and will continue one week. It is in charge of J. H. Douglas, president of the pastoral, evangelistic and church extension board of the Friends church of the Northwest, assisted by Rev. Thomas Armstrong and Dr. Jessup, of California, together with the ministers from various places in Oregon. The meeting is held in the Horticultural Hall on the Fair grounds. The hours of meetings are 9 a. m., 10 a. m., 2 p. m. and 7:30 p. m. For the Sabbath the hours will be 8:45 a. m. Sabbath School 9:45 a. m. Preaching at 11 a. m., 3 p. m. and 7:30 p. m. Ample provision will be made for those coming from a distance. Those living in reach by their own conveyance are invited to bring their baskets and stay all day. There is a good place for horses and plenty of good water. All are invited to attend the meeting. Good order will be maintained and we trust much good will be accomplished. The Y. P. S. C. E. and the Y. M. C. A. will have a part of the time on Sabbath. A cordial invitation has been extended to the pastors and people of the various churches in town to attend the meetings.

Galvanized water tight well casing, seems to be a success. Mr. Storey is furnishing it to several parties here lately, and where pure water is desired, it is the thing. **STORY THE PLUMBER.** The popularity of the sugar pine door is shown at the Depot Lumber Yard where W. P. Heacock informs us he sells five of them to one cedar. They are certainly the best, strongest, least likely to get bruised up, and doors for the company he represents are warranted not to be affected by the weather more than cedar. The Dayton base ball club, played our boys here Wednesday. We can't give the entire score, on account of a lack of time, but the game closed with 15 to 14 in favor of our boys, they being at the bat and only one man out. The Dayton boys are a very gentlemanly set of good natured fellows, and their conduct was such that our people would be glad to see them back again. Miss Grace Littlejohn is a little girl aged eleven years, residing in Baltimore, Ohio. Read what she says: "I was troubled with rheumatism for two years, but could get nothing to do me any good. I was so helpless that I had to be carried like a babe, when I was advised to get a bottle of Chamberlain's Pain Balm. I got it from our druggist, Mr. J. A. Kumbler, and in three days I was up and walking around. I have not felt any return of it since and my limbs are as limber as they ever were." 50 cent bottles for sale by C. F. Moore & Co. The St. Paul boys came over and played the Newberg boys a game of ball last Saturday. Both were second nines, but they played a pretty stiff game, resulting in the defeat of St. Paul by a score of 16 to 21. Be it said to the credit of both teams, it was one of the most orderly games of ball ever played in Newberg, no profane or other objectionable language being heard. It was such a game of ball as gentlemen play, and we trust that the same may be said next Saturday, when the Newberg team goes to St. Paul to play a return game. A letter from Prof. Hartley written from Milton, N. Y., says: "Since I left my many friends in Oregon I have enjoyed a fair degree of health. I have traveled three thousand six hundred miles and I believe it will be only justice to say, that I found on the Northern Pacific railroad the best accommodations and the most comfortable cars of any that I have been in. I did not expect that such would be the case but it is so. From my own experience I would advise any one intending such a long journey to try that line. I find the climate here hot and sultry, very suffocating, but rainy. It seems different from anything I have seen or experienced in Oregon. This is a great fruit region, mostly grapes, the hillsides being literally covered with vineyards. The cities and villages are old, with narrow streets and are simply a dense forest of trees, elms, maples, etc. I walked out to the Dougkeepsie bridge 220 feet high and looked over the city, but could only see a few houses, the trees were so abundant. The Yearly Meeting was a very interesting one. I had the privilege of working in the last meeting most kindly by the people of the Yearly Meeting." Prof. Hartley's address for the present will be Newport, Rhode Island. **Government Lands.** Choice agricultural lands with running water can be taken as homesteads. L. C. WASHBURN, New Grand Central Hotel, 6-1712, Portland, Ore. **Ice Cream and Strawberry Social.** There will be an ice cream and strawberry social at J. S. Long's store building next Monday evening, June 20th, commencing at 7 o'clock. Proceeds to go to the Presbyterian church. Everybody cordially invited. **To Jayhawkers.** What do you think of a county organization of Kansas people, for social enjoyment and better acquaintance? Why not meet and have a picnic at some central place in Yamhill county on the fourth of July, at which time a permanent organization could be effected. We think it could be made both pleasurable and profitable. **Solid Gold Jewelry.** Report reaching me of a dealer saying my goods were not gold. I reported it to manufacturer whose reply may be read by those interested. Warranting all goods sold me solid gold as represented. Today have received a lot of heavier solid gold rings and will soon receive solid gold watches at less than Portland prices. J. BARRIE. **Dissolution Notice.** Notice is hereby given that the partnership heretofore existing between J. T. Smith and S. A. Haworth is this day mutually dissolved. S. A. Haworth retiring from the business and J. T. Smith remaining in the business, the said J. T. Smith retaining all debts contracted for the firm and all accounts due said firm to be paid to J. T. Smith. Dated this 9th day of June 1892. J. T. SMITH, S. A. HAWORTH. **A Large Tusk.** While wandering along the river bank one day the first of the week, J. H. Daily and O. C. Emery stumbled upon an enormous tusk of some extinct animal, presumably a mastodon. It was nearly buried in the sand, only a small portion being in sight. It is twelve inches in circumference at the base, and measures four feet, five and one-fourth inches in length, with probably eight inches broken off the small end. It is in four pieces, but its form may be easily seen resembling in its outward and upward curves an immense ox horn. It has been presented to the college, and will be prop-

erly mounted and given a place in the college collection. This is one of the most interesting finds of this character that has ever been made in this vicinity, but we feel sure that if a thorough and systematic search could be made, greater discoveries are in store. We would suggest to those students who find time hanging heavily on their hands during vacation that they could find exercise and recreation and probably something better still, by putting in an occasional day prospecting for fossils along Chehalis creek or the river. **WOMAN'S COLUMN.** As a W. C. T. U. Sisterhood we feel that we have lost much in the removal of our sister Ella Hartley. The ready ability with which she could take up any of the various lines of work in our union made her a highly valued member. And it was to pay her a farewell tribute that a Spooly number of the members of our union met at the home of Mr. and Mrs. Townsend on the evening of Saturday, June 4th. Our amiable host and hostess knew just how to make their friends feel at ease in their pleasant home, and an hour was spent in social converse, when at the appointed time, on behalf of the union, our president, Mrs. Townsend, made a very appropriate farewell address expressing to Mrs. Hartley our appreciation of her and regret at her leaving us. Two beautiful floral offerings were presented to her, one of pansies, whose almost intelligent faces look up into ours and say, in the language of flowers, "Think of me." The other, an anchor of roses imbedded in moss, and as a more lasting token we placed in her hands the means to purchase Miss Willard's last book, which is now being published. To which Mrs. Hartley feelingly responded. A loving prayer was then offered by sister Edwards, followed by appreciative remarks from the sisters and brothers present, not only for sister Hartley but also for sister Achis Morris who goes east for an extended visit, and for Anna Stabler, who removes from us and who was not a member with us, but a sister beloved in the church and community. The evening was a pleasant one and though saddened with the thought of parting, who shall say it is hot better to scatter roses in each others pathway while we travel on our life's journey. M. E. A. **NATIONAL REMEDY CO.** David W. Martin, general agent for the National Remedy Co. wishes to announce that he now has two agents in Newberg for the sale of his medicines. Mrs. Mary Heacock, on South Meridian street, near the fair grounds, and Mrs. Cox, on First street, one door west of Presbyterian church, are his only authorized agents, who have strictest orders to keep on hand a full supply of the above named remedies. **JAPANESE PILE CURE** A new and Complete Treatment consisting of Suppositories, Ointment in Capsules, also in Box and Pills. A Positive Cure for External, Internal, Blind or Bleeding, Itching, Chronic, Recent or Hereditary Piles, and many other diseases and female weaknesses; It is always a great benefit to the general health. The first discovery of a medical cure rendering an operation with a knife unnecessary heretofore. This Remedy has never been known to fail. \$1 per box, 6 for \$5 sent by mail. Why suffer from this terrible disease when a written guarantee is given with 6 boxes, to refund the money if not cured. Send stamp for free Sample. Guarantee issued by Woodward, Clarke & Co., Wholesale and Retail Druggists, Sole Agents, Portland, Oregon.
