His hand which was the right one was badly mangled but it was fortunate that he escaped as well as he did. Dr. Burgen was called, who with the assistance of Dr. Littlefield removed the two middle fingers. The other two were badly cut but they hope to be able to save the remainder of the hand. In some manner last week in speaking of the new variety of peaches exhibited at the fair, the name of the exhibitor was given as Inis, when it should have been Innis. Also, the name of the W. C. T. U. reporter at Bettville should have been Rettle M. Dawson, instead of Durran.

Boys about town should be very careful with their bean shooters. One or two windows show evidences of their work, and some one is liable to lose an eye by means of these deceitful appearing nugs. A reported outbreak of cholera at Helmetta, N. J., created much excitement in that vicinity. Investigation showed that the disease was not cholera but a violent dysentery which is almost as severe and dangerous as cholera. Mr. Walter Willard, a prominent merchant of Jamesburg, two miles from Helmetta, says Chamberlain's Colic, Cholera and Diarrhea Remedy has given great satisfaction in the most severe cases of dysentery. It is certainly one of the best things ever made. For sale by C. F. Moore & Co.

All persons in town or country who during the dry weather have allowed trash to accumulate in ditches by the roadside, should proceed at once to clean it out, so that the water will run freely. Hundreds of dollars are spent in work on streets and public roads every year, that because of this carelessness on the part of property owners, is worse than wasted. The country road supervisor and the street commissioner get a good deal of gratuitous advertising of a very disagreeable kind, simply because the good they have done has been counteracted by the carelessness of property owners. There are one or two places on River street, where this applies, and if the obstructions are not removed when the rains come the water will soak into the ground and render the road as nearly impassible as it was last year. There are a number of places along country roads near town in the same condition. If it is worth while to make good roads it is worth while to put forth some small effort to keep them good.

Boys may be had (and sometimes girls) for—(1) ordinary service at wages; (2) upon indenture, (to work, attend school, and be brought up somewhat as your own); and—(3) children may be had for legal adoption. Address, J. H. MISENER, Supt. Oregon Boys' and Girls' Aid Soc'y, Portland, Or.

The past ten days she has spent in Benton county, attending the county convention at Philomath the 6th and 7th. Mrs. Harford is a tireless worker and makes a good impression wherever she goes.
