Now for water works.

Laundry goes Tuesday. A. T. HILL.

Screen doors and windows at W. P. Heacock's.

For a first class shave or hair-cut go to J. L. Myers.

For fine paints and oils, see J. H. Townsend.

Call at the Unique for bargains in the millinery line.

Try W. P. Heacock for nails and builder's hardware.

The Unique is said to be the cheapest place in town.

D. B. Bartlett of Salem was calling on his Newberg friends yesterday.

A good five-room house and four lots for sale at a bargain. Call at this office.

We understand that O. V. Allen and family will move here from La Fayette soon.

Sea-moss and Oregon coast bonnets made by Delphina Ellis the invalid, for sale at J. T. Smith's store.

Milt Gunn came down from Salem last Saturday, and remained over with his Newberg friends until after the fourth.

Mr. Burrows and Mr. Kirk with their families went over on Parrot Mountain yesterday to rusticate and get cherries.

Lamb & Baldwin, the milliners, have dissolved partnership. Mrs. Baldwin will continue the business, beginning with the fall trade.

Those who desire to correspond with Prof. Hartley, may for the present direct letters to him at 109 East 24th St., New York City.

A. C. Cox has put in a stock of groceries in his store room on First street, and solicits a share of your patronage. Go and see him.

The parties moving the college buildings have been delayed some by having to get new rollers turned, but are getting on nicely again.

Those who have late sown grain are complaining of dry weather already, but it is quite likely that but little more rain will be seen before September.

Mr. T. J. Darbin, of Pomeroy, Wash., a brother-in-law of S. A. Haworth, is visiting him, and looking about with a view to locating in or about Newberg.

John Maris has his ferry in operation now and anybody wanting to cross the Willamette into Marion county will find him ready to accommodate them.

If any of our readers should conclude that the GRAPIC is hardly up to the standard this week they must remember that the glorious Fourth comes but once a year.

W. P. Heacock has placed an order back at the post office. Orders will be collected each day at 2:30 p. m. and materials ordered will be promptly delivered to any part of the city.

Go to Dr. Clark for the Painless extraction of teeth. This is something new, safe and reliable. I can recommend it from an actual experiment performed on my own self.

The ladies of the W. C. T. U. sold ice cream and cake at the college grounds on the evening of the Fourth and seemed to do a thriving business. The proceeds we understand were satisfactory.

If some parties about town would procure a copy of the ordinance relating to fire limits and then proceed to comply with the requirements of the same, it might possibly save them money.

A fine eighty-foot flag pole was raised Saturday at the intersection of Main and Sheridan streets. An even longer stick was secured, but in raising it a pulley gave way and it fell, breaking it in two.

The person who found a hammer in the street between Allen's livery barn and my place, will confer a favor by leaving the same at my place or at Allen's barn. Wm. Morriss.

Dusty, worn out and weary travelers are passing daily now on their way to the seaside to "resort" for a season. The newspaper man in the meantime must stick close to his knitting if he collects enough to pay his bills.

There will be a meeting of the prohibition club at the Y. M. C. A. rooms next Saturday evening, July 9th, at 8 p. m. Business of importance is to be considered, and a full attendance is desired.

COMMITTEE.

Dr. A. Mills, of Dundee, is building a new house over on his red hill farm of dimensions that are greater than are ever required to satisfy the ordinary bachelor of the wild and woolly west. Dock was in town Wednesday laying in a stock of fine wall paper and was so fastidious in his tastes as to arouse the suspicions of his friends who volunteered to assist him in his selections. He was actually quite choice in his selection of decorations for the kitchen, something unheard of before in the history of bachelorhood. Then to make matters look worse, or, better, as the case may be, he was seen button-holing a reverend gentleman in a very confidential way before he left town. All signs fall in dry weather they say, but that smile on Dock's face certainly indicates coming events.

Call at Hill's barber shop and take a bath.

Mr. Younger has moved to the Boyce property on Meridian street.

J. M. Boyce and family were up from Wilsonville to celebrate with us.

Mitchell & Clark's lumber yard is getting pretty well filled up with lumber.

Will Macy visited with his friends in the upper part of the county last week.

Rev. J. H. Douglas and wife spent a day or two last week visiting in Portland.

G. M. Bales has moved to the property on the corner of Second and Meridian streets.

A. M. Hadley, the new hotel man, reports business good at the Newberg house.

J. M. Tice has been spreading paint on the public school building during the week.

E. H. Skinner received a crate of nice large apricots from his son in California last Tuesday.

Come and see that new lot of pocket cutlery, the best ever brought to Newberg, at Mount's.

Prof. Edwin Morrison and family arrived from Indiana last Monday and are located at Salem.

Doors and windows, all sizes and thicknesses, either sugar pine or cedar.

DEPOT LUMBER YARD.

Slab wood a dollar a cord delivered—dry a dollar and a half.

DONORANCE BROS.

Miles Darcy, a Portland bricklayer and contractor, was in town last Saturday in company with another Portland gentleman.

Dr. Jessup preached at Sherwood last Sunday and went on to Portland the first of the week to spend a day or two canvassing for the college.

Mr. Holley spoken of last week as being sick at the saw mill on the mountain is reported as being very low from a relapse taken after the fever was broken.

J. M. Tice is ready for all kinds of work in his line, including painting, staining, gilding, paper hanging, etc. All work guaranteed first class or no pay. Prices reasonable.

Sheriff Warren, of McMinnville and Sheriff Kelley of Portland, were here last Monday night looking for Wilson, the murderer. Kelley was looking like he had let the bird go sure enough.

Mr. Fox has bought J. E. Heston's property on Meridian street and will take possession about the first of September. In the mean time Joe will build on his lots near the blacksmith shop.

T. B. Cummings moved up from Portland last Tuesday and is occupying the George L. Stabler property which he has rented for the season. He says he intends to build for himself in the course of a few months.

We notice by the Whittier, California, Register that Prot. Jessup arrived at his destination safely. Also that they had him billed for a solo at an entertainment to be given last night by the Y. W. C. T. U. of Whittier.

There has been some complaint made that the wheelmen are too careless and run too fast on the sidewalks, especially in the business part of town. A little more care should be exercised by those who indulge in this mode of locomotion.

Mr. Hurley, of Portland, was in town last week, and after taking a drive over town with J. M. Wright, he said Newberg was improving faster than he had expected. Non-residents must come around often if they keep up with Newberg's progress.

We do not suppose it will do any good, but we wish to utter a word of warning to young boys who make a practice of going to the river to swim. There is liable to be some one drowned if the custom is persisted in.

Misses Elma and Florence Brown came down from Salem last Monday and are keeping house for their father, John Brown, in Alf. Rees' house near the tile factory. The young ladies have many friends in Newberg who are glad to see them back again.

The young fellows who took their girls to Oregon City with only fifteen cents in their pockets, must have been objects of pity when they were left there for the night. It would be safer for the girls if they would pocket a little of their own pin money when starting out on uncertainties again.

Charley Spaulding in giving in his property to the assessor Wednesday morning had the new boy taken at \$1,000. The little fellow arrived twelve hours too late for the celebration on the Fourth but he got here just the same and all parties are happy and rejoicing. Charley thinks he will make a first class logger.

Chamberlain's Colic, Cholera and Diarrhoea Remedy can always be depended upon, it is pleasant to take and will cure cramp, cholera morbus, dysentery and diarrhoea in their worst forms. Every family should be provided with it. 25 and 50 cent bottles for sale by C. F. Moore & Co., druggists.

Let of uncalled for letters lying in post office at Newberg for month of June.

C. G. Alkin, Mollie Broyles, G. W. Christenson, Geo. Graves, M. A. Jones, Jake P. Jensen, Peter Jensen, Abraham Johnson, A. F. Krueger, Mrs. B. A. Morris, G. J. Sanders, Miss Cary Smith, John Townsend, Miss Alma Whitlock, A. T. Hill, P. M.

New Bolton informs us that he has completed the job of assessing in his district. Says he found a few persons who still contend that Newberg will never amount to anything without saloons. Newberg is "amounting to something" faster than other surrounding towns where saloons have flourished for years, and this silly talk about our needing saloons to bring prosperity comes from those who are either fools for the want of sense, or who want a convenient opportunity to quzzle stale beer or soak themselves in rotgut whiskey.

Go to W. T. Macy's for furniture.

F. S. Cottle, of Carlton, was in town yesterday.

A. H. Carson is a practical fruit grower and you cannot afford to miss hearing him.

Rev. Emmel, will preach at the M. E. church next Sunday, at 11 a. m. Everybody invited.

Do you know where I can get some first class furniture? Yes; you will always find it at W. T. Macy's.

We did have a "cannon" but it is no more. A few small pieces, two or three holes in adjacent buildings, and a reminiscence is all that remains.

Remember that A. H. Carson, of Grant's Pass, will speak on fruit growing at the fair grounds tomorrow (Saturday) afternoon. Go and hear him.

Thistles and mullein are growing up along a good many of the streets in town, and give the sidewalks a ragged appearance. If every property owner would wage a war on these pests it would add much to the appearance of our streets.

DEATH.—At the home of her mother, Mrs. Leavett, in this city July 7th 1892, of quick consumption, Endora, wife of S. E. Leat, aged 25 years. Funeral Friday July 8th, at 2 p. m. from Baptist church, conducted by Elder F. A. Powell, of Vancouver.

For twenty-five cents you can insure yourself and family against any bad results from attack of bowel complaint during the summer. One or two doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy will cure any ordinary case. It never fails and is pleasant and safe to take. No family can afford to be without it. For sale at 25 and 50 cents per bottle by C. F. Moore & Co.

A large number of our young people and some older ones as well went to Oregon City on the steamer excursion on the evening of the 4th. About half of the number returned on the boat that night while the others were unable to get back owing to the large crowd. They returned on the noon boat Tuesday and were rather a jaded looking lot as they filed up River street. Some of the number were able to get beds in Oregon City, while others laid on floors in offices and private houses and some walked the streets.

Mr. C. H. Shaven, Wellsville, Kan., says: "It is with pleasure that I speak of the good Chamberlain's Colic, Cholera and Diarrhoea Remedy has done my family during the last fourteen years. In the most obstinate cases of summer complaint and diarrhoea among my children, it acted as a charm, making it never necessary to call in a physician. I can truthfully say that in my judgment, based on years of experience, there is not a medicine in the market that is its equal. For sale by C. F. Moore & Co., druggists.

The mother's meeting held at sister Hobson's Saturday afternoon, June 25th, was a very interesting meeting. It was opened by Bible lesson and prayer by sister Harford, then the subject for the discussion of the meeting which was, "The Mother in the Home," was ably presented by sister Jane Votaw. The important points discussed were, the mother's influence in the home, the mother's prayers, the importance of gentleness though firmness with the children. Always be honest with them, talk freely with them, gain their confidence, and never betray it; be careful in your own appearance and in the order of the home, watch the development of the sons and daughters and suit your instruction and entertainment accordingly, teach your children to be affectionate one toward another and affectionate and differential toward their parents. Francis Willard endorses the idea that women who are the best home builders of our land are those in whose hearts dwells largely the natural inspiration of motherhood. The home is very much what the mother makes it. Many profitable thoughts were brought out by the discussions and we believe if more of our mothers would avail themselves of the privilege of these meetings it would bring benefit to their homes and hearts.

Horticultural Meeting.

A. H. Carson, of Grants Pass, will speak at the fair grounds next Saturday afternoon on the subject of horticulture. Mr. Carson studied law for a profession in his younger days and practiced at the bar for a time but on account of failing health he gave it up and engaged in fruit growing near Grants Pass in Josephine county. He is not a theorist but one who is a practical fruit grower, and follows the business for profit. He is an interesting and instructive talker on the subject and anyone who is the least interested in fruit growing will be well paid for hearing him. The attendance at this meeting ought to be large.

**John Gould Finds a Watery Grave.**

John Gould, the youngest son of the old man Gould who lives on the red hills back of Dundee, was drowned at Oregon City on the night of the 4th. Young Gould in company with one of his older brothers and a number of other young fellows spent the 4th at Sherwood. They came up from there on the six o'clock train and got off at Newberg and took the excursion boat for Oregon City at seven. They were somewhat under the influence of whiskey when they came from Sherwood and continued to drink freely while on board the boat. They were among the number who were left at Oregon City for the night and to have a "good time" they collected on a barge that was tied up at the Canemah landing above the falls and were passing the night away in dancing and having a high time generally. While this was going on young Gould either jumped or fell from the barge into the river and was drowned. A young man from Dayton swam in and tried to get him out before he sank but failed in the attempt. A search was made early next morning when the body was found about twenty feet from the bank.

The coroner held an inquest and a verdict of accidental drowning was found. The body was brought up home on the Manzanillo Tuesday morning.

**Gravel For Our Streets.**

At a meeting of the city council last Tuesday evening it was decided to appropriate \$500 out of the city treasury for graveling the streets, provided that a fund of at least \$1,000 was raised by subscription for that purpose among the people of the town and vicinity. This was done in consideration of the fact that the county court has agreed to appropriate out of the county funds, an amount equal to 33 to 50 per cent of any amount that may be raised by the people in any part of the county for graveling the roads. B. C. Miles, Cephas Maris and J. D. Carter were appointed to solicit subscriptions to the fund, and as we go to press we learn that \$1,600 has been subscribed, which practically insures the graveling of the streets most used in Newberg. It is the intention to bring the gravel from Ash Island on a barge. As the gravel will be hauled from the river the farther end of Main street will be gravelled first, in order to avoid hauling over the loose gravel. With Main, First and River streets well gravelled, travel through Newberg will be greatly improved, and we predict that a very noticeable increase in the next year's business will result. Now let the funds be handled with strict economy, in order that all that is possible may be gotten out of the appropriations.

**The Fourth in Newberg.**

The glorious Fourth for the year eighteen hundred and ninety two is a date of the past and the worn out participants in spread eagle celebrations are lounging around trying to recuperate from the fatigue of the day. The crowd in Newberg although large was not as great as we have had on other occasions of this character. The parade in the morning by the "plug uglies" was rich and racy and enjoyed by all who saw it. Many were disappointed as they expected the line of march would be extended to the celebration grounds and as they staid there they failed to see it.

At the stand J. C. Sawyer made a few appropriate remarks by way of introduction and welcome to the people with due reference to the stars and stripes after which excellent music was rendered by the brass band and the glee club. President Newlin, orator of the day, followed with an address which was closely listened to by the large audience present. His address was short but full of practical thoughts and he received very hearty cheers at the close. We have heard the oration highly complimented by many.

In the afternoon the crowd gathered at the college grounds and witnessed games of base ball and foot racing. In the sixteen year old foot race Brad Jones came out first, Fred Vantress second and Rob Bell third. In the twelve year old race Cy Hammett won the \$1.50 prize and Arthur Kirk the seventy-five cent prize. A display of fire works at night was made on the college grounds to the great delight of the children.

**The Brick Plant.**

The pressed brick plant is now a certainty and there is general rejoicing in Newberg. Edwards and Wetherell arrived home from Chicago Tuesday evening and are busily engaged arranging for the reception of the machinery which will be shipped from Chicago on or before next Monday. They bought a Boyd press which is the best made, and the weight of which is nine tons and a half. The machinery bought in Chicago will make four car loads on our road. The engine they bought in Portland. It has two boilers and is a 120 horse power. They intend to push the work as fast as men and money can hurry it along and hope to have everything in place and ready to run by Sep. 1st at least. The experts at Chicago who tested the samples of clay sent them from here pronounced it equal to the celebrated St. Louis clay which makes the best pressed brick in the country. With first class clay and an abundance of wood, with the best of machinery, it would seem that Newberg ought to turn out the best of pressed brick at a good profit. One thing is certain, the company intend to have the most complete plant in Oregon.

It seems that it is not at all certain that the switch will be run from the railroad to the yard as Mr. Koehler of the Southern Pacific wants the company to buy the iron and lay the track at their own expense. This the company very positively decline to do and they are now seriously

considering the propriety of purchasing a barge and running their brick to Portland by way of the Willamette. Here comes in the advantage Newberg has over many other points. Whenever the railroad company makes demands that are unreasonable our people can turn to the river where the right of way is free and open to the world.

**Special Premiums.**

Below will be found a list of special premiums offered in different departments at the fair. Read the list over carefully and see if you can't profitably compete for some of them.
