Mrs. Thomas Warner was examined last Saturday by Judge Galloway and the attending physicians, and committed to the state insane asylum. She was taken to Salem on Sunday by Mr. Warner and Joe Woods on the steamer Elwood.

A remonstrance is out protesting against a license being granted for a saloon at Dundee and we understand the prospect is favorable for success. As is usual in such cases those who are interested in the saloon have misrepresented the facts and have obtained the signatures of persons who have since signed the remonstrance.

A. M. Bray who was over from Dundee on Wednesday, informed us that there was a good prospect of changing the lines of the school district west of town and enlarging the territory so that there will be a hundred children of school age in the district. A new school house will be built and the school graded. The location of the house will probably be near Dundee.

A short time ago a committee composed of C. E. Hoskins, Dr. Mills and J. H. Rees was appointed by the horticultural society to make out a list of fruits and berries suitable for planting in this locality, both for market and home use. Their report as adopted by the society on last Saturday will be found in this issue. This article alone is worth double the price of the GRAPHIC for a year.

The regular church services being held in the Case neighborhood beyond Champco, by Martin Cook and Mrs. Yotaw, are not held in a school house now as we stated a short time ago. The people over there have joined together and have built a neat union church for their accommodation which will stand a monument to their efforts for the bettering of humanity. We are glad to correct the mistake we made in the announcement.

The revival services under the leadership of Rev. Thomas Brown are still continued at Friends church, both in the afternoon and evening. The afternoon meetings are very well attended and the services are proving a great blessing to the church. Powerful sermons by the pastor are listened to by crowded houses every night and the interest is increasing. A large number of conversions are already reported. One commendable feature of Rev. Brown's methods is his closing the meetings at a reasonable hour. The evening meetings close at nine o'clock.

Tuesday's Oregonian gave an account of a serious accident which befell the wife of Mr. Avery, of the firm of Avery, Churchill & Co., on last Monday. While going up the elevator in the Markham building in Portland, by the unskillful management of the man in charge of the elevator, she was thrown out by a sudden jerk, and fell to the bottom, a distance of 67 feet. A false work of plank near the bottom broke the force of the fall to some extent, and strange to say, while she was dangerously hurt, the physicians think she will recover.

Later—Mrs. Avery died Tuesday evening.

Mrs. Martin of Dundee, who was sent to a Portland hospital for treatment a short time ago, has been adjudged insane by Judge Moreland and committed to the asylum.

Editor George Graves has so far recovered from his sickness as to enable him to ride into town the first of the week. He is still very weak, but seems to be slowly improving.

The sale of the horse Zero took place last Saturday, according to advertisement. The weather was unfavorable and there were only few bidders. J. D. Carter was the purchaser at a very low figure.

Oran K. Edwards pulls the strings over a four horse team when he takes a crowd of young people out sleighing. He is a casual driver and the other boys seem perfectly willing to let him handle the horses.

Mr. Western, the expert burner for the pressed brick factory, arrived here from Chicago last week. The weather has not been so cold anything much but put the machinery in shape, but work will begin in earnest as soon as the weather settles.

A gentleman from Champco, who has the agency for several books, struck town last week, but the weather was so unfavorable that he returned home Tuesday. He was favorably impressed with Newberg and our people will probably receive a visit from him later.

Mr. C. F. Davis, editor of the Bloomfield, Iowa, Farmer, says: "I can recommend Chamberlain's Cough Remedy to all sufferers with colds and croup. Jarrett Todd, Ab and Lon Hill, John Brown, John Wetherell, Dr. Clark and Mr. Western went up the river yesterday by steamer, taking two boats with them. Their intention was to go as far as Salem and stay over night, then float down today and slay every duck and goose on the river. Anyone noticing any discoloration in the water of the Willamette today need not give themselves any uneasiness.

An unprecedented amount of snow has fallen during the past ten days. The beautiful has fallen at intervals almost every day and night during the time. It comes thick and fast for a little while then the sun shines with dazzling brightness for a corresponding length of time. The nights are clear and the moon shines over the white covering of earth in all his splendor, much to the gratification of the young people who improve each "sleazy morning" gliding over hill and dale. The continuous fall of snow has made as the sleighing as could be asked for. It is unusual anywhere to see so much snow with so little cold weather. The coldest we have had was on Tuesday night when the thermometer registered 15 above zero. Wednesday morning was the most blustering time of the winter.

Mr. Albert Favorite, of Arkansas City, Kan., wishes to give our readers the benefit of his experience with colds. He says: "I contracted a cold early last spring that settled on my lungs, and had hardly recovered from it when I caught another that hung on all summer and left me with a hacking cough which I thought I never would get rid of. I had used Chamberlain's Cough Remedy some fourteen years ago with much success, and concluded to try it again. When I had got through with one bottle my cough had left me, and I have not suffered with a cough or cold since. I have recommended it to others, and all speak well of it." 50 cent bottles for sale by C. F. Moore & Co., druggists.

Fred Bent, F. Comstock, J. B. Clifford, Chas. Floyd, Bell Kitching, Mike Johnson, A. T. Hill, P. M.

Just now while a special effort is being made to lead people of all classes to a higher plane of living, the following lines by Ben Johnson are quite appropriate.

It is not growing like a tree
In bulk, but rather like a man
It stands long on an oak three hundred year.
To fall a log at last, old and serene;
A lily of a day
Is fairer far in May,
Although it fall and die that night—
It was the plant and flower of Light.
In small proportions we just beauty see:
And in short measures life may perfect be.

Joseph V. Dory, of Warsaw, Ill., was troubled with rheumatism and tried a number of different remedies, but says none of them seemed to do him any good; but finally he got hold of one that speedily cured him. He was much pleased with it, and felt sure that others similarly afflicted would like to know what the remedy was that cured him. He states for the benefit of the public that it is called Chamberlain's Pain Balm. For sale by C. F. Moore & Co.

Marble Bath Turns.

The report that the bath tubs and laundry tubs in the elegant Lowenberg residence in this city would be made out of solid marble hollowed out from a whole block, just as a druggist's pestle is no doubt made, has awakened some comment among local builders. "I doubt very much," said one well known dealer in goods of this character, "if such tubs as these will ever be brought to Portland in reality. In fact, I think the history of the hollowed out bath tub is sufficient as-

FROM OUR EXCHANGES.

Once upon a time a certain man got mad at the editor and stopped his paper. The next week he sold his corn at 25 cents below market price. Then his property for taxes because he didn't read the sheriff's sale. He was arrested and fined \$8 for hunting on Sunday, and he paid \$300 for a lot of forged notes that had been advertised for two weeks, and the public cautioned not to negotiate for them. He then paid a big Irishman with a kick on him like a forge hammer, to kick him all the way down to a newspaper office, where he paid four years subscription in advance and made the editor sign an agreement to knock him down and rob him if he ever ordered his paper stopped again. Such is life without a newspaper.—Es.

Mr. Sullivan says the report that salmon in ascending a stream always turn to the left, arises from the fact that these fish seek cold water in which to spawn and that all of the cold streams come from the east. If this be true, and our legislature should provide for a fish wheel at Oregon City, our Yamhill river would still contain only chubs, suckers and catfish.—Reporter.

Anyone who attempts an argument with Judge Galloway on fruit culture now must know whereof he speaks. He is reading up, and is going into the business.—Reporter.

The delegation from this county to confer with one from Washington concerning the disputed boundary near Wapato lake will make the proposition to trade certain sections of land, which will prove of mutual benefit.—Reporter.

Uncle Dan Holman says there has been the least rain in Oregon this year of any January of his recollection for 49 years. An eastern man would construe the saying as complimentary to the behavior of the elements, but the reverse is true. Frogs and toads, and dismal skies, that have been ours for the past few days, are dispelled by the gentle rain in which a true Oregonian loves to slush about.—Reporter.

SCABBY MUTTON FOR PORTLAND.

Lars Gregerson of Carlton was brought before Justice Rhodes on Tuesday charged with moving diseased sheep on the public highway contrary to law. The complaint was filed by Dr. Minty, the county inspector, who represents that he had previously inspected the band and found them in exceedingly bad condition, so much so that the expense of treatment would exceed their value, and the defendant chose the privilege of killing the animals and burning their carcasses. Instead of doing so he moved them to the field of a neighbor, where they were sold to a Portland butcher and by him butchered and shipped to the metropolis to supply the craving demand for spring lamb. Gregerson's only infraction of the law was in moving them upon the public highway, but it may prove a pretty serious and expensive one before he gets through with it. He waived examination and was bonded over in the sum of \$500 to await action of the grand jury. The Portland butcher who is the worse offender, ought to be hunted down and sent to the pen for a year or two.—Reporter.
