DORRANCE BROS.

A Mr. Guinne, from Texas, has been looking over town this week with a view to investing in some business enterprise.

Miss Macy who has a position as teacher in the public school for next year, arrived here a few days ago. She is stopping with Mrs. Lin Parker.

John Hoskins, brother to R. E. Hoskins, who has been at Spokane Falls for some time, arrived here last week. While on the train near Tacoma, he was robbed while asleep of $100 in cash. A heavy loss for a young man.

George Christenson is having a two thousand gallon tank put up at the elevator. It will be thirty feet above the ground, and made of the heaviest galvanized iron. With a good supply of hose this will afford protection against fire.

Paul Macy has had several thousand rails hauled out and dumped along the road leading from the bridge across Chehalem creek into town. Paul proposes that the traveling public shall be able to find the bottom of that road next winter.

M. H. Pinney returned last week from Washington county where he has a place rented for next year, on which he has been putting up a large crop of clover hay. He will move to the place, which is thirty-five miles from Newberg, in the fall.

The July rains have helped out the grain crop greatly in Yamhill county, and the present outlook is good for a fair yield. The increased acreage and fine condition of most winter grain will probably bring the total yield up pretty close to that of last year.

Dr. Jessup returned from an extended visit to eastern Oregon and Washington last Wednesday. He says the crop outlook throughout nearly all that country is rather discouraging. It is expected that his visit will result in future good to the college.

Some careless person started a fire in the woods in the Goodrich subdivision one day last week and before it was discovered some of president Newlin's cord wood was burned. People can't be too careful about starting fire in the timber now as every thing is very dry.

John P. Sunde, a business man from Norway, Iowa, was here last Saturday and Sunday. He was much pleased with the country and has some idea of going into the boot and shoe business here. On Monday he left for Scotts Mills in Marion county where he has a friend he will visit.

Reports from all points in the east are to the effect that extremely hot weather is being experienced. So far we have been favored in Oregon with the most lovely summer weather. Moderately warm days with nights cool enough to require a liberal supply of bedding has been the program.

Mrs. Ella Smith was summoned to Peoria, Linn county, last week to the bedside of her sick father, Thomas Clemens who died a few days after she arrived. Uncle Tommy was well known in this community where everyone who knew him was his friend. He was a brother of Mrs. Atkinson who lives out north of town.

The question is quite often asked why the college buildings were placed so far back in the grounds. The reason is that it is expected that some time in the future a new building will be put up that will be a large one and the best location was reserved for it. The present buildings are placed where they will remain and not interfere with the new one.

Boys may be had (and sometimes girls) for—(1) ordinary service at wages; (2) upon indenture, (to work, attend school, and be brought up somewhat as your own;) and—(3) children may be had for legal adoption. Address:
J. H. MISENER,
Supt. Oregon Boys' and Girls' Aid Soc'y,
Portland, Or.

L. W. Harger and J. C. Nelson, who were in town Wednesday, both said crops were bound to be considerably short of the usual yield. The hay crop which is about all in is good and fall sown grain will be a fair yield, while the prospect for spring sown grain is rather discouraging. The cool weather however is quite favorable and the yield may yet be better than expected at present.

While at Big Island, Va., last April, I was taken with a very severe attack of diarrhœa. I never had it worse in my life. I tried several old-timed remedies, such as blackberry wine, paregoric and laudanum without getting any relief. My attention was then called to Chamberlain's Colic, Cholera and Diarrhœa Remedy by Mr. R. C. Tinsley who had been handling it there, and in less than five minutes after taking a small dose I was entirely relieved.—O. G. Burford, Harris Creek, Amherst Co., Va. For sale by C. F. Moore & Co.

At the meeting of the horticultural society last Saturday an informal discussion on various topics of much interest to fruit growers was participated in by all members present. In view of the fact that the fair will be held in September and soon followed by the October meeting of the state horticultural society at this place, it was decided to postpone farther meetings of our local society until November, except on call of the chairman. A special meeting will be held about the 1st. of October to arrange for the state meeting. R. E. PORTER.

About 6 o'clock last Sunday morning one of the Hess brethren was observed by our neighbors just north of town, astride of his horse, though leaning very hard on the saddle horn, a six shooter quietly peering out of his gun pocket. Here the horse stood in the middle of the public highway with its limber load until 1 p. m., when the load fell off and was subsequently deposited in the fence corner by some good Samaritans, where the aforesaid brother finally became somewhat conscious of his surroundings, got up and mounting his horse, rode for home. It is thought he had taken a large dose of something.

I have no hesitancy in recommending Chamberlain's Colic, Cholera and Diarrhœa Remedy to the public, as I do to my friends and patrons. I used it myself after other well-known remedies had failed, and it cured me in a few minutes. I recommend it candidly and cheerfully upon its merits, not from a financial stand-point, because I have others in stock on which I make a larger profit, but because Chamberlain's is the best remedy I know of for bowel complaints. There is no doubt about it, it does the work.—James Forgy, Druggists, McVeytown, Penn. For sale by C. F. Moore & Co.

As will be seen from a letter in this issue from Miss Ada Howard, she is attending the "Martha's Vineyard Summer Institute," which is located at Cottage City, situated at the northwestern extremity of Martha's Vineyard. This Institute was established for the purpose of affording to teachers and others the opportunity of combining the study of some speciality with the rest and recreation of a delightful and inexpensive seaside resort. Miss Howard will remain there as long as she can to give herself time to get here to take her place in the college at the opening of the fall term, September 21st.

Crystal Wedding.

Last Sunday the 24th, completed the round of fifteen years of married life for Marion and Maggie George, and in commemoration of the happy event of fifteen years ago they invited their relatives and friends to the number of about fifty to take dinner with them. A long table in a grove near the house was spread with the good things Oregon cooks know so well how to prepare, such as pie and cake and yellow legged chicken, and then came nuts and candies, ice cream and lemonade, until it was too much to ask a fellow to pass judgment on all the good things that were stacked on the table. There were present, J. I. Hadley, Miss Elma Brown, Willie Clemenson, Joseph Hoskins and the families of Cyrus Hoskins, Lewis Hoskins, Frank Hadley, Alonzo Hadley, T. B. Cummings, Thomas Hadley, Wm. Macy, Alva Macy, Ole Hattfield, James Hunt and E. H. Woodward. A large number of very nice and useful presents of glassware were presented. The afternoon was spent in pleasant conversation and all left for their homes wishing Mr. and Mrs. George many more years of married life together.

LIST OF PRESENTS.

Cyrus Hoskins and wife, lamp; Lewis Hoskins and wife, fruit dish; Joycie Hoskins, celery glass and cake stand; Hervey and Cecil Hoskins, sauce dish; Anna Hoskins, pickle dish; James Hunt and wife, fruit dish; Lola and Maggie Hunt, tea set; Nelia Hunt, cream pitcher; Julia Macy and Cyntha Hatfield, fruit dish; Thomas and Lucinda Hadley, cream pitcher and set of glass goblets; John Hadley, meat dish; T. B. Cummings and wife, set of vases; Elma Brown, salt cup; Alva Macy and wife, dessert dishes; E. H. Woodward and wife, fruit dish; Alonzo Hadley and wife, set of vases; Lewis George, set of silver tea and table spoons.

A Card to the Public.

To the Public in regard to the low and cowardly circular printed and dropped along the streets, concerning my character, last week, I will say:

1st. No gentleman would write and no gentleman would publish such an article.

2nd. It contains a complete tissue of falsehoods.

3rd. As to what is true and what is false, I will refer those who are desirous of knowing, and who do not know, to such men as Hon. J. C. Nelson, J. D. Carter, W. J. Jones, David Everest, John Conlee of this city or to M. W. Ramsey of McMinnville, Andrew Calian of Dayton, Wm. Roberts of North Yamhill and a score of others I could name who have known me from the time I was a small boy.

I do not profess to have been a saint, and have done many wrong things in my time and things I would not do again, but I never have committed any crime for which I had to leave the country to avoid being arrested and punished by the laws of the state. L. F. HALL.

W. C. T. U. WORK.

The week ending July 25th, was a full one for the W. C. T. U. and all interested in their work. Monday evening the Demorest Medal contest under the direction of our efficient superintendent of that department, Mrs. Dr. Burgen, was held in Armory hall. It was one of the most interesting, successful and satisfactory contests ever held in Newberg.

Tuesday evening Mrs. Unruh, our state superintendent of Juvenile work lectured to a large audience in the Baptist church. Mrs. Unruh is a charming and eloquent speaker and her hearers were universally pleased. The recitation by Clara Burgen was well rendered and together with the cunning song of little Belle Gardner, met with hearty applause of the audience and closed an entertaining program.

Wednesday at 3 o'clock p. m., Mrs. Unruh met the ladies and children for the purpose of organizing an L. T. L., but finding no one who would assume the leadership the organization was not effected, although the effort will not be abandoned until we have succeeded in organizing the children and young people for more thorough and systematic teaching in the lines of temperance and purity of living.

Thursday we held our regular meeting of the W. C. T. U. The attendance was large and as usual the session an interesting one. The new superintendent reported by the nominating committee and adopted by the Union are Mrs. Anna Votaw superintendent of systematic giving, and Mrs. Vannie Martin of franchise. Press work still remains vacant and committee was ordered to fill the vacancy. Our president expressed her regret at the apparent lack of interest by the members of the Union in the effort to organized an L. T. L., tersely and aptly remarking that although Newberg is now a temperance towns where the fathers and mothers keep out the saloon. There are children growing now to manhood and womanhood here, who will not keep them out unless their teaching is more earnest and systematic than at present. It does not do to take results for granted, this should be organized action against the saloon among all ages.

Saturday, Mrs. Daley's residence was crowded by the thirty or more earnest, consecrated women who met in the capacity of a Mother's Meeting. The subject, "Mother's at the Ballot Box," Although rather a new one at Newberg, was ably discussed by Mrs. Jane Votaw, Mrs. Harford, Mrs. Edwards and others while the fact of the right and justice of franchise in the hands of women was heartily endorsed by all present. Jane Votaw read an extract from the July Chautauquan, giving some of the results of woman's ballots in Wyoming. Her criminals in 1890 numbered only about one-tenth the average of those in other western states. That according to the last available census the state had fewer insane than sisters states and among these no women. Also the rate of divorce is smaller than in any other western state. As figures cannot lie this report answers the most frequent objection brought against the ballot for women.

The mother's meetings are held the fourth Saturday of every month. The next one to be held at Mrs. Mary Morris' residence. Subject will be announced later. REPORTER.

A LETTER FROM MISS HOWARD.

AGASSIZ HALL, COTTAGE CITY, Mass.,
July 18th, 1892.

DEAR SIR:—Thinking it might be of interest to you, and others who take an active part in the advancement of Pacific College, I send you a short account of my present surroundings and manner of occupation.

I am attending Martha's Vineyard Summer Institute, which is just now the center of attraction to some five hundred teachers, convened from various states, for the purpose of obtaining some new ideas along some special line of study, or brushing the cobwebs away that have been collecting in unused corners. The location is especially fine, as it combines all the recuperating influences of a first class summer resort. Bathing facilities, exhilarating ocean breezes, magnificent ocean view, in fact everything to inspire and energize. Martha's Vineyard is an island, south of Cape Cod, about an hour's sail from the mainland. It is beautifully laid off to answer the purposes of a summer resort, also a camp ground for religious services, having a large Tabernacle built in the form of a tent, in which these services are conducted. Cottage City is certainly true to its name, being composed of fantastic looking cottages, seemingly set down in the midst of an immense, beautifully laid off park. I am not only enjoying these visible beauties of art and nature but am even more enthusiastic in regard to the intellectual beauties of Agassiz Hall. Almost every subject along the line of education is given a place on the curriculum, but as I am a limited mortal like most of the human family, I find my time well occupied with but three studies, Elocution, Physical Culture and Music.

Elocution is taught by Charles Wesley Emerson, M. D., L. L. D., who has formulated the theory of "Evolution of Expression." He is truly an ideal teacher of an ideal system. His gesture drill embodies the Delsarte principle, which it is claimed will develop health and grace of movement more surely and rapidly than any system of gymnastics. His voice culture is excellent and unique, based on the formation of ideal tones in the mind, while the class drill aims to maintain individuality and remain true to nature. His rich expressive voice and magnificent physique, are tangible exponents of the merits of the system. Personal contact with such a worthy educator is of itself an incalculable amount.

"Physical Culture" training is given by Baron Nil Posse, a Swede and an exponent of Swedish gymnastics, having worked his way to the front as an authority on this subject in Boston. He not only gives his pupils physical drill but also explains on scientific principles the physiological effect of every movement.

The music is under the directorship of Prof. George Howard of Boston, who is president of an institute there for the training of music teachers. Lectures are given by eminent men on popular topics while musical and literary entertainments make the evenings pass pleasantly. I am enjoying my advantages very much indeed, my only regret being that I have no friend with whom to share my blessings, but I hope that in the near future I may bring to my pupils in Pacific College some small share of the knowledge and enthusiasm gathered in this favored spot. My vacation is passing all too swiftly, but though sorry to part with the home friends, will be glad to once more greet my friends in Newberg.

ADA E. HOWARD.

Mr. Edmiston called at the *Ledger* office to say that the well that was bored for him by Messrs. Haworth & Stanbrough, gives perfect satisfaction. That speaks well for the Newberg firm that did the work. Those wanting wells bored had better take a note of this, and bear in mind the name of the firm, also where they can be found.—Yamhill Co. *Ledger.*

Mrs. Harford, of Newberg, lectured on Temperance Monday evening in the Christian church to a large audience. At the close of the lecture a vote of thanks was tendered her. She is a good speaker and made a strong plea for her cause. Her audience was well in sympathy with her subject and the lecture will do good. —Forest Grove *Times.*
